"The book should be in the hands of every student of Vergil. It contains in a convenient and compendious form almost all that has been said on the subject that is worth saying, and omits what should be omitted; it is a sensible selection from the superfluous mass of commentation under which the poet has long been buried. It is impossible to speak too highly of it in this respect. Introduction, notes, and index are masterpieces of usefulness and brevity."—*Oxford Magazine.*

# POPULAR GRAMMARS BY C. P. MASON

RICE-WIGGIN, Esq., H.M. Inspector of Schools.*

**English Grammar.** Including the Principles of Grammatical Analysis. 33rd Edit., revised. 137th Thousand. Crn. 8vo, green cloth. 3s. 6d.

AMOUNT OF CLAIMS PAID (including Additions)	£2,958,860

Bonuses are declared every five years, and may be taken either by  
addition to the amount of the Policy, by a present payment of the value in money,  
or in diminution of premiums, at the option of the party.

The additions to Policies for Sixty-five years have been at the average rate of  
2 per cent. per annum.

The FOURTEENTH QUINQUENNIAL DIVISION OF PROFITS will be  
declared in June, 1895.

The Bonus declared in 1890, was at the same high rate as in 1885,  
amounting to Two-and-a-half per cent. per annum for the Five Years,  
or £125 Reversionary Bonus added to the Policy for each £1000 Assured.

An interim Bonus of  $1\frac{1}{4}$  per cent. per annum is paid on Policies becoming claims  
in the interval of each five years.

Very low rates of Premium on the Non-Profit scale.

A special With-Profit scale of Premiums for those wishing to assure their lives  
for the smallest possible outlay.

HEAD OFFICE: No. 6, ST. ANDREW SQUARE, EDINBURGH.

LONDON OFFICE: No. 17, KING WILLIAM STREET, E.C.

In this Society are combined the Advantages of

## MUTUAL ASSURANCE WITH MODERATE PREMIUMS.

The PREMIUMS are so moderate that an Assurance of £1200 or £1250 may generally be secured from the first for the yearly payment which usually would be charged (with profits) for £1000 only—equivalent to an immediate Bonus of 20 to 25 per cent.

The whole PROFITS go to the Policyholders, on a system at once safe and equitable—no share being given to those by whose early death there is a *loss* to the Common Fund. Large additions have thus been, and will be, made to the policies of those who participate, notwithstanding the lowness of the premiums.

The SURPLUS at last Investigation was £1,051,035, which, after reserving one-third, was divided among 9384 policies entitled to share. First additions (with few exceptions) ranged from 18 or 20 to 34 per cent., according to age and class. Other Policies were increased in all 50 to 80 per cent. and upwards.

N.B.—It is to be borne in mind that had the higher Premiums usually charged been paid, not only would the original Assurance have been greater, but the amount of Bonus additions would have been correspondingly larger.

Examples of Premiums for £100 at Death (with Profits).

Age next Birthday.	30	35	40	45	50
During Life .....£	2 1 6	2 6 10	2 14 9	3 5 9	4 1 7
21 Payments.....	2 15 4	3 0 2	3 7 5	3 17 6	4 12 1

[The usual *non-participating* Rates differ little from these Premiums.]

A person of 30 may secure £1000 at death, by the yearly payment, *during life*, of £20 15s. This Premium would generally elsewhere secure £800 only, instead of £1000. Or, he may secure £1000 by 21 yearly payments of £27 13s. 4d., *being thus free of payment after age 50*.

At age 40, the Premium *ceasing at age 60*, is, for £1000, £33 14s. 2d.—about the same as most Offices require during the whole term of life. Before the Premiums have ceased, the Policy will have shared in at least one division of profits. To Professional Men and others, whose income is dependent on continuance of health, this limited payment system is specially recommended.

The New Assurances for last 17 years have exceeded ONE MILLION annually.

**The Accumulated FUNDS now exceed £7,500,000.**

Arrangements as to SURRENDER ALLOWANCE, NON-FORFEITURE, LOANS ON POLICIES, EARLY PAYMENT OF CLAIMS, etc., are specially liberal. POLICIES as a rule are WORLD-WIDE after 5 years—provided assured has attained 30. REPORTS *with full information may be had on application*.

### EXTENSION OF ST. MARY'S HOSPITAL AND SCHOOL.

The land adjoining the Hospital, now covered by twenty-three houses, has lately been bought, and arrangements are now being made to build (1) a new out-patients department, and also in separate blocks, (2) a Residential College for Students, (3) new Special Wards, (4) a Nurses' Home, and (5) well-isolated Wards for Lying-in Women. The latter, now that there is a general outcry for the more thorough instruction of medical students in the practice of midwifery, will be a most valuable addition to the facilities for teaching.

This will add 100 beds to the Hospital, making 381 in all.

Their Royal Highnesses the Prince and Princess of Wales have graciously consented to lay the Foundation Stone of the new building. The estimated cost of this great addition to the Hospital and School is £100,000.

The prospectus may be had on application to Mr. F. H. MADDEN, the School Secretary.

## OBSERVATIONS.

The Divinity, Law, and Physic Schools are open during the whole of every Term, and the keeping of all Acts is entirely at the discretion of the respective Professors.

All Festivals, Saints' Days, and Sundays, are surplice-days, and the evenings preceeding are surplice-evenings.

On Litany days the Doctors and Noblemen wear their robes, and the Proctors their congregation-ruffs.

The Scarlet Days are Christmas Day, Easter Day, Ascension Day, Whitsunday, Trinity Sunday, All Saints' Day, the First Sunlay in November (the day for the Commemoration of Benefactors), Commencement Tuesday (the Tuesday next preceeding June 24), and any other days for which the Vice-Chancellor gives notice.

# THE ELECTORAL ROLL OF THE UNIVERSITY PROMULGATED OCTOBER 20, 1890.

HIS GRACE THE DUKE OF DEVONSHIRE, LL.D. *Trin.* Chancellor.  
The EARL OF POWIS, LL.D. *Joh.* High Steward.

# UNIVERSITY OF CAMBRIDGE.

HINC LUCEM ET POCULA SACRA.

---

DEUM TIMETO: REGEM HONORATO: VIRTUTEM COLITO :  
DISCIPLINIS BONIS OPERAM DATO.

*Statutes of the University.*

---

THE UNIVERSITY of CAMBRIDGE is an incorporation of students in all and every of the liberal arts and sciences, incorporated (13th Eliz. c. 29) by the name of "*The Chancellor, Masters, and Scholars of the University of Cambridge.*" In this commonwealth are seventeen Colleges, and two Public Hostels, founded for the study of learning and knowledge, and for the better service of Church and State. All these societies have been founded since the beginning of the reign of King Edward I.<sup>1</sup>, and are maintained by the endowments of their several founders and benefactors. Each (the two Public Hostels included) is a body corporate, bound by its own statutes; but is likewise controlled by the paramount laws of the University. A New Code of Statutes for the University was approved by Queen Victoria in Council in 1882.

The several societies in this literary republic furnish members both for the executive and for the legislative branch of its government. There are also members of the University who are not members of these societies. The legislative body of the University is called the Senate, and the place in which it assembles is called the Senate-House.

The Chancellor, Vice-Chancellor, Doctors of Divinity, Law, Medicine, Science, and Letters, Bachelors of Divinity<sup>2</sup>, and Masters of Arts, Law, and Surgery, having their names upon the University Register, have votes in this assembly. Those whose

names are removed from the Register lose the right of voting, but may recover it by replacing their names on the Register and paying all University dues from the time of removal of their names, 180 days being first allowed to elapse after the replacing of the names.

The Council of the Senate was established by the Act 19 and 20 Vict. cap. 88. Nothing can be offered to the Senate for confirmation without the sanction of the Council. The term Grace is used of a proposal offered to the Senate or confirmed by it.

The COUNCIL consists of the Chancellor, the Vice-Chancellor, four heads of Colleges, four Professors of the University, and eight other Members of the Senate chosen from the Electoral Roll published by the Vice-Chancellor. Two of the heads of Colleges, two of the Professors, and four other Members of the Senate are elected on the seventh of November in every other year by the Persons whose names are on the Electoral Roll, and they all hold office for four years.

The Electoral Roll is published in October each year, and is thenceforth the Electoral Roll for the year thence next ensuing. It consists of Members of the Senate who have resided within one mile and a half of Great St Mary's Church for fourteen weeks at the least between the first day of the said October and the first day of the preceding October, together with all Officers of the University being Members of the Senate, the Heads of Houses, the Professors, and the public Examiners.

Before the beginning of each Term the Vice-Chancellor publishes a list of the several days of that Term on which a Congregation or assembly of the Senate will be held for transacting University business; these fixed days occur about once a fortnight; but, in case of emergency, the Vice-Chancellor summons a special Congregation. There can be no Congregation without the presence of the Chancellor or the Vice-Chancellor or his deputy, the two Proctors, and the Registrary, or their deputies. Except supplicats for degrees, no Grace can be offered to the Senate without three days' previous notice, unless at least *twenty* Members of the Senate are present. Graces remain in force till they are rescinded; but no Grace is valid which is inconsistent with the Statutes.

The executive branch of the University is committed to the following officers:—

A CHANCELLOR, who is at the head of the University to govern it according to the Statutes. He adjudicates in all causes between members of the University except in matters of mayhem and felony.

A HIGH STEWARD, who has special power to take the trial of scholars impeached of felony within the limits<sup>1</sup> of the University, and to hold and keep a leet according to the established charter

<sup>1</sup> The jurisdiction of the University extends a mile every way round reckoned from any part of the suburbs.

and custom. He appoints a Deputy by letters patent, the appointment being subject to the approval of the Senate.

A VICE-CHANCELLOR, who in the absence of the Chancellor, or, with his consent, in his presence, or in the vacancy of the office, acts with the full powers of the Chancellor. The office is annual.

A COMMISSARY, who holds a court of record for all privileged persons, and scholars under the degree of M.A. He is appointed by the Chancellor by letters patent.

The SEX VIRI, elected by Grace of the Senate, to hold office for two years: who, with the Chancellor, constitute a Court to hear all accusations against members of the University, who are not *in statu pupillari*, for offences against the Statutes or Ordinances of the University. The Court has the power of punishing offenders by deprivation or suspension of degree, or any lighter sentence: but there is liberty of appeal to the Senate from its decision. The Court of Discipline for persons *in statu pupillari* consists of the Chancellor and six Heads of Colleges appointed by Grace.

A PUBLIC ORATOR, who is the voice of the Senate upon all public occasions. He writes letters in the name of the University, whenever the Chancellor and Proctors think fit, and presents to all honorary degrees with an appropriate speech.

A LIBRARIAN, who has charge of the University Library.

A REGISTRARY, who attends all Congregations and all public proceedings of the Chancellor or of the University, records proceedings, and has charge of all writings and documents delivered to him by the Chancellor.

AN ASSISTANT REGISTRARY, who must be a member of the Senate, and who is under the general direction of the Registrary, and is appointed by him with the consent of the Vice-Chancellor.

TWO PROCTORS, who are peace-officers, elected annually. It is their duty to attend to the behaviour of all persons *in statu pupillari*, and to maintain public morals. Another part of their duty is to be present at all Congregations of the Senate, to read the Graces, to take the assent or dissent, and to pronounce the same.

TWO PRO-PROCTORS, who assist the Proctors in that part of their duty which relates to discipline and the behaviour of persons *in statu pupillari*, and the preservation of public morals; they also attend all Congregations.

TWO ADDITIONAL PRO-PROCTORS, who assist the Proctors in like manner as the other Pro-Propctors. They attend Congregations when requested by the Vice-Chancellor.

TWO ESQUIRE BEDELLS, who attend the Chancellor (or, in his absence, the Vice-Chancellor), whom they precede with their

silver maces upon all public occasions and solemnities; they receive from him the Graces at Congregations, and deliver them to the Proctors; they summon members of the Senate to the Chancellor's Court: they see to the maintenance of the University ceremonies and the forms of conducting public business.

The UNIVERSITY MARSHAL is appointed by the Vice-Chancellor,

The TWO MEMBERS, whom the University sends to the Imperial Parliament of the United Kingdom of Great Britain and Ireland, are chosen by the Members of the Senate.

The UNIVERSITY COUNSEL are appointed by Grace of the Senate, and are consulted upon various occasions.

The SOLICITOR is appointed by the Vice-Chancellor.

SYNDICS are the members of special committees of members of the Senate, appointed by Grace from time to time for specific duties.

There are SPECIAL BOARDS OF STUDIES for departments of study, consisting of Professors, and of persons appointed from time to time by Grace: and there is a GENERAL BOARD OF STUDIES, consisting of the Vice-Chancellor, one member of each Special Board elected by that Special Board, and eight members of the Senate elected by Grace.

The ANNUAL INCOME of the University arises from various sources, amongst which are

The Rectory of Burwell and a farm at Barton:

The produce of fees at matriculation, at certain examinations, and for degrees, and other irregular sources of income not easily enumerated, the gross amount of which is very variable:

The trading profits of the UNIVERSITY PRESS:

A Tax of four shillings and three-pence per quarter paid by every member of the University:

Contributions from Colleges, as provided by the Statutes.

For the care and management of the property and income of the University there is a FINANCIAL BOARD, consisting of the Vice-Chancellor, two members of the General Board of Studies elected by that Board, four members of the Senate elected by the Colleges in common, and four members of the Senate elected by Grace on the nomination of the Council of the Senate.

The University Accounts are examined annually by Auditors appointed by the Senate, and a Summary of them is published to the University.

The officers and servants of the University are paid mostly by fixed salaries from the University Chest.

By Statute the TERMS of this University are three, and include 227 days at least. Michaelmas Term begins on October 1. Lent Term ends not later than the Thursday next before Easter Day. Easter Term begins not earlier than the Tuesday next after Easter Day, and ends on June 24.

By Grace of October 12, 1882, Michaelmas Term ends on December 19, and Lent Term begins on January 8: and Lent

Term ends and Easter Term begins according to the following table :

2. FELLOWS, who generally are Graduates in one or more of the several faculties. The number of Fellowships in the University is nearly 400.

3. NOBLEMEN GRADUATES, DOCTORS in the several faculties, BACHELORS IN DIVINITY, MASTERS OF ARTS, MASTERS OF LAW, and MASTERS OF SURGERY, who are not on the foundation. The expense of keeping the name upon the boards varies in different Colleges from about £2 to about £4 per annum.

They are for the most part elected, by direct examination or otherwise, at different periods either prior or subsequent to the commencement of their residence at the University, from the most promising and distinguished Students.

7. PENSIONERS, who form the great body of the Students, who pay for their commons, chambers, &c.

8. SIZARS are generally Students of limited means. They usually have their commons free, and receive various emoluments.

Non-Collegiate Students are admitted members of the University under certain regulations, for the place of which see Index, "Non-Collegiate Students."

## MATRICULATION.

Matriculation, or enrolment of the Students' names in the University books, takes place on the day following (or, if that day be Sunday, the day next but one following) the last day of the first quarter of each Term. Students matriculated on any other day than a day of general matriculation pay extra fees<sup>1</sup>.

Every Student on matriculating subscribes the following declaration :

"I promise to observe the Statutes and Ordinances of the University so far as they concern me, and to pay due respect and obedience to the Chancellor and other officers of the University."

No Student can count any Term before that in which he has matriculated unless he has satisfied the Council of the Senate that his matriculation has been deferred for sufficient cause.

Every Student, before he can be admitted to a degree, must have completed nine terms' residence during three-fourths of each term as a member of a College, or of a Public Hostel, or as a Non-Collegiate Student.

Provided also that the authorities of the Colleges and Hostels, and of the Non-Collegiate Students Board, shall be empowered to continue their existing practice in the case of such students as have already commenced residence and would be prejudiced by the change.

For the purpose of this regulation the day shall be held to extend from 6 A.M. to midnight.

THE SPECIAL BOARDS FOR PHYSICS AND CHEMISTRY and for BIOLOGY AND GEOLOGY in joint meeting assembled issue the following notice with regard to the First Part of the Examination for the Natural Sciences Tripos.

In the papers set in Part I. of the examination the questions in all the subjects will be of a comparatively elementary character, and will be such as to test a knowledge of principles rather than of details. Specimens may be exhibited for description and determination.

In Physics the questions will be limited to the elementary and fundamental parts of the subject, and, in particular, special attention will be paid to the definition of physical quantities, the general principles of measurement, the configuration and motion of a material system, the laws of motion, the comparison of forces and of masses and the properties of bodies. In Sound, Light, Heat, Electricity and Magnetism, only the fundamental laws, their simpler applications, and the experiments which illustrate them, will be required.

In Chemistry the questions will relate to the leading principles and experimental laws of Chemistry, the properties of the commoner elements and their principal compounds, the outlines of Metallurgy, and simple qualitative and quantitative analysis.

In Mineralogy the questions will be confined to elementary Crystallography, the general properties of minerals and the special characters of those species only which are of common occurrence or of well-known mineralogical importance.

In Geology the questions will be limited to Physical Geography, the interpretation of the structure of the crust of the earth and the history of its formation, so far as to involve only the elementary parts of Palæontology and Petrography.

In Botany the questions will relate to the elementary parts of Vegetable Morphology, Histology, and Physiology; and to the principles of a natural system of classification as illustrated by the more important British Natural Orders. Candidates will be required to describe plants in technical language. Questions will not be set on Vegetable Palæontology or the Geographical Distribution of Plants.

In Zoology and Comparative Anatomy minor details will not be included in the questions relating to classification. Geographical distribution of animals is held to be a part of Zoology, and Comparative Anatomy includes the structure of extinct as well as of recent forms.

Human Anatomy will include the mechanism of the human body, the comparison of its parts with those of lower animals, its development, &c.; but the questions will be of a simple and elementary character.

In Physiology the questions will be of a comparatively elementary character.

A practical examination will be held in each of the above subjects.

On behalf of each Candidate for a degree must be presented to the Council of the Senate:

1. A Supplicat, in the form prescribed by the Senate, signed by the Head or Prælector of the College or the Principal of the Hostel to which the applicant belongs, or, in the case of a Non-Collegiate Student, by the Chairman of the Board for Non-Collegiate Students, or by the Censor, or by their respective Deputies, these Officers or their Deputies being members of the Senate in full possession of their privileges as such.

One of the Bedells carries the Supplicats to the Proctors; the Senior reads them, and, if all are approved, he says, *Omnes placent*. But, if any are disapproved of, he says, *A.B. &c. non placent, reliquæ placent*. The Supplicats are then delivered to the Registrar.

Candidates for degrees must be presented by members of the Senate in full possession of their privileges as such.

The Vice-Chancellor takes the chair before the table, and a Bedell having desired the respective Fathers to be in readiness with their Sons precedes the Father of the Senior Wrangler and his Son to the Vice-Chancellor.

The Father, taking the Senior Wrangler by the right hand, presents him in these words:

*Dignissime Domine Domine Pro-Cancellarie, et tota Academia, præ-sento vobis hunc juvenem, quem scio tam moribus quam doctrinâ esse idoneum ad titulum assequendum baccalaurei in artibus designati; idque tibi fide meâ præsto totique Academiæ.*

The Senior Wrangler then kneels down before the Vice-Chancellor, who, taking his hands between his own, admits him in these words,

*Auctoritate mihi commissâ admitto te ad titulum baccalaurei in artibus designati, in nomine Patris et Filii et Spiritus Sancti.*

Candidates for degrees, belonging to different Colleges are presented by their respective Fathers in the following order: King's, Trinity, St John's, Peterhouse, Clare, Pembroke, Gonville and Caius, Trinity Hall, Corpus Christi, Queens', St Catharine's, Jesus, Christ's, Magdalene, Emmanuel, Sidney Sussex, Downing;

<sup>1</sup> For fees, see p. 119.

then follow members of Public Hostels in the order of date of recognition of their Hostels, and then Non-Collegiates. Four or five Candidates are presented at once, the Father saying, *Præ-sento vobis hos juvenes quos, &c.*

As soon as they have been presented, they are directed by one of the Bedells to the south side of the Senate-House.

On the first day of General Admission in the Easter Term all the Candidates from the same College are admitted in alphabetical order immediately after presentation before those from the College next in order are presented. On the second day of General Admission in the Easter Term there are three Congregations at such hours as the Vice-Chancellor may appoint. At the third Congregation the remaining Candidates are admitted in the order of their Colleges, all the Candidates from the same College for the degree of B.A. and LL.B. respectively being admitted in alphabetical order immediately after presentation and before the Candidates for either degree from the College next in order are presented.

When the admissions are concluded, the Vice-Chancellor dissolves the Congregation.

At ordinary Congregations, students who have been approved for the B.A. Degree are admitted in the order of their respective Colleges.

## MEDICAL DIPLOMAS IN PUBLIC HEALTH.

An Examination in so much of State Medicine as is comprised in the functions of Officers of Health is held under the superintendence of a Syndicate, and begins yearly on the first Tuesday in October.

Any person whose name is on the Medical Register of the United Kingdom may present himself for this Examination provided (*a*) he be in his 24th year at least when he presents himself for the first part of the Examination, and have attained 24 years of age before he presents himself for the second part; (*b*) a period of not less than twelve months shall have elapsed between the time when he first obtained a registrable qualification and the time when he presents himself for the second part of the Examination; (*c*) he produce evidence of having, after obtaining a registrable qualification, attended during a period of six months on a course of Practical Laboratory Instruction in the subjects of the first part of the Examination, such course having been approved by the Syndicate; (*d*) he produce evidence of having for six months practically studied the duties of out-door Sanitary work under the Medical Officer of Health of a County or large Urban District.

Provisions (*b*), (*c*), (*d*) do not apply to (*a*) Candidates whose names shall have been placed on the Medical Register of the United Kingdom or who have obtained a registrable qualification on or before January 1, 1890; (*β*) Candidates who have for a period of three years held the position of Medical Officer of Health to any County, or to any Urban District of more than 20,000 inhabitants, or to any entire Rural Sanitary District.

The Examination is in two parts.

Part I. comprises—Physics and Chemistry. The principles of Chemistry, and methods of analysis with especial reference to analyses of air, water and food. Application of the microscope. The laws of heat, and the principles of pneumatics, hydrostatics and hydraulics, with especial reference to venti-

lation, water-supply, drainage, construction of dwellings, disposal of sewage and refuse, and sanitary engineering in general. Sources of water-supply. Statistical Methods in relation to Public Health.

Part II. comprises—Laws of the realm relating to public health. Origin, propagation, pathology, and prevention of epidemic and infectious diseases. Effects of over-crowding, vitiated air, impure water, and bad or insufficient food. Unhealthy occupations and the diseases to which they give rise. Water supply and drainage in reference to health. Nuisances injurious to health. Distribution of diseases within the United Kingdom, the effects of soil, season, and climate.

The Examination in each part occupies two days, and is oral and practical as well as in writing.

Candidates may present themselves for either part separately or for both together at their option; but the result of the examination in the case of any Candidate will not be published until he has passed in both parts.

Every Candidate is required to pay a fee of four guineas before admission to *either part* of the Examination.

Every candidate who has passed both parts of the Examination to the satisfaction of the Examiners receives a diploma testifying to his competent knowledge of what is required for the duties of a Medical Officer of Health. The holders of these diplomas are designated briefly by the letters "D. P. H. Camb."

All applications for admission to this Examination, or for information respecting it, should be addressed to DR ANNINGSO, Walt-ham-sal, Cambridge.

The following suggestions have been drawn up by the Syndicate for superintending the Examination in State Medicine as some guide to Candidates preparing for that Examination.

PART I. The principles of Chemistry are sufficiently set forth in any of the ordinary manuals. Candidates will be expected to understand the application of the general laws to such cases as occur in the practice of a medical officer of health, but will not be expected to shew an acquaintance with those details of Chemistry which have no direct bearing on sanitary questions. It is not expected that medical officers of health will in general be able to act as public analysts, but that they will know the methods of analysis and be able to interpret correctly the results of professional analysis. The kinds of applications of the several sciences of which the Candidates are expected to shew a competent knowledge will be best understood by a perusal of Parkes's *Manual of Practical Hygiene* and Wynter Blyth's *Manual of Public Health*. In the actual analysis of air, water and food Candidates will not be expected to make complete quantitative analyses, but to know how to apply ordinary chemical and physical methods for the examination of the samples. Candidates will be expected to shew a practical acquaintance with the use of the microscope and with the methods of bacteriological examination.

PART II. Candidates will be expected to shew an acquaintance with the sanitary laws in force in England; but if any Candidate has information respecting alternative laws in force in the Metropolis or in Scotland or in Ireland, opportunity will be given him, alternatively, of shewing his acquaintance with such laws.

The rest of Part II., besides the subjects expressly mentioned, is to be understood as including those of Vaccination, Disinfection, the management of the outbreaks of Infectious Diseases, the construction of Hospitals temporary or permanent; Endemic Diseases; Vital Statistics, including those of disease; the Inspection of factories, mines, workshops, schools, and common lodging-houses.

### UNIVERSITY LOCAL EXAMINATIONS.

THESE Examinations were instituted in 1858. They are conducted at various places throughout the country by means of printed papers set by a central body of Examiners and worked by the candidates in the presence of Examiners sent down for that purpose. For seven years the Examinations were open to boys only. In 1865, a Grace of the Senate admitted girls also to the Examinations for 1865, 1866, 1867; and in 1867 girls were put permanently on the same footing as boys, except that the names of the successful Candidates are not given in the Class Lists in the case of girls unless the Candidate desires it.

The Candidates are either Seniors or Juniors. The former are under 19 years of age, the latter under 16, or, under special conditions, between 16 and 18. Every Candidate pays to the Syndicate a fee of £1. The local expenses of providing an Examination room, stationery, &c., are borne by the local Committee of Management at each centre of Examination, and to meet these expenses a local fee is charged to each Candidate by the local Committee. This fee is usually from five to ten shillings.

The Syndicate is authorized to admit generally to the Examination for Senior Students persons over the age of 19, on condition that such Students as are over the age of 19 on the 15th day of December in the year in which the Examination is held are not placed in one of the Honour Classes.

The Senior Candidates can procure exemption from the Previous Examination on the following terms:—

From Part I. by passing in Religious Knowledge, including the original Greek of the Gospel, and attaining a certain standard intermediate between the ordinary pass standard and that of distinction in the Latin and in the Greek division of Section C.

From Part II. by attaining a certain standard intermediate between the ordinary pass standard and that of distinction in Religious Knowledge or Elementary Logic, in Euclid and in Algebra.

From the Additional Subjects by attaining a certain standard intermediate between the ordinary pass standard and that of distinction either (a) in Applied Mathematics, or (b) in French, or (c) in German.

### HIGHER EXAMINATIONS FOR MEN AND WOMEN.

Examinations for Women above 18 years of age (now above seventeen and a half years of age) were instituted in 1869, and made permanent in 1871. They were thrown open to Men in 1873. They take place in June, and there is a supplementary Examination in December. Candidates must have completed seventeen and a half years of age before the first day of the month following that in which the Examination is held, or must have obtained an Honours Class in the Senior Local Examinations. Each Candidate pays to the Syndicate a fee of £2, and £1 for each subsequent Examination.

The Certificate excuses from Part I. of the Previous Examination if the Candidate has passed in Religious Knowledge, in Latin, and in Greek: from Part II. if he has passed in Religious Knowledge or Logic, and in Euclid and Algebra: from the Additional Subjects if he has passed either in (a) Statics, Dynamics, and Astronomy, or (b) in French, or (c) in German.

### COMMERCIAL CERTIFICATES.

An Examination for Commercial Certificates is held along with the Local Examinations in December.

### EXAMINATION OF SCHOOLS.

The Syndicate sends Examiners to inspect and report upon schools which make application. In 1890 one hundred and five schools were thus examined.

### UNIVERSITY LOCAL LECTURES.

These were commenced in 1873. There are about 60 centres. Lecturers are sent to deliver courses of lectures in populous places, each lecture being preceded or followed by a "class" for more detailed instruction. The usual charge for a course of 12 lectures and classes is £45, exclusive of travelling and local expenses. In 1887 powers were obtained to affiliate Lecture Centres to the University, and the following have been affiliated:—Derby, Hull, Newcastle-upon-Tyne, Scarborough, Sunderland, Exeter, Plymouth.

Full particulars on all the above can be obtained on application to the Secretary of the Local Examinations and Lectures Syndicate at the Syndicate Buildings, Mill Lane, Cambridge.

### OXFORD AND CAMBRIDGE SCHOOLS EXAMINATION BOARD.

This Board was formed in accordance with Articles of Agreement signed on Nov. 8, 1873, by representatives of the two Universities.

The Board examines such Schools as have a regularly constituted Governing Body, or prepare a fair proportion of their boys for the Universities. It also grants Certificates to boys under education at School, who are examined under its authority. The Certificate Examination may be

combined with the Examination of any School to which the Board appoints Examiners. Candidates under education at a School to which the Board does not appoint Examiners are examined at a few convenient centres.

A School Examination, held under the authority of the Board, may be of one or more of the following kinds:—

- (a) Such an Examination in the general work of the School, extending either to the whole School or to portions of the School to be selected with the approval of the Board, as will enable the Examiners to report generally upon the School work.
- (b) Such an Examination in any main subject or subjects of instruction, extending either to the whole School or to portions of the School to be selected with the approval of the Board, as will enable the Examiners to report on the standard reached in that subject or subjects.
- (c) Such an Examination of the highest division of the School as will enable the Examiners to report upon the general work of that division, and, if required, to place the boys in order of merit, and to award exhibitions, scholarships, and prizes.

There is one Examination for Higher Certificates in each year in July.

The Examination for Higher Certificates includes the following Subjects:

—Group I. (1) Latin. (2) Greek. (3) French. (4) German.

Group II. (1) Mathematics (elementary). (2) Mathematics (additional).

Group IV. (1) Natural Philosophy (Mechanical Division). (2) Natural Philosophy (Physical Division). (3) Natural Philosophy (Chemical Division). (4) Botany. (5) Physical Geography and elementary Geology. (6) Biology.

Every Candidate is required to satisfy the Examiners in at least four Subjects taken from not less than three different groups, and no Candidate is permitted to offer more than six Subjects. If however a Candidate satisfy the Examiners in one subject taken from Group II. or IV., he may offer three subjects taken from Group I.; also a Candidate who already holds a Certificate may offer four subjects taken from not less than two different groups.

The Board also examines Girls under the same Regulations as for Boys, with four additional Regulations providing for the option of substituting Italian for Greek, and Music for Natural Philosophy (Mechanical Division), and in being examined in Drawing, and of passing the required four subjects two at a time.

About 5 weeks after the Examinations, a list of all Candidates who have passed is published. To each successful Candidate a Certificate is given, signed by the Vice-Chancellors of the Universities of Oxford and Cambridge, specifying (a) the subjects in which the Candidate has passed merely, (b) the subjects in which he has passed with distinction. These Certificates confer exemption, under certain conditions, from various Examinations held by public bodies, including the Previous Examination in the University of Cambridge, and the Examination for Responsions in the University of Oxford. The Higher Certificates exempt from the first part of the Previous Examination when the Candidate has satisfied the Examiners in Scripture Knowledge (showing a knowledge of the Greek Text), and in Greek and Latin; from the second part, when the Candidate has satisfied the Examiners in Scripture Knowledge, and in Elementary and Additional Mathematics; and from the Examination in the Additional Subjects when the Candidate has satisfied the Examiners in I. ## INDIAN CIVIL SERVICE STUDENTS.

By Grace of May 10, 1883, a Board of Indian Civil Service Studies was constituted, to consist of eight persons, of whom two should retire each year but be re-eligible. The principal function of the Board is to provide from time to time, for Indian Civil Service Students resident at Cambridge, such assistance in preparing for their periodical examinations, and also such special supervision, as they may think necessary, applying for that purpose such funds as may be assigned to them from time to time by the Senate. By Grace of Nov. 21, 1889, the Board was further authorised to correspond on behalf of the University with the Government and other bodies on all matters connected with the interests of Cambridge students proposing to become candidates for first selection for the Indian Civil Service; and by Grace of Nov. 20, 1890, it has been made the duty of the Board to report annually the results, as regards Cambridge candidates, of the examination for first selection, and any changes in the Regulations, and to append such remarks and suggestions as they may think useful.

Information respecting the arrangements made from time to time by the Board may be obtained from the Secretary, Sir Roland Knyvet Wilson, Brookfield, Newnham, Cambridge.

## HONORARY DEGREES.

Titles of Degrees in Arts, Law, Medicine, Surgery, Science, Letters, or Music may be granted to foreigners of distinction, and to British subjects who are of conspicuous merit or have done good service to the State or to the University.

Peers, or sons of Peers, who come to the University in their youth and desire to proceed to the degree of B.A., must keep by residence the same number of Terms as other Students in Arts and are admitted to the title of Bachelors designate of Arts under the same conditions.

No person taking a degree *honoris causa* is entitled to a vote in the Senate unless he shall have resided three Terms.

10. That no licence shall be granted to any person for more than one year, nor beyond certain limits in the Town, such limits to be defined and published from time to time by the Syndicate.

11. That in special cases the Syndicate may grant provisional licences, to continue in force until the end of the next Michaelmas Term, or for any shorter period.

12. That every certificate of licence shall be signed on behalf of the Syndicate by the Vice-Chancellor or his deputy and the two Proctors.

13. That a statement shall be sent after every licensing day to the Master, Tutors, and Deans of every College, containing the names, residences, and occupations of the persons to whom licences have been granted, together with the number of sets of lodgings in each case and their respective prices.

14. That before receiving a licence every applicant shall sign the following declaration and promises:

I declare that the house for which I apply for a licence is in my own occupation.

I hereby promise that:

1. I will not let my lodgings to any Student without written permission from his Tutor, and I will not require him to take them for more than one Term certain:
2. I will shew my licence if required to any Student desirous to take my lodgings:
3. Before I receive as lodger any person who is not a member of the University I will obtain written permission from the Syndicate; and also from the Tutor of each Student lodging in my house at the time:
4. I will report to the Syndicate the Names and Colleges of all Students lodging in my house, with such other particulars as the Syndicate may require:
5. At Ten o'clock every night I will lock the outer doors, and securely fasten the shutters of the ground-floor of my house, and I will take means to prevent any one from entering or leaving the house between 10 p.m. and 6 a.m. without my knowledge; and between those hours the outer doors of my house shall not be opened, except by the master or mistress in person, or by a representative approved by the Syndicate:

6. That I will not allow on any account a key of any outer door of my house to any lodger :
7. I will note down the time after Ten o'clock (or such earlier hour as the University or College authorities may direct) at which any Student lodging in my house enters or leaves the house, and will deliver or send by a responsible person a statement thereof once a week (or oftener, if required) to the College authorities, with a special note of occasions on which such Student has so entered or left without his academical dress :
8. In case a Student lodging in my house has not entered or left the house after Ten o'clock during any week I will send a statement to that effect at the end of the week :
9. I will report to the College authorities early the next morning if any Student lodging in my house shall (1) leave the house after 10 P.M., (2) enter after midnight, (3) being confined to gates, enter after the appointed hour, or (4) pass the night out of his lodgings :
10. I will allow none but inmates of the house to have access to the rooms of any Student lodging in my house after 10 P.M., without written permission from his Tutor, except in cases of illness or other urgent necessity :
11. I will not supply or receive into my house for any Student a dinner or supper for more than three persons without written permission from his Tutor :
12. I will not supply or receive into my house for any Student provision for any entertainment whatever on Sunday without written permission from his Tutor :
13. I will not admit hired musicians into my house without written permission from the Syndicate :
14. In case any infectious disorder shall break out in my house, either during Term or in Vacation, I will at once inform the Syndicate.

Ordinary Licences may be granted for rooms in houses situated within the Precincts of the University, which are defined as extending two miles and a half from Great St Mary's Church, measured in a direct line.

A person *in statu pupillari* keeping terms by residence must reside within the precincts of the University

- (1) In some College or Hostel, or
- (2) In a house licensed by the Lodging-House Syndicate, or
- (3) With his parents or parent, or
- (4) In his own, or in his hired house, or with his relatives, or others

under special circumstances, provided that in each case the permission of the Lodging-House Syndicate shall have been obtained on application from the Head of his College or from the Chairman of the Non-Collegiate Students Board as the case may be.

The Syndicate may extend their permission, in such cases, backwards so far as to include the whole of the current term in which such permission is applied for and granted, but no further backwards.

CLASSICAL TRIPOSES. NEW REGULATIONS.

*The Examinations are held in Easter Term.*

A Student who has obtained Honours in Part I. may be a Candidate for Honours in Part II. following, provided that he has then kept seven terms, and that twelve terms have not passed after the first of the seven.

The names are arranged alphabetically, in Part I. in each division of each class, in Part II. in each class.

In Part II. the letters *b, c, d, e*, appended to the name of a candidate denote the section or sections for which he is placed in the first class. The combination of two letters thus, "*b* with *c*" or "*c* with *d*," indicates that a candidate has obtained a first class on the combined result of two sections. The letter *a* indicates that the candidate to whose name it is appended has also attained a first class standard in section A. The asterisk denotes special distinction.

## MORAL SCIENCES TRIPOS. NEW REGULATIONS.

A Student who has obtained Honours in Part I. or in some other Honour Examination, may be a Candidate for Part II. provided that he has kept seven terms and that twelve terms have not passed after the first of the seven.

In Part II. the italic letters appended to the name of a candidate denote the subject or subjects for which he is placed in the first class. The letter *a* denotes the compulsory subjects; *a*<sub>1</sub>, Ethics and Metaphysics; *a*<sub>2</sub>, Ethics and Political Philosophy. The special subjects are denoted by *b*, History of Philosophy; *c*, Advanced Psychology and Psychophysics; *d*, Advanced Logic and Methodology; and *e*, Advanced Political Economy. The combination of two letters, thus *b* with *c*, indicates that a candidate has obtained a first class on the combined result of the two subjects. The asterisk denotes special distinction.

# UNIVERSITY OFFICERS, &c.

[For distinguished characters unnoticed in this and the following pages, see the list of *Tripuses*.]

## CHANCELLOR.\*

THE office of Chancellor is held for two years, or for such a length of time beyond two years as the tacit consent of the University permits. The election of a Chancellor must be completed before the fifteenth day after declaration of a vacancy, and is *more burgensium*. If the vacancy becomes known in Vacation after the end of Easter Term, it is declared on the first day of the ensuing Michaelmas Term. At the time of election the Vice-Chancellor and Proctors stand in scrutiny, and first write their votes. Members of the Senate then bring their votes written in the same form, and the Vice-Chancellor pronounces the election.

At the time of election the two Proctors stand in scrutiny with the Vice-Chancellor, who is the returning officer. The members of the Senate give their votes in writing in person or by voting papers tendered for them.

## SERMONS IN THE UNIVERSITY CHURCH.

THE Vice-Chancellor appoints the preacher of the Ramsden Sermon, the preacher for the afternoon of Commencement Sunday, the preachers for the Assizes, and for extraordinary Fasts and Thanksgivings.

Except for Commencement Sunday and the days assigned to the Hulsean Lecturer and the Preacher of the Ramsden Sermon, Select Preachers are appointed yearly for the Sunday afternoons from the beginning of Michaelmas Term to the end of Easter Term, for the afternoons of Christmas Day, Good Friday, and Ascension Day, and for such six or more Sundays in the Long Vacation as may be appointed by the Vice-Chancellor.

The Select Preachers are appointed by a Syndicate consisting of the Vice-Chancellor, the four Professors of Divinity, the two Proctors, and four Members of the Senate elected by Grace, who in every year before the end of the Easter Term assign the days for preaching the Hulsean Lectures, and appoint the Select Preachers, for the next academical year; the days on which each Select Preacher is to preach being also determined by the Syndics. If any Select Preacher be prevented from preaching on the days assigned to him, the Syndics appoint another preacher in his place.

Of the said four Members of the Senate one retires by rotation on the 31st of December in every year, and his place is supplied by another elected at the next ensuing Congregation, the retiring Member not being re-eligible at that election.

For every Sermon the Select Preacher is paid a fee of three guineas out of the Common Chest.

### BELL SCHOLARSHIPS.

THE Rev. WILLIAM BELL, D.D., Prebendary of the Collegiate church of Westminster, and late Fellow of Magdalene College in this University, transferred, in the year 1810, £15,200 stock, 3 per cents., to the University of Cambridge, in trust, to found eight Scholarships. On the receipt of this benefaction, Scholars were elected in such a manner, and for such a period, that two Scholarships will become vacant every year.

1 The Examiners were of opinion that H. J. Glover, Scholar of St John's College, were de-

from undergraduates of the same year as the Scholar who has vacated the Scholarship. Every Scholar elected on this foundation must promise in writing to take the degree of B.A. in the most regular way. Where personal merits are equal, those are to be preferred who stand most in need of assistance. If any Scholar shall degrade or determine to go out in a bye term, or declare for law, or be rusticated or expelled, his Scholarship is to be *ipso facto* vacant. The profits to continue for four years and no more. No person may ever have two sons Scholars, nor may there be two orphans, brothers, Scholars on this foundation at the same time. If no sons or orphans of clergymen of the Church of England be found properly qualified for the Scholarships, then, and then only, the electors are to elect the sons of laymen, being undergraduates, who stand in need of assistance.

The electors are, the Vice-Chancellor, the Regius Professor of Divinity, the Lucasian Professor of Mathematics, and two Members of the Senate appointed by Grace of the Senate at the last Congregation in November in every year. Of the three Examiners, other than the Regius Professor of Divinity and the Lucasian Professor, two shall examine, specially but not of necessity exclusively, in Classics and one in Mathematics. If an *ex officio* elector is prevented from examining, a deputy is to be appointed by Grace of the Senate. The Examination commences on the Monday next after the second Sunday in Lent. The names of Candidates must be made known to the Vice-Chancellor not later than the Monday next before the commencement of the Examination. The election takes place on the Friday after Midlent Sunday. The Electors are required to take account of the ability, learning, character, and pecuniary circumstances of the Candidates.

### THE THOMAS BARNES SCHOLARSHIP.

JOHN BARNES, Esq. of the Middle Temple, London, proposed to place the sum of £2000, 3 per cent. Consolidated Bank Annuities, in the names of certain Trustees, upon Trust, that during the life of his Sister ANNE BARNES, the dividends and annual income thereof should be applied for her use and benefit, or, upon certain contingencies, for the benefit of the said Trustees, and that after her death the said Bank Annuities should be transferred to the Chancellor, Masters and Scholars of this University, upon Trust, for the foundation of a Scholarship, to be called "The THOMAS BARNES Scholarship," in memory of his Brother THOMAS BARNES, M.A., deceased, late of Pembroke College. This proposal was accepted by Grace, Feb. 7, 1844, under the following Regulations:

1. That the first Election of a Scholar on this foundation shall take place as soon as conveniently may be after the decease of the said ANNE BARNES, and all subsequent Elections as soon as conveniently may be after the Scholarship shall have become vacant.

2. That the Vice-Chancellor, the Regius Professor of Divinity, the Lucasian Professor of Mathematics, and the two Members of the Senate appointed by Grace to examine for the Bell Scholarships, each for the time being, or their respective Deputies to be appointed by Grace of the Senate, shall elect the Scholars on this foundation, in such manner as they shall determine upon: but that in all such Elections they shall govern themselves conscientiously by the following rule: "In his eligendis præcipua ratio semper habeatur ingenii, doctrinæ, virtutis, et inopiæ; ut quo magis quisque ex eligendorum numero his rebus antecellat, eo magis, ut æquum sit, præferatur." Of the three Examiners, other than the Regius Professor of Divinity and the Lucasian Professor, two shall examine, specially but not exclusively, in Classics and one in Mathematics.

3. That the Candidates for the Scholarship shall be Undergraduates in their first year, and that Undergraduates shall be deemed to be in their first year, if of not more than one year's standing

1 The Electors were of opinion that the merits of equal to those of the successful Candidates.

from the time of their first residence; and that this further qualification shall be requisite, viz., that the Candidates shall have been educated on the Foundation of Christ's Hospital, St Paul's School, or the Merchant Taylors' School, in the city of London, and shall have come to the University directly from one of those Schools; but that, if in any case there be found no Candidate so circumstanced, who in the opinion of the Electors is fit to be elected, then the said Scholarship for that turn only shall be thrown open to all the Undergraduates of the University, who are, according to the terms above specified, in their first year.

4. That every Scholar elected on this Foundation shall promise in-writing to take a Degree in the most regular manner, by performing the Exercises and undergoing the Examinations appointed by the University for that purpose, and, in case of such promise being broken, the Scholarship shall be *ipso facto* vacant.

5. That the Scholar shall be entitled to the profits of the Scholarship for a period of four years, unless he shall before the expiration of that period die, degrade, go out in a Bye Term, or be rusticated or expelled, in either of which cases the Scholarship shall be *ipso facto* vacant.

6. That the profits of the Scholarship, consisting of the dividends of the said Bank Annuities, shall be paid to the College Tutor of the Scholar for the time being, for the use of such Scholar, as soon as may be after the days on which the said dividends become due.

7. That the said Electors shall be the Auditors of the accounts of this institution.

8. That, when the Electors meet to elect a Scholar, the business shall be entered upon by having the Deed of Foundation, as far as it relates to the Scholarship, read aloud by one of the Electors to the rest.

9. That the University shall have power to alter and determine from time to time, by Grace of the Senate, the Regulations respecting the persons who are to examine the Candidates and elect the Scholars.

### ABBOTT SCHOLARSHIPS.

IN the year 1871, the Executors of the late John Abbott, Esq. of Halifax in the county of York, offered to the University a sum of £4000 bequeathed by Mr Abbott for the purposes of establishing two Scholarships at the University; this offer was accepted by Grace of the Senate, Feb. 9, 1871. The following are the Regulations:

1. The Electors to these Scholarships shall be the Vice-Chancellor, the Regius Professor of Divinity, the Lucasian Professor of Mathematics, and the two Members of the Senate, appointed by Grace to examine for the Bell Scholarships, provided that, in case any of the *ex officio* Electors be prevented from taking part in the

Examination, a Deputy shall be appointed in each case by Grace of the Senate. Of the three Examiners, other than the Regius Professor of Divinity and the Lucasian Professor, two shall examine, specially but not exclusively, in Classics and one in Mathematics.

2. The Candidates for these Scholarships shall (except in cases hereafter specified) be Undergraduates in their first year, and Undergraduates shall be deemed to be in their first year, if of not more than one year's standing from the time of their first residence. Among such Candidates, sons or orphans of Clergymen in the Church of England who stand in need of assistance to enable them to obtain the benefit of an University Education shall be chosen, if there be any in the opinion of the Electors sufficiently deserving: if not, sons of Laymen, being Undergraduates who stand in need of assistance, may be chosen. Other things being equal, Candidates born in the West Riding of the County of York shall have the preference.

3. The Examination shall commence on the Monday next after the second Sunday in Lent.

4. The names of the Candidates for the vacant Scholarships shall be made known to the Vice-Chancellor by their respective Tutors not later than the Monday next before the commencement of the Examination.

5. Each Scholar when elected in his first year of residence shall be entitled to receive one-half of the annual profits of the endowment for a period of three years, unless he shall before the expiration of that period die, or be rusticated or expelled, in any of which cases the Scholarships shall be *ipso facto* vacant.

6. If at any time a Scholarship shall become vacant before the expiration of the term of three years, another Scholar shall, as soon as conveniently may be, be chosen for the remainder of the said term from among Undergraduates of the same year as that of the Scholar whose Scholarship has been vacated before the proper time.

7. Neither of these Scholarships shall be tenable with a Bell Scholarship or with the Barnes Scholarship.

### TYRWHITT HEBREW SCHOLARSHIPS.

THE REV. ROBERT TYRWHITT, M.A. Fellow of Jesus College, who died in 1817, by his Will bequeathed £4000 for the promotion of the study of Hebrew.

The Senate in 1818 decreed the foundation of three Scholarships, increased in 1826 to six. The following are the Regulations:

1.—THAT there shall be six Scholarships, called Tyrwhitt's Hebrew Scholarships.

2.—That the candidates for these Scholarships shall be, first, (*actualiter*) Bachelors of Arts or Inceptors who are not of sufficient standing to be created Masters of Arts; or secondly, Students in the Civil Law or Medicine, of not less than four or more than seven years' standing, who shall be required, before they are admitted to become candidates, to produce certificates from their respective Professors, that they have kept the exercises necessary for the degree of Bachelor of Law or Physic.

3.—That out of the net annual proceeds of Mr Tyrwhitt's Benefaction the sum of £150 be divided among the six Scholars, in the proportions hereinafter specified.

4.—That the electors to these Scholarships shall be the Vice-Chancellor, the Regius Professor of Hebrew, the Professor of Arabic, and two members of the Senate, to be nominated by the different Colleges according to the cycle of Proctors, and appointed by Grace of the Senate at the last Congregation in November in each year.

5.—That, if the Regius Professor of Hebrew, or the Professor of Arabic, or both of them, shall decline, or be prevented from examining, a deputy or deputies shall be appointed by a Grace of the Senate.

6.—That, if it shall happen at any time, that two of the offices severally constituting electors are united in the same person, the deputy for the elector in respect of one of the said offices shall be the Lord Almoner's Reader in Arabic; but, if in any case the Lord Almoner's Reader shall decline the office of deputy examiner, or shall be prevented from undertaking the said office, a deputy examiner shall be appointed in his place by a Grace of the Senate.

7.—That, if the Vice-Chancellor, the Regius Professor of Hebrew, the Professor of Arabic, or any two of them, shall be members of the same College, no elector shall in that case be appointed by that College according to the cycle of Proctors; but the appointment shall be made by a Grace of the Senate.

8.—That the appointment, when requisite, of an examiner or examiners by Grace of the Senate take place at the first Congregation of the Lent Term of the year, and that the examiner or examiners so appointed continue in office until the first Congregation in the Lent Term of the following year.

9.—That the examination for these Scholarships commence annually on the second Wednesday in May; and that persons intending to be candidates send in their names to the Vice-Chancellor on or before the first day of May.

10.—That two Scholars be elected in each year; that the first in the order of merit of these two receive an annual stipend of £30,

1 In consequence of successive reductions of interest of the Stock, in which Mr Tyrwhitt's Benefaction was invested, the sum received by the University became reduced to 135*l.* per

annum. To meet the deficiency a Subscription was opened, and a fund amounting to 400*l.* Exchequer Bills and 86*l.* was offered to the Senate, and accepted by Grace, June 12, 1862.

and the second an annual stipend of £20, for three years from the time of election. That in case of equality of merit the stipend of each be £25.

11.—That, if it should appear in any case to the majority of the electors that no one of the candidates is deserving of a Scholarship with the stipend of £30 a year, it shall be competent for them to elect one or two Scholars, each with a stipend of £20 a year.

12.—That, in case there shall be a deficiency of deserving candidates for the two Scholarships in any year, the electors shall have power, in the second or third succeeding year, to elect additional Scholars into the vacancy, or vacancies, thus occasioned; after which time the stipends, belonging to the Scholarships which have not been filled up, shall be appropriated in the manner appointed in the next regulation.

13.—That the residue of the net annual proceeds of Mr Tyrwhitt's benefaction, not already disposed of by the third regulation, together with all accumulations which may arise under the twelfth regulation, shall form a fund to be expended in the promotion and encouragement of Hebrew Literature, at the discretion of the examiners, provided that not more than a third part of such fund be expended in any year.

14.—That the accounts of this Bequest be kept distinct from the general Accounts of the University, and be annually audited by the electors in Michaelmas Term before the first of November; and, being so audited, shall be laid on the Registry's Table in the Senate-House at the next Congregation, for the inspection of the Senate.

The following Grace passed the Senate, *May 8, 1842*:—

“That the Examiners shall publish the names, arranged in the order of merit, of such candidates as pass the examination with credit.”

## WHEWELL SCHOLARSHIPS FOR INTERNATIONAL LAW.

THE Rev. William Whewell, D.D., late Master of Trinity College, made provision by his will for the establishment of Scholarships of International Law, which were accepted by Grace of the Senate, Dec. 12, 1867.

The Scholarships are to be eight in number, tenable for four years under conditions of residence, which can only be dispensed with by express permission of the Council of Trinity College. Permission of non-residence is granted only in exceptional circumstances, and, as a rule, to a Scholar who is making a special study of International Law. It is only granted for one year at a time, and in general, non-residence for an Academic term without permission vacates the Scholarship. A non-resident scholar must send at Lady Day and at Michaelmas each year to the Senior Bursar of Trinity College a declaration, countersigned by some responsible person, that he is *bonâ fide* making a study of International Law, and at Michaelmas he must make a report of his work in such study during the year.

A Scholar holding a diplomatic or consular appointment under the Crown is not required to reside but must send at Lady Day and Michaelmas each year to the Senior Bursar satisfactory evidence that he has held such appointment during the whole of the previous year.

Two Scholars are to be chosen every year at some time before the commencement of Michaelmas Term, one of whom shall receive an annual payment of £100, and the other an annual payment of £50.

The Electors are the same as for the Professorship of International Law.

All persons under the age of twenty-five years are eligible to these Scholarships; but no one who has once gained a Scholarship is allowed to be a candidate a second time. Every person elected is entitled, and, if not already a member of some College in Cambridge, is required, to become a member of Trinity College.

In the Examination for the Scholarships six papers will be set,

<sup>1</sup> The Examiners considered that J. Sharpe, B.A. of Christ's College, acquitted himself with credit.

<sup>2</sup> A donation of 20*l.* was awarded to J. H. Battersby, Trinity.

<sup>3</sup> The Examiners were of opinion that A. Appleton, of Trinity College, passed the Examination with credit.

<sup>4</sup> A donation of 20*l.* was awarded to R. O. Hutchinson, B.A., Jesus.

the subjects assigned to each being indicated in the following scheme:—

1. General History of International Law with special reference to the 17th and 18th centuries.
2. Foreign relations of the principal civilized states during a specified period to be varied from time to time.
- 3 and 4. Present rules of Public International Law, including the subjects of Nationality, Jurisdiction and Domicile.
5. Problems, disputed points and proposed changes.
6. Political Philosophy, including the general theory of Law and Government, and Political Economy so far as it bears upon International Law.

### LIGHTFOOT SCHOLARSHIPS FOR HISTORY.

A proposal made by the Rev. Joseph Barber Lightfoot, D.D., Hulsean Professor of Divinity, to transfer to the University a sum of £4500 (viz. £2000 Madras Irrigation Guaranteed Stock, £1500 East Indian Railway Debentures, and £500 Bombay and Baroda Railway Debentures, all bearing interest 5 per cent., together with £500 in the 3 per cent. Consols), for the purpose of founding Scholarships for the encouragement of the study of History and more especially of Ecclesiastical History, was accepted by Grace of the Senate, Nov. 24, 1870, under the conditions contained in the following Regulations:

1. The Scholarships shall be three in number; they shall be assigned after examination, and shall be open for competition to all members of the University who, having resided at least one year and being still in residence or having taken their first degree, are under 25 years of age, when the Examination begins; but no one, who has been elected to one of these Scholarships, shall be allowed to compete again.

2. Each Scholarship shall be tenable for three years.

1 Proxime accessit A. R. Ropes, B.A. King's,

2 Proxime accesserunt G. M. Edwards Jones, B.A. Pemb., T. A. Walker, Pet.

3. After the payment of the Examiners, as hereinafter directed, one-third of the residue of the annual interest arising from the Fund shall be paid to each Scholar.

4. If at any time a Scholarship is not adjudged owing to the want of duly qualified Candidates, or is vacated by death or resignation or by any other cause, the sums which would have been paid to the holder shall be invested and added to the principal.

5. The Examination shall be conducted by two Examiners to be nominated by the Council and appointed by Grace of the Senate. So far as is found convenient, one Examiner in each year shall be a member of the University of Cambridge and the other a member of the University of Oxford.

6. The Examiners shall be appointed before the close of the Lent Term of the year preceding that in which they are required to examine.

7. Each Examiner shall receive £15.

8. The Examination shall commence in each year on the second Tuesday in the Easter Term.

9. The Examination shall consist of three parts:

(a) A selected portion of History, of which notice shall have been given by the Examiners before the division of the Easter Term in the preceding year, and which Candidates shall be required to have studied, as far as possible, from original sources. This portion may consist of a definite period or periods, or of a definite transaction or transactions, or of a biography or biographies.

(b) A choice of subjects for Essays, of which the Candidates shall be required to select one or more, as the Examiners may direct.

(c) Questions taken from or suggested by the following books:

De Broglie, *L'Église et l'Empire Romain*.

Bryce, *Holy Roman Empire*.

Guizot, *Histoire de la Civilisation en Europe*.

„ *Histoire de la Civilisation en France*.

Milman, *History of Latin Christianity*.

Ranke, *History of the Popes*.

„ *History of the Reformation*.

10. In determining the selected portion of History, and in setting the subjects for Essays, regard shall be had, as far as possible, to the special object of the foundation, which is the encouragement of the study of Ecclesiastical History in itself and in connexion with General History; and the range of choice in both cases shall be limited to the period between the Accession of Marcus Aurelius (A.D. 161) and the Fall of the Holy Roman Empire (A.D. 1806).

11. If the Examiners are unable to agree between two Candidates, their papers shall be submitted to the Professor of Modern History, who shall award the Scholarship to one or other, or divide it between the two, at his discretion.

12. Besides the name of the successful Candidate, the Examiners shall likewise publish the names of those who have acquitted themselves in the Examination so as to deserve honourable mention.

13. The first Examination for one of these Scholarships shall be held in the Easter Term, 1873: and one Scholarship shall be offered for competition in the same term in each succeeding year. The interest, which shall accrue from time to time before this scheme comes into full operation, shall be invested and added to the principal.

14. The list of books mentioned in the 9th regulation may be revised from time to time by agreement between the Hulsean Professor of Divinity and the Professor of Modern History for the time being; but any change on which they may agree shall be submitted to the Vice-Chancellor and shall not take effect without his consent.

15. The Senate shall have power from time to time to make such changes in the above regulations as may appear desirable; provided always that the object of the foundation as mentioned in the preamble be strictly respected, and provided likewise that no change be made during the lifetime of the founder without his consent.

## BALFOUR STUDENTSHIP.

ON the death in July, 1882, of FRANCIS MAITLAND BALFOUR, M.A., F.R.S., Fellow of Trinity College, who had been elected on May 31, 1882, Professor of Animal Morphology, a Balfour Memorial Fund was raised by subscription; and investments made from it, £5000 Metropolitan Railway Debenture Stock, and £1500 London and North Western Railway Debenture Stock, were accepted by the Senate by Grace of June 14, 1883, with regulations for the administration of the Fund.

The administration is entrusted to Managers in conjunction with the Special Board for Biology and Geology. Eventually the Managers are to be three in number, to be elected by the Board for periods of five years in each case.

<sup>1</sup> The Examiners were of opinion that F. J. Foakes-Jackson, of Trinity College, acquitted himself very creditably.

<sup>2</sup> The Examiners were of opinion that the merits of F. J. Fulford, B.A., Clare College, were nearly equal to those of the successful Candidate.

<sup>3</sup> The Examiners were of opinion that C. J. Bristowe, B.A. Trinity Hall, acquitted himself with credit.

<sup>4</sup> The Examiners were of opinion that the merits of W. E. Collins, B.A., Selwyn College, were very nearly equal to those of the successful Candidate.

<sup>5</sup> The Examiners were of opinion that W. A. J. Archbold, B.A. St Peter's, acquitted himself with credit.

The income from the Fund is to be applied

- (1) To endow a Studentship to be called the Balfour Studentship, the holder of which shall devote himself to original research in Biology, especially Animal Morphology.
- (2) To further by occasional grants of money original research in the same subject.

The Studentship is to be of the net annual value of £200, or such larger sum as the University may from time to time determine. If at any time the annual income from the Fund is less than £200, the whole is to be paid to the Student.

The Managers nominate to the Studentship and the Board elects. There is no competitive examination, and the Student need not be a member of the University. He must devote himself to original Biological research under penalty of deprivation. The place and the nature of his studies are subject to the approval of the Managers; but, except with leave to the contrary, he must pursue his studies within the University for at least three terms during tenure. The tenure is for three years, but may be renewed for the whole or part of a second period of three years.

Any balance of the income from the Fund is to be devoted to the furtherance of original research in Biology, especially Animal Morphology, by grants for such purpose to the Balfour Student or to any other person engaged in such research.

The University may under specified conditions and with specified exceptions alter the regulations, and may on the recommendation of the Financial Board vary the investments from time to time.

The Student is elected by the Managers of the Craven Fund, who are the Vice-Chancellor and five other persons appointed by Grace of the Senate on the nomination of the Special Board for Classics. The Studentship is of the annual value of £200. The following are the Regulations:

The Studentship shall be tenable for one year; but a Student shall be eligible for re-election on not more than two occasions.

Candidates for election or re-election to the Studentship must be graduates of the University of not more than five years standing from the completion of their first degree.

Each Candidate shall send to the Vice-Chancellor a statement of the course of advanced study which he proposes to undertake if elected. Such course shall involve absence from Cambridge for not less than six months.

The Student shall be elected by the Managers of the Craven Fund, who may take such steps as they may think fit to enquire into the qualifications of the Candidates; provided that the Studentship shall not be awarded by the result of a competitive examination.

The Managers of the Craven Fund are the Vice-Chancellor and five other persons appointed by Grace of the Senate on the nomination of the Special Board for Classics.

### HARKNESS SCHOLARSHIP.

MRS PEARSON, of Penrith, being desirous of promoting the study of Geology and Palæontology in memory of her brother, Robert Harkness, sometime Professor of Geology at Queen's College, Cork, bequeathed to the University the sum of £1750 and the residue of her personal estate for the foundation of a Scholarship for proficiency in the Science of Geology, including Palæontology, to be called the "Harkness Scholarship." Mrs Pearson dying in 1884, the residue of her personal estate amounted to about £1900.

The following Regulations were approved by Grace of the Senate, March 10, 1887:

1. There shall be a Scholarship to be called the Harkness Scholarship, which shall be awarded annually for proficiency in Geology including therein Palæontology.

2. Any member of the University shall be eligible to the Scholarship who has passed some final Examination for the degree of Bachelor of Arts provided that on the day of election not more than three years have elapsed since the 19th day of December next following the said final Examination.

3. A Scholar shall be elected in the month of June in each year by a Board of Electors consisting of the Vice-Chancellor, the Woodwardian Professor of Geology, the Examiners in Geology for the Natural Sciences Tripos for that year and those for the preceding year, and one additional Elector who shall be nominated by the Special Board for Biology and Geology and appointed by the Senate in the Michaelmas Term of every third year, and who shall hold office for three years.

If the place of such additional Elector shall become vacant before the end of the three years, a successor shall be appointed in like manner for the remainder of the three years.

No business shall be transacted unless three members of the Board be present.

4. The names of candidates shall be made known to the Vice-Chancellor not later than May 31 in each year.

5. In making the award the Electors shall have regard to proficiency in Geology including therein Palæontology, and to promise of future work.

6. The Electors shall have authority to take any steps they think advisable to enable them to ascertain the qualifications of the candidates; any necessary expenses incurred by them in so doing shall be charged to the Fund.

7. The Scholar shall receive one moiety of the net annual income of the Fund upon election and the other moiety at the Christmas next following.

8. In case no person be deemed worthy of the Scholarship the income for that year shall be placed to a Reserve Fund.

9. The Board of Electors may if they think fit make a grant to be paid out of the Reserve Fund to the Scholar to assist him in prosecuting Geological or Palæontological researches.

10. In case the Reserve Fund at any time exceed £250 the excess over £250 shall be carried to the Capital Fund.

## JOHN LUCAS WALKER STUDENTSHIP AND EXHIBITIONS.

MR JOHN LUCAS WALKER having left by will in 1886 to the then Attorney-General a sum of money to be spent in the promotion, without regard to sect or party, of Scientific or Literary Research, or of either of those objects in Cambridge or in London or in both places, the following Scheme and Regulations were submitted by the Attorney-General to the University, and accepted by Grace of the Senate, March 10, 1887.

1. The Fund shall be called the "John Lucas Walker Fund," and shall be devoted to the furtherance of original research in Pathology.

2. The Trust Fund shall consist of £4,162 North-Eastern Railway 4 per Cent. Debenture Stock and £4,120 London and North-Western Railway 4 per Cent. Debenture Stock, invested in the name of "The Chancellor, Masters and Scholars of the University of Cambridge," and of any other monies from time to time invested by the Managers pursuant to the powers hereinafter mentioned, and of the dividends or income from time to time arising from such investments.

3. The administration of the Fund shall be entrusted to the Professor of Pathology in the University of Cambridge, in conjunction with a Board consisting of three Managers.

The Regius Professor of Physic in the University of Cambridge, the Professor of Physiology in the University of Cambridge, and the President of the Royal College of Physicians of London, shall be the Managers.

No resolution of the Managers shall be valid unless approved of by at least two Managers, at a meeting to which all the Managers have been summoned.

4. In case a Deputy shall be appointed in accordance with the provisions of Stat. B, ch. xi, §§ 8 and 9 of the Statutes of the University of Cambridge, to discharge the duties of any of the three Professors aforesaid, such Deputy shall, for all the purposes of these regulations, take the place and exercise the powers of the Professor whose Deputy he is, during such time as he may be acting as such Deputy.

5. The income of the Trust Fund shall from time to time as and when received be paid to the Managers and placed to a separate account, and shall be applied from time to time as follows :—

(1) To endow a Studentship to be called the John Lucas Walker Studentship, the holder of which shall devote himself to original research in Pathology.

(2) To further original research in Pathology, by additional Studentships or Exhibitions, Prizes or Grants, at Cambridge or in London.

6. The Studentships, Exhibitions, and Prizes may be held by and awarded to persons of either sex, and words of the masculine gender hereinafter used shall import the feminine.

*Regulations respecting the John Lucas Walker Studentship.*

7. The Studentship shall be of the annual value of £200, or of such larger annual sum, not exceeding £300, as the Managers shall from time to time determine.

8. Three months before the date at which, in due course, the Studentship would become vacant, or immediately upon the occurrence of any casual vacancy, the Professor of Pathology shall give such public notice thereof as the Managers may think desirable; and the Professor of Pathology shall report to the Managers upon the qualifications of all candidates whose names are sent in to him. The Professor of Pathology shall at the same time nominate one of the candidates as the person best qualified, in his opinion, for election, and the Managers shall either elect the person so nominated, or such other of the candidates as the three Managers may unanimously agree to elect.

9. The nomination and election shall be made so that the newly-elected Student may be able to enter upon the Studentship as soon as the vacancy occurs, or as soon after as is practicable.

10. The Studentship shall not be awarded by the result of a competitive examination.

11. Subject to the foregoing provision, the Professor of Pathology or the Managers may take such steps as they may think fit to ascertain the qualifications of the candidates.

12. The Student shall not necessarily be a member of the University of Cambridge.

13. The Student during his tenure of the Studentship shall devote himself to original Pathological research, and shall not systematically follow any business or profession, or engage in any educational or other work, which, in the opinion of those entrusted with the administration of the Fund, would interfere with his original enquiries. In any books, papers, or publications in which the Student may publish the results of the investigations carried on during his Studentship, he shall, where practicable, describe himself as the "John Lucas Walker Student."

14. If the Professor of Pathology shall at any time learn that the Student is following any such business or profession, or has undertaken any such work as will in the opinion of such Professor interfere with his original enquiries, he shall at once call upon him to desist from the same, and if he shall refuse or neglect so to do, the Professor of Pathology shall

report the circumstances to the Managers, and the Managers may, if they think fit, remove such Student from the Studentship.

If the Professor of Pathology shall be of opinion that, through any other causes, such as confirmed ill health or want of diligence, the Student is not fulfilling and is not likely to fulfil the objects of the Studentship, he shall report accordingly to the Managers, and the Managers may, if they see fit, remove such student from the Studentship.

If, during his Studentship, a Student is appointed a Professor, or elected to and accepts a Fellowship, other than an Honorary Fellowship, he shall vacate his Studentship as from the day on which such appointment or election takes effect.

15. The place and nature of the studies of the Student shall be subject to the approval of the Professor of Pathology, provided that the Student shall be bound to pursue his studies within the University during at least three terms of his tenure of the Studentship, unless the Professor of Pathology shall, with the approval of the Managers, dispense with this requirement for special reasons. The Professor of Pathology shall take such steps as he may think necessary to satisfy himself as to the diligence and progress of the Student, and may require from him any reports or other information on the subject of his studies which he may think desirable.

16. The Studentship shall, subject as hereinbefore mentioned, be tenable for three years, at the end of which time a fresh nomination and election shall take place; but it shall be lawful for the Professor of Pathology, if he shall think fit, to recommend, and for the Managers, if they shall think fit, to elect, for a second period not exceeding two years, any Student whose labours during the period of his holding the Studentship shall have been of such exceptional promise that it would, in the opinion of the Professor of Pathology and of the Managers, be clearly in the interests of Pathological research that such Student should continue to hold the Studentship for such further period.

17. The income of the Studentship shall be payable to such Student from the date of his appointment, and shall be paid to the Student by equal quarterly payments, the payment for each quarter being made in advance.

18. If, after due notice of a vacancy, there shall be, in the opinion of the Managers, no suitable candidate for the Studentship, it shall be lawful for the Professor of Pathology, with the approval of the Managers, to suspend the election for a time not greater than one year, and if at the expiration of such time there shall, after notice of the vacancy given, be no suitable candidate as aforesaid, the election may be again suspended in the same way, and so on until, in the opinion of the Managers, there shall be a suitable candidate for the Studentship.

19. The income of the Studentship during any vacancy shall be added to the Reserve Fund hereinafter mentioned.

*Regulations respecting the John Lucas Walker Exhibitions and Prizes.*

20. Exhibitions or Prizes may from time to time be awarded by the Managers to any person in respect of any essay, discovery, or meritorious service connected with or conducing to the Science of Pathology.

21. No Exhibition or Prize shall exceed the value of £50, and not more than £50 shall be expended in any one year in such Exhibitions or Prizes.

22. No Exhibition or Prize shall be awarded to any person during the tenure by such person of the John Lucas Walker Studentship.

*Regulations respecting the Balance of Income.*

23. The balance of the income of the Trust Fund, after providing for the Studentship Exhibitions and any Prizes which may have been awarded, and for any necessary expenses connected with the management and application of the Trust Fund, may be devoted to the furtherance of original research in Pathology.

24. Grants for this purpose may be made by the Managers on the recommendation of the Professor of Pathology, either to the John Lucas Walker Student or to any other person engaged in such research, subject to any conditions made by the Professor of Pathology with the approval of the Managers.

25. Any unapplied balance of income of the Trust Fund shall be carried to a Reserve Fund.

26. The Reserve Fund, or any portion of it, may be from time to time invested by the Managers in the name of the Chancellor, Masters and Scholars of the University of Cambridge in such manner as they shall think fit.

27. Grants may be made from the Reserve Fund in the same way as from the annual income.

28. If on any occasion the Professor of Pathology shall recommend, and the Managers shall be of opinion that a second John Lucas Walker Student should be appointed, and the Funds at the disposal of the Managers will admit of such appointment, such second Student may be appointed in the manner aforesaid; such Studentship shall be tenable for such period not exceeding three years, and shall be of such annual value, not exceeding £200, as the Professor of Pathology, with the approval of the Managers, may determine. The stipend of such second John Lucas Walker Studentship shall be payable out of the Reserve Fund, and for this purpose the Managers may have recourse as well to the capital as the income of the Reserve Fund.

29. These regulations, except regulation 1 and regulation 29, shall be subject to alteration, by Grace of the Senate, at any time after five years from the date of the acceptance of the Fund by the University, provided that the regulations marked 5, 7, 10, 12, 13, 20, 21 and 23 shall not be altered before the expiration of fifty years from the aforesaid acceptance, and that in all cases the main object of the Fund, viz., the furtherance of original research in Pathology, shall be adhered to.

7. The Electors in electing the Student shall be guided by the promise shewn by the candidate of capacity for original research in Experimental Physics, and shall take such steps as they may think desirable to enable them to form a judgment of such promise.

8. The Student so elected shall devote himself under the direction of the Cavendish Professor to original research in Experimental Physics within the University; he may however carry on his researches elsewhere if he has first obtained the written permission of the Cavendish Professor to do so.

9. The Scholarship shall be tenable for three years, and a Student who has once held the Scholarship shall not be capable of re-election.

Every such suspension of election shall be communicated to the Vice-Chancellor for publication to the Senate.

15. The income of the Scholarship during any vacancy shall be invested from time to time in the name of the Chancellor, Masters and Scholars of the University of Cambridge, and form part of the Capital Fund.

16. These Regulations except Regulations 1, 2, 5, 9, and 15 shall be subject to alteration by Grace of the Senate at any time after five years from the acceptance of the Capital Fund by the University, provided that in all cases the purpose of the foundation shall be adhered to, namely the advancement by original research of Experimental Physics, and especially of Electricity, Magnetism, and Heat.

## ISAAC NEWTON STUDENTSHIPS.

IN 1890 Mr Frank McClean offered securities to the value of about £12,500, for the founding of Isaac Newton Studentships in Astronomy and Physical Optics. The offer was accepted and the following Regulations approved by Grace of the Senate, March 5, 1891.

1. The Fund shall be called the Isaac Newton Studentships Fund and shall be devoted to the encouragement of study and research in Astronomy (especially Gravitational Astronomy but including other branches of Astronomy and Astronomical Physics) and Physical Optics.

2. The Fund shall consist of the following securities: £3200 A Ordinary Stock of the Gas Light and Coke Company and £2100 B Stock of the South Metropolitan Gas Company or such stocks funds and securities as shall from time to time represent or be added to the aforesaid sums of stock.

3. The Trustees of the Fund shall be the Master Fellows and Scholars of Trinity College. The Trustees shall have power, during the lifetime of the donor Frank McClean M.A. with his consent in writing and after his decease at their own discretion, from time to time to convert into money the Trust Fund or any part thereof and to re-invest the same in or upon any other stocks funds and securities, whether or not stocks funds and securities in or upon which investments can ordinarily be made by trustees, and so as that as far as may be practicable the income of the Trust Fund shall not be diminished below the present amount: and they

shall not be responsible for any loss which may arise in the exercise by them of the aforesaid discretionary power.

4. In case and so often as the income of the Trust Fund shall fall short of the sum of £750 then in each year after payment of all expenses of and attending the execution of the trust and of the amounts payable to the Electors and to the Students or Student the residue of the income or so much thereof as shall be required to be invested for the purpose of raising the income to the aforesaid amount of £750 shall be added to and form part of the capital of the Trust Fund and be accordingly invested in or upon any such stocks funds and securities as aforesaid.

5. The income of the Fund shall be primarily applicable to the maintenance of three Students to be called the Isaac Newton Students whose duty it shall be to devote themselves to study and research in Astronomy (especially and including as aforesaid) and Physical Optics.

6. The persons eligible to the Studentships shall be members of the University who have been admitted to the degree of Bachelor of Arts and who shall be under the age of 25 years on the first day of January next preceding the date of election.

If any of the five appointed Electors shall die resign or become incapable of acting another person shall be appointed in like manner in his place for the remainder of the time for which he was appointed. There shall be payable to each Elector out of the income of the Trust Fund in respect of each year of his tenure of office the sum of £7. 10s. All the powers of the Electors may be exercised by a majority of those present at a meeting duly summoned provided that three Electors at least be present. In every year there shall be in the Michaelmas Term a meeting of the Electors to consider any business which may present itself; and in the Lent Term a meeting for Election whereof due notice shall be given, and Candidates shall be invited to send in their applications to the Vice-Chancellor with testimonials and such other evidence of their qualifications and as to their proposed course of study or research as they may think fit.

8. The Electors shall take such steps as they think fit for ascertaining the intellectual qualifications of the Candidates and in particular they shall attach such weight as they may think fit to the place of a Candidate in the first and second parts or either of them of the Mathematical Tripos: they shall also take such steps as they may think fit for ascertaining the prospect that a Candidate if elected will *bona fide* and with due diligence devote himself to study and research in accordance with these Regulations.

9. It shall be the duty of the Student to devote himself during the tenure of his Studentship to study or research as aforesaid according to a course proposed by himself and approved by the Electors, provided that such course may in special cases be altered or varied with the consent of the Electors. But in any year whatever be the number of vacancies the Electors if in their opinion there shall be no suitable Candidate shall not be bound to make any election. And the Electors may if they think fit defer an election to a subsequent meeting in the same term.

11. The emolument of the Student shall be £200 per annum provided that the income of the Fund (after payment of all expenses of and attending the execution of the trust and the amount payable to the Electors) shall be capable of bearing such charge and shall be paid to the Student by equal half yearly payments subject as regards each payment to the Electors being satisfied that the Student is diligently carrying out his course of study or research, but so nevertheless that if by illness or any other grave cause the Student shall have been prevented from thus carrying out his course of study or research, the Electors shall take account of the circumstances and shall be at liberty to make to the Student the full payment for the half year.

12. If a Student shall in the opinion of the Electors fail in diligently carrying out his course of study or research, and in consequence thereof they shall have withheld from him two successive half year's payments of his Studentship it shall be lawful for the Electors as from the expiration of the last of the same two half years to remove the Student from his Studentship.

13. Subject to the payment of expenses as aforesaid and to the aforesaid payment to the Electors the income not payable to any Student or so much thereof as is not hereinbefore required to be added to the capital of the Trust Fund shall be paid to a Suspense Fund which shall be applicable to the purchase of any instruments or apparatus required by a Student in his course of study or research or for the payment of any extraordinary expenses. All such instruments or apparatus shall in the absence of any arrangement to the contrary be regarded as the property of the trust and may be disposed of in such manner as the Electors think fit, or the same may at any time be sold and the produce thereof added to the Suspense Fund. The Trustees shall have power to make at any time such temporary investments as they shall think fit of the Suspense Fund or any part thereof, the income arising therefrom to belong to the Suspense Fund. If at any time the amount of the Suspense Fund shall admit thereof the Trustees may authorise the Electors either to continue for one additional year the Studentship of any Student who in the opinion of the Electors shall have by his diligent and successful carrying out of his course of study or research deserved the same or they may authorise the Electors to elect to an additional Studentship or Studentships tenable for a year or for two years. The Suspense Fund shall be spent as far as may be for the purposes aforesaid or any of them and shall not ordinarily be allowed to accumulate to an amount exceeding £1000.

14. A Student elected to a Studentship tenable for less than three years shall not thereby become incapable of election (in lieu or at the expiration thereof) to a Studentship tenable for three years but except as aforesaid a Student shall not be capable of re-election.

15. These Regulations except Regulations 1, 2, 3, 4 and 5 shall be subject to alteration by Grace of the Senate but in the lifetime of the said Frank McClean only with his consent in writing and so always that the main object of the Fund namely the encouragement of study and research in Astronomy (especially Gravitational Astronomy but including other branches of Astronomy and Astronomical Physics) and Physical Optics be adhered to.

## LUMLEY EXHIBITIONS.

THE Right Honourable ELIZABETH, Viscountess LUMLEY, by a deed bearing date October 8, 1657, directed certain Trustees therein named, to pay and allow yearly to *ten* poor Scholars of the Universities of Oxford and Cambridge, educated in the School founded by her at *Thornton* in the county of York, or in default of such, to any other poor Scholars, not exceeding *ten* in number (subsequently reduced to *five*), who should be nominated thereto by the respective Convocations of the said Universities for the time being, the sum of £4 a year each, to be continued until they should have time to become graduates in one of the said Universities.

By an Order of the Court of Chancery, issued in the year 1820, it was directed that, in consequence of the increased rents these five Exhibitions should in future be £15 per annum each, and that the rents not called for should accumulate.

## CHANCELLOR'S CLASSICAL MEDALS.

THESE prizes were instituted in 1751, by his Grace Thomas Holles, Duke of Newcastle, and have been continued by succeeding Chancellors. They are two gold medals. Until 1871 inclusive, Candidates were required to be commencing Bachelors of Arts, who had obtained a place among the Senior Optimes at least.

The following are now the Regulations:

1. That an Undergraduate or Bachelor Designate in Arts may be a candidate for a Chancellor's Medal in any year if, at the end of the Examination for the Chancellor's Medals, he shall have entered upon his ninth term at least, having previously kept eight terms; provided that not more than ten terms shall have passed after the first of the said eight terms; and no student of a different standing shall be allowed to be a candidate unless he shall have obtained permission from the Council of the Senate. No student who has presented himself as a candidate in any year shall be allowed to offer himself on any other occasion.

2. That the Examiners for the Chancellor's Medals shall be the Vice-Chancellor, the Regius Professor of Greek, the Professor of Latin, and the Public Orator, together with two Members of the Senate appointed by Grace of the Senate at the last Congregation in November in every year to examine for the University Scholarships and for the Chancellor's Medals. Provided that, in the event of any of the permanent *ex officio* electors desiring in any year for due cause to be approved by the Special Board for Classics to be relieved of the duty of examining, he shall nominate a deputy to be approved by the Board and appointed by Grace of the Senate, and shall pay to such deputy the same sum as that which is paid to the other Examiners appointed by Grace of the Senate. Provided further that in any year the Vice-Chancellor may nominate a deputy to be approved by Grace of the Senate; and that such deputy be paid out of the University Chest the same sum as that paid to the other Examiners appointed by Grace of the Senate.

3. That the Examination shall begin seven days before the first day of full term in the Lent Term.

4. That the Examiners shall have power to give to the candidates for the Chancellor's Medals the same papers as are given to the candidates for the University Scholarship or Scholarships, or different papers, or partly the same papers and partly different papers.

5. That each of the Examiners appointed by Grace of the Senate shall receive from the University Chest fifteen pounds for each year during which he is an Examiner.

### ADAM SMITH PRIZE.

THE Professor of Political Economy, A. Marshall, M.A., St John's College, having, in 1891, offered to the University a Triennial Essay Prize, the following Regulations proposed by Professor Marshall were confirmed by Grace of the Senate, March 5, 1891 :

1. A Prize of £60, to be called the Adam Smith Prize, will be awarded in 1894, and thenceforward every three years till further notice, for an Essay on some unsettled question in Economic Science, or in some branch of Nineteenth Century Economic History or Statistics.

2. The subject of each candidate's Essay shall be selected by himself, provided only that it be not that which was appointed for the Cobden Prize Essay at its last preceding award. Candidates are however invited to consult the Professor of Political Economy with regard to their choice, and with regard to a suitable course of reading in connection with it.

3. In awarding the Prize the Adjudicators shall be governed chiefly by the quality of the work to be done, and shall have regard to the constructive ability and the grasp of scientific principles rather than to the erudition displayed in it.

4. The Adjudicators shall be the Professor of Political Economy and an additional Examiner appointed by the Senate on the recommendation of the Special Board for Moral Science. The additional Examiner shall receive the sum of ten pounds.

5. It shall be in the power of the Adjudicators, if they think fit, to divide the Prize among two or three candidates, without declaring their Essays equal in merit.

6. The Essays shall be sent to the Vice-Chancellor on the first day of Full Easter Term 1894, 1897, and so on till further notice.

7. The Candidates shall be graduates of the University who at the time appointed for sending in the Essays have not completed four years from their first Degree.

## MEMBERS' PRIZES.

THE REPRESENTATIVES in Parliament of this University formerly gave four annual prizes of fifteen guineas each, which were adjudged by the Vice-Chancellor and Heads of Colleges, to two Bachelors of Arts, and two Undergraduates, for the best Dissertations in Latin prose, which were read publicly by them in the Senate-House on a day appointed near to the Commencement, and afterwards sent by them to the aforesaid Members. Of these prizes, two were open to all Bachelors of Arts, without distinction of years, if not of sufficient standing to take the degree of M.A.:—the other two were open to all Undergraduates who had resided not less than seven terms at the time when the exercises were to be sent in. The subjects were delivered out at the end of Michaelmas Term, and each candidate was required to send his exercise privately to the Vice-Chancellor, on or before the 31st of March, in the same manner as the exercises for the Chancellor's Medal. These prizes (confined until 1827 to Senior and Middle Bachelors) were established in 1752 by the Hon. EDWARD FINCH and the Hon. THOMAS TOWNSHEND, and were continued by the succeeding Members until 1870, when in lieu of four Prizes for Latin Essays of £15. 15s. each, the Representatives of the University in Parliament desired to give annually two Prizes of £31. 10s. each, one for an English Essay on some subject connected with British History or Literature, the other for a Latin Essay, each Prize to be open for competition to all Members of the University not of sufficient standing to be created Masters of Arts or Law; and the following Regulations were confirmed by Grace of the Senate, Nov. 11, 1869.

1. That there be two yearly Prizes of £31. 10s. each, to be called THE MEMBERS' PRIZES, the one for an English Essay on some subject connected with British History or Literature, the other for a Latin Essay.

2. That each of these Prizes shall be open for competition to all Students of the University who are not of sufficient standing to be created Masters of Arts or Law, or who being Students of Medicine are of not more than seven years' standing from Matriculation; provided that no Student, who has gained either Prize, shall be eligible for another Members' Prize given for an Essay in the same language.

3. That the subject for the English Essay shall be selected and the Prize adjudged by the Vice-Chancellor and two Examiners elected by Grace of the Senate at the last Congregation in February in each year.

4. That the subject of the Latin Essay shall be selected and the Prize adjudged by the Vice-Chancellor and two Examiners elected by Grace of the Senate at the last Congregation in February in each year.

5. That the subjects both of the Latin and of the English Essay shall be given out at the end of the Lent Term, and the Essays sent in on or before the tenth day of November in each year.

6. Any Essay, which the Examiners at the time of adjudging the Prize shall unanimously declare to be in their judgment worthy of being published, shall be printed at the expense of the University.

7. These Regulations shall be subject to alteration from time to time by Grace of the Senate with the consent of the Representatives in Parliament for the time being of the University.

The University shall have power to alter and determine from time to time, by Grace of the Senate, the regulations respecting the persons by whom the subject of the Essays is to be given out and the Prize adjudged; and also the regulations respecting the time and mode of publication of the subject, and the times of sending in the Essays, of adjudging the Prize, and of printing and publishing the Essay for which the Prize is given.

2. The Prize shall be given once in five years only, and shall be the sum of the annuities of the five years preceding the adjudication.

3. The Candidates shall be Graduates of the University of Cambridge, and of not more than thirteen years' standing from admission to their first degrees when the Essays are sent in.

## PRINCE CONSORT PRIZE.

At a meeting of the subscribers to the Prince Consort Memorial on June 12, 1883, it was resolved to transfer the surplus of the Memorial Fund to the University, with the object of founding "a Prize or Scholarship, to bear the Prince Consort's name, for the promotion of Historical Studies in such manner as they may from time to time determine." This offer was accepted by the Senate on June 23, 1883.

The sum transferred to the University by the subscribers to the Prince Consort Memorial amounted to about £1850.

The following are the Regulations:—

1. There shall be established in the University a prize, called the "Prince Consort Prize," to be awarded for dissertations involving original historical research.

2. The prize shall be offered in alternate years, the first award to be made in the year 1888.

3. The income derived from the fund transferred to the University by the subscribers to the Prince Consort Memorial shall be applied, firstly, to provide a bronze medal or medals to be presented to those candidates whose dissertations appear to the adjudicators to deserve publication; secondly, to the payment of the adjudicators as hereinafter determined; thirdly, towards defraying the expenses of printing and publishing the said dissertations.

4. The prize shall be open to members of the University who, at the time when their dissertations are sent in, have been admitted to a degree.

1 The Examiners this year adjudged a second prize, value five guineas, to Charles Wimberly, of St John's College.

2 A second prize, value ten pounds, was adjudged to John Wordsworth of Trinity College.

3 Honourably mentioned:—N. K. Stephen, Trin., J. J. Withers, King's.

4 Honourably mentioned: A. R. F. Hyslop, King's.

5 Honourably mentioned: G. A. Davies, Trin., T. R. Glover, Joh.

6 The Examiners were of opinion that the merits of F. J. Kittermaster of King's College were nearly equal to those of the successful Candidate.

7 Honourably mentioned: W. H. Jacques, Trin., F. J. Kittermaster, King's.

and are of not more than four years' standing from admission to their first degree.

5. The adjudicators shall be the Regius Professor of Modern History, the Dixie Professor of Ecclesiastical History, the University Lecturer in Roman History, and two others who shall be elected by the Senate in the Lent Term of the year next but one before that in which the prize is to be awarded, one on the nomination of the Special Board for Classics, and one on the nomination of the Special Board for History and Archaeology. Each elected adjudicator shall receive the sum of five pounds from the income of the fund.

6. The adjudicators shall in the Easter Term of the year next but one before that in which the award is to be made select and announce two or more subjects for dissertations, half the number of such subjects being chosen from the period of history before A.D. 800, and half from the period after A.D. 800, and also, if they think fit, one subject covering portions of both periods.

7. The dissertations shall be either on one of the subjects so announced, or on some other subject of historical research selected by the candidate. In the latter case the subject shall, at some time between the announcement of the subjects and the 15th of May in the following year, be communicated to the Regius Professor of Modern History for the approval of the adjudicators, who shall meet once in every term, if necessary, to approve or reject any subject so submitted to them; and their approval or rejection shall be communicated without delay to the candidate.

8. The dissertations shall be sent in to the Vice-Chancellor on or before the 31st of October in the year next after that in which the subjects are announced; and the adjudicators shall, on or before the 31st of January following, declare which of the dissertations, if any, are in their opinion deserving of publication.

9. The adjudicators shall decide to what extent the successful candidates shall be permitted to revise their dissertations.

10. Those dissertations which the adjudicators declare to be deserving of publication shall be published by the University, singly or in combination, in an uniform series, at the expense of the fund, under such conditions as the Syndics of the University Press shall from time to time determine.

11. If in any year the nett proceeds of the fund applicable in that year shall more than suffice for the expenses, the surplus shall be carried on to the current account; provided that, if and so soon as the sum standing to the credit of the current account shall be more than twice as large as the annual income of the fund, any further surplus shall be carried over to the capital account.

### THIRLWALL PRIZE.

THE Committee of the Thirlwall Memorial in 1884 offered to the University a certain sum of money "for the purpose of instituting a prize in the University, to be called the Thirlwall Prize, for the best dissertation on some historical subject involving original research." This offer was accepted by the Senate by Grace of June 12, 1884.

The sum of money transferred to the University by the subscribers to the Thirlwall Memorial amounted to about £1200.

The following are the Regulations:—

1. There shall be established in the University a prize, called the "Thirlwall Prize," to be awarded for dissertations involving original historical research.

2. The prize shall be offered in alternate years, the first award to be made in the year 1889.

3. The income derived from the fund transferred to the University by the subscribers to the Thirlwall Memorial shall be applied, firstly, to provide a bronze medal or medals to be presented to those candidates whose dissertations appear to the adjudicators to deserve publication; secondly, to the payment of the adjudicators as hereinafter determined; thirdly, towards defraying the expenses of printing and publishing the said dissertations.

4. The prize shall be open to members of the University who, at the time when their dissertations are sent in, have been admitted to a degree, and are of not more than four years' standing from admission to their first degree.

5. The adjudicators shall be the Regius Professor of Modern History, the Dixie Professor of Ecclesiastical History, the University Lecturer in Roman History, and two others who shall be elected by the Senate in the Lent Term of the year next but one before that in which the prize is to be awarded, one on the nomination of the Special Board for Classics, and one on the nomination of the Special Board for History and Archaeology. Each elected adjudicator shall receive the sum of five pounds from the income of the fund.

6. The adjudicators shall in the Easter Term of the year next but one before that in which the award is to be made select and announce two or more subjects for dissertations, half the number of such subjects being chosen from the period of history before A.D. 800, and half from the period after A.D. 800, and also, if they think fit, one subject covering portions of both periods.

7. The dissertations shall be either on one of the subjects so announced, or on some other subject of historical research selected by the candidate. In the latter case the subject shall, at some time between the announcement of the subjects and the 15th of May in the following year, be communicated to the Regius Professor of Modern History for the approval of the adjudicators, who shall meet once in every term, if necessary, to approve or reject any subject so submitted to them; and their approval or rejection shall be communicated without delay to the candidate.

8. The dissertations shall be sent in to the Vice-Chancellor on or before the 31st of October in the year next after that in which the subjects are announced; and the adjudicators shall, on or before the 31st of January following, declare which of the dissertations, if any, are in their opinion deserving of publication.

9. The adjudicators shall decide to what extent the successful candidates shall be permitted to revise their dissertations.

10. Those dissertations which the adjudicators declare to be deserving of publication shall be published by the University singly or in combination, in an uniform series, at the expense of the fund, under such conditions as the Syndics of the University Press shall from time to time determine.

11. If in any year the nett proceeds of the fund applicable in that year shall more than suffice for the expenses, the surplus shall be carried on to the current account; provided that, if and so soon as the sum standing to the credit of the current account shall be more than twice as large as the annual income of the fund, any further surplus shall be carried over to the capital account.

#### SIR WM. BROWNE'S MEDALS.

SIR WILLIAM BROWNE, Knt., M.D., Founder of the Browne Scholarship, who died March 1, 1774, directed three gold medals, value five guineas each, to be given yearly to three Undergraduates on the Commencement day, when the exercises are publicly read, and copies of them sent by the successful Candidates to Sir W. J. B. Folkes, Bart. The first is for the best Greek Ode in imitation of Sappho; the second for the best Latin Ode in imitation of Horace: the third for the best Greek and Latin Epigrams; the former after the manner of the *Anthologia*, the latter after the model of *Martial*<sup>2</sup>. The Vice-Chancellor adjudicates these prizes. The subjects are published by him on or before June 15 in each year, and the Exercises must be sent to him on or before Feb. 1 following, and in the same manner as the exercises for the Chancellor's English Medal. The Greek Ode is not to exceed 25, and the Latin Ode 30 stanzas.

A Statute, approved by Her Majesty by order in Council, April 6, 1858, directs that no Candidate shall receive a Medal, who has not commenced his residence in the University when the exercises are delivered: also that Candidates for the Medal, to be given for Greek verse, may be required to write their exercises in Hexameter, Elegiac, or Lyric Metre; and that, if in any year the best Greek Epigram and the best Latin Epigram shall not be produced by the same Candidate, two Medals for Epigrams shall be given in that year, each of the value of two guineas and a half<sup>3</sup>, one to him who produces the best Greek, and the other to him who produces the best Latin Epigram.

<sup>1</sup> The Examiners were of opinion that the Essay of G. Edwardes Jones, M.A., Pemb. College, was deserving of commendation.

<sup>2</sup> Some of these exercises have been published under the title of "*Musa Cantabrigiense*," 1 Vol.

<sup>3</sup> The value of each Medal was increased to Five guineas in 1866 by the late Earl of Powis, High Steward.

H. R. H. the Duke of Gloucester, formerly Chancellor, gave annually a gold medal, to be conferred upon a resident Undergraduate, who should compose in English the best Ode or best Poem in heroic verse<sup>1</sup>. This prize has been continued by succeeding Chancellors.

The subject is published on or before June 15 in each year, and the Exercises must be sent to the Vice-Chancellor on or before February 1 following, and must not exceed 200 lines. Any Candidate is at liberty to send in his exercise *printed* or *lithographed*. The successful Candidate recites his Poem in the Senate-House on Commencement-day. The Adjudicators are the Vice-Chancellor, the Provost of King's, the Masters of Trinity, St John's, St Peter's, Clare, and Christ's, the senior resident Fellow of Trinity who has gained a Medal, the Public Orator, the Greek Professor, and the Professor of Modern History.

The rents to be received by these in order, and to be applied by the University in their turn towards the relief of Sick Scholars. The distribution to be made by the Vice-Chancellor, the Professors of Divinity, the Civil Law, and Physic, and the Chief Apothecary of the town. The Trustees wish it to be understood that they are willing to apply to "Institutions for Nursing Sisters," for nurses to attend poor sick scholars and to pay their wages in case of necessity; they make grants on account of medicine, medical attendance, nursing, diet, and other necessities in sickness; applications to be made to the Vice-Chancellor for the time being, or, if nurses from the institutions be required, to the Regius Professor of Physic.

## PERSE FREE GRAMMAR SCHOOL.

STEPHEN PERSE, M.D., senior Fellow of Caius College, by a clause in his Will<sup>3</sup>, dated September 27, 1615, bequeathed certain property in charge to his executors, to purchase divers grounds and tenements, to be applied, amongst other purposes, to that of erecting and establishing within three years (if possible), after his decease, a convenient house capable of containing one hundred Scholars to be used for a Free Grammar School.

The School is now conducted under a Scheme which received the approbation of the Queen in Council, August 9, 1873. The School is divided into a Classical and a Commercial Department. Regulations are made for religious instruction. The subjects of secular instruction include the ordinary branches of English education together with Mathematics, Latin, German, French, Drawing and Vocal Music. Greek is taught in the Classical Department only. The fees have been fixed at £6 to £8 in the Commercial and £16 in the Classical Department, with an entrance-fee of 10s. to the former, and 30s. to the latter.

The School is under the management of a Governing Body, consisting of 15 persons, of whom three are nominated by the

### ADDENBROOKE'S HOSPITAL

WAS opened in the year 1766, having been founded by JOHN ADDENBROOKE, M.D., formerly fellow of Catharine Hall. It was further endowed in 1813 by a bequest of £7000 from MR JOHN BOWTELL, late bookseller and stationer in Cambridge, and is supported chiefly by voluntary contributions. A few years ago it was greatly enlarged and altered, and almost rebuilt, and now contains above one hundred and twenty beds for patients and a children's ward.

Certificates of attendance on the practice in it are recognized by the University, by the Royal Colleges of Physicians and Surgeons, and by the Society of Apothecaries in London.

The Physicians and Surgeons attend daily in the wards, and Clinical Lectures are delivered weekly during Term time and also in the long Vacation. The fee for attendance on the Medical and Surgical Practice and the Lectures is twelve guineas.

### THE UNIVERSITY LIBRARY.

THIS great Library, containing at present more than 400,000 volumes, has been enriched at different times by royal and private benefactors, amongst whom, as donors of Books, the names of Dr Richard Holme (1424), Archbishop Rotherham (1480), Dr Andrew Perne (1589), Dr Richard Holdsworth (1648), Mr Henry Lucas (1663), Bishop Hacket (1670), and King George I. (1715), may be mentioned as pre-eminently distinguished.

The permanent sources of its increase are as follows :

1. The Copyright Acts, under which this Library, in common with four others, is entitled to a copy of every book published in the United Kingdom.

2. The Rustat Fund, arising from an estate at Ovington in Norfolk. This estate was bought with £1000 given to the University in 1666, by Tobias Rustat, Esq. M.A., Yeoman of the Robes to King Charles II., to be laid out in land, the rents to be applied in the purchase of *choice* books for the Library. It now produces upwards of £200 a year.

3. William Worts, Esq. M.A., of St Catharine's College, ordered by his Will, in 1709, that the annual surplus of the rents and profits of his estate at Landbeach, in the county of Cambridge, after the discharge of the other outgoings, should be applied to the use of the Library. This surplus now amounts to about £700 a year.

4. In 1826, the Rev. John Manistre, M.A. Fellow of King's College, bequeathed £5000, to purchase books. This sum has been invested, and produces the annual income of £140.

5. By Grace of the Senate (May 31, 1866) a portion of the quarterly payment made by all Members of the University to the Chest is allowed for the support of the Library. This amounts now to £4,000 a year (Grace, June 4, 1891).

6. By the Statutes of 1882, the Common University Fund is applicable to the Library; an annual grant of £1000 is made to the Library from this source.

The arrangement of the Library is entrusted to the Librarian, and the general management to a Syndicate consisting of the Vice-Chancellor, and sixteen members of the Senate elected by Grace, four of whom in rotation retire every year, their places being supplied by four other members elected by the Senate. They meet in the Library on every alternate Wednesday during full Term; and the presence of the Vice-Chancellor, or his Deputy, and at least four other members, is required for the transaction of business.

## RULES AND ORDERS FOR THE UNIVERSITY LIBRARY.

1. *As to opening and closing the Library.*

1. The Library shall be open on Saturdays from Nine till One, and on other days from Ten till Four; (from Nov. 15 to January the Library opens at Half-past Nine and closes at Half-past Three); but on every day appointed for returning Books to the Library for the Quarter, the Library shall be open from Ten till Four.

2. The Library shall be closed from December 24 to 28 inclusive, on Ash-Wednesday, from the Thursday before to the Tuesday after Easter inclusive, on Ascension-Day, on the Monday after Whitsunday, on all Sundays in the year, and on all days specially appointed for Public Fasting or Thanksgiving.

3. The Library shall be closed for the purpose of a full and satisfactory inspection of the Books from the fifteenth to the thirtieth days of September in each year, both included; and the state of the Library shall be examined by Inspectors, to be appointed for that purpose by the Syndicate in the course of the preceding Easter Term, assisted by the Librarian; and a Report shall be made by them to the Syndicate of all Books wanting or much damaged, expressing in whose custody such Books are or have last been.

4. The Library shall also be closed for two days after each of the other three Quarter days, in order to allow sufficient time for the return of the Books to the shelves, and for the preparation of the List of such as have not been returned to the Library.

II. *As to borrowing Books.*

5. No person shall be allowed to take Books out of the Library but

(1) those who having been admitted to the degree of Bachelor of Medicine, Master of Surgery, Master of Law, Master of Arts, Doctor of Medicine, Doctor of Law, or Doctor of Divinity, have their names on the Register of Members of the Senate, or on the Boards of their respective Colleges;

(2) Honorary Graduates of the University.

(3) Persons actually holding the office of Professor, Reader, or University Lecturer in the University, who have not at any time been members of the University.

6. No one shall take or borrow any Book out of the Library without first delivering a note for the same to the Librarian or one of the Assistants, expressing in his own handwriting his Name and College, the title of the Book, and the year and day of the month on which such Book is taken or borrowed, on pain of forfeiting Five Pounds, or double the value of such Book, at the discretion and in the judgment of the Vice-Chancellor.

7. The Librarian or one of the Assistants shall compare the notes delivered for books borrowed from the Library with the Books themselves before they are taken away, and shall preserve carefully all such notes till the Books so taken out be returned again to the Library. When all the Books specified in each note are returned, the notes shall be delivered up to the persons by whom the Books are brought back: when only some Books specified in each note are returned, the titles of the Books so returned shall be erased from the note at the time.

8. Every one who shall take or borrow any Book out of the Library, shall return it thither again on or before the next of the four following days, viz. September 14, *St Thomas* (December 21),

*Lady-day* (March 25), and *Midsummer-day* (June 24), or oftener if the Syndics see occasion and require it, under penalty of Two Shillings for every Folio or Quarto, and One Shilling for every Book of less size: the penalty to be repeated every fortnight till the Book be returned, or another of the same edition and equal value placed in its room; such fortnight being reckoned from the first day on which the Library is re-opened after the Quarter day. When any one of the Quarter days falls on one of the days mentioned in Rule 2, the day appointed for returning Books shall be the next open day.

9. All Books shall be returned to the Library perfect and undamaged, or others of the same edition and equal value placed in their room there, on pain of forfeiting Five Pounds for every volume not so returned, or the full value of the same, at the discretion and in the judgment of the Vice Chancellor. Persons taking Books out of the Library are desired to report without delay to the Librarian any injury which they may observe in them.

10. Every Tutor of a College, being a Member of the Senate or a Bachelor of Medicine, shall be allowed to take out of the Library for each resident pupil, who shall have been admitted to the title of Bachelor designate of Arts or Law, any number of volumes not exceeding five. Each order for the volumes so obtained shall bear the titles of the Books, and be dated and subscribed as follows:

For *M. N.*, Resident B.A. (or LL.B.), ——— College.  
(Date) *C. D.*, Tutor.

11. Every Tutor of a College, being a Member of the Senate, shall have the privilege of obtaining for all persons of his College, who have proceeded to the degree of Bachelor in Divinity under the Statute of Queen Elizabeth, any number of volumes not exceeding five from the Library; and each order for the volumes so obtained shall bear the titles of the Books, and be dated and subscribed as follows:

For *M. N.*, B.D., ——— College.  
(Date) *C. D.*, Tutor.

12. The Books obtained under Rules 10 and 11 shall not be taken out of the Library till the day after that on which the Library is re-opened for the Quarter; and they shall be returned not later than the day before the next Quarter day.

13. The Tutor shall be responsible to the Library for the Books obtained under Rules 10 and 11, and for the penalties prescribed, if they are not returned at the time mentioned in these Regulations.

14. No person shall be allowed to have in his possession at one time more than Ten Volumes belonging to the Library; but the Syndicate may dispense with this Order in any particular case, if they are of opinion that sufficient reasons have been assigned for such dispensation: such dispensation, however, shall continue in force no longer than to the end of the Quarter for which it is granted; but upon fresh application may be renewed by the same authority.

15. No Books shall be taken out of the Library on the days appointed for the return of Books.

16. A list of the Books omitted to be returned at the end of any Quarter, together with the names of the borrowers, shall be suspended in some conspicuous place in the Library.

17. No person, from whom any fine is due to the Library, shall be allowed to take out Books until such fine has been paid.

111. *For Books not allowed to be taken out of the Library without the written permission of the Librarian, or an order of the Syndicate.*

18. Certain printed Books, regarded as books of reference, of which a list shall be kept, shall be labelled 'Not to be taken out,' and shall not be borrowed except for a limited time and by the written permission of the Librarian. Such Books shall not be taken out more than a quarter of an hour before the Library closes on any day, and must be returned within a quarter of an hour after the time at which the Library is next opened. The Librarian however shall have a discretionary power to allow any such Books to be borrowed for a period not exceeding seven days; provided that the books so borrowed be not taken out of Cambridge, and be returned to the Library before the time specified, if wanted.

19. Certain printed Books, selected as being of special rarity or value, shall be kept in cases or compartments by themselves, and shall not be borrowed from the Library except by authority of the Syndicate. The Librarian however shall have a discretionary power to allow any such Books to be borrowed for a period not exceeding a fortnight, if he shall be of opinion that a sufficient reason has been assigned by the applicant.

20. A selection of the more costly illustrated Books shall be kept in cases or compartments by themselves, and shall not be taken out of the Library, unless by authority of the Syndicate, except by Professors, Public Lecturers, or Officers of the University Museums, being otherwise qualified to borrow Books from the Library, and by them only if wanted for the illustration of their lectures or for the determination of specimens. The Librarian however shall have a discretionary power to allow any such Books to be borrowed, for a period not exceeding one calendar month, if he shall be of opinion that a sufficient reason has been assigned by the applicant.

21. The discretionary power given to the Librarian in the preceding three Rules shall be exercised only by the Librarian himself, or by his Deputy appointed by writing under his hand.

22. A Register shall be kept of all such Books taken out of the Library, agreeably to the above Rules, and of the date at which they are returned. After the Books, borrowed under Rules 19 and 20, are returned, the plates in them shall forthwith be collated, and the collation be registered. Until such collation shall have been made, the Books shall not be accessible to persons using the Library, nor shall the countersigned note be given up to the persons by whom the Books are returned, but in lieu of it an acknowledgment signed by the Librarian or one of his assistants; and the name of the person by whom the acknowledgment is signed shall also be registered.

23. The fines for not returning Books borrowed under Rules 18, 19, and 20, shall be double the ordinary fines.

24. *Grace of the Senate.* No Manuscript whatever shall be taken out of the Library without a Grace for its removal being obtained from the Senate; nor without a bond being given by the borrower to the Librarian (or, if the Librarian be the borrower, to the Vice-Chancellor) to return it uninjured within a certain time to be specified in the Grace, under a penalty of Fifty Pounds at the least.

25. A selection of the very rare and early printed Books shall be locked up in cases by themselves, and shall only be taken out of the Library under the conditions that apply to the borrowing of Manuscripts.

26. The Librarian shall have the custody of the keys of all the locked cases that contain Books or Manuscripts.

27. With a view to retaining the free use in the Library of such Books to those who are desirous of consulting them for the purpose of study, and

who may wish to have access to them for a considerable time at one visit, the Librarian, if he see cause, may allow such persons to use the Books without the continued presence of himself or one of the Assistants.

28. All applications to the Vice-Chancellor or the Syndicate, under any of the above Rules, shall be made through the Librarian.

29. A Register shall be kept, and a full collation shall be made, of all Manuscripts and other Books borrowed from the Library under Rules 24 and 25; and the bonds shall be prepared by one of the Library Assistants under the direction of the Librarian, at a cost of one shilling for preparing each bond, to be defrayed by the borrower.

30. Unbound works or parts of works shall be kept in store-rooms, until such time as is proper for binding them, under such a system of management that they may be produced, if required, after a few minutes' notice, on application being made to the Librarian; so that persons to whose researches such works are necessary may consult them in the Library.

#### IV. *As to Admission to the Library.*

31. No person, except those mentioned in Rule 5, shall be admitted into the Library on the days when it is re-opened or is closed for any Quarter.

32. Bachelors of Arts, Law, and Divinity, for whom Tutors of Colleges are allowed under Rules 10 and 11 the privilege of obtaining Books, shall be admitted into the Library for the purpose of selecting their Books or otherwise consulting the Library, provided they appear in Academical Dress.

33. Undergraduates shall be admitted to consult Books in the Library during the last three hours that it is open each day, provided they appear in Academical Dress. At other hours when the Library is open, any Undergraduate may be admitted, provided he produces a recommendation from the Tutor of his College, to be exchanged for a ticket at the discretion of the Librarian, such ticket to be produced whenever he enters the Library, and to remain in force only during the quarter in which it is given. The card in this case must be shown to the door-keeper on entering the Library, and the holder must on each occasion sign his name in a book kept for the purpose.

34. Persons, who are not Members of the University, unless admitted under Rules 36—40, shall only be admitted into the Library when accompanied by a Graduate Member of the University, who shall remain with them during the whole time they are in the Library; but they shall not be allowed to examine the Catalogues, or to take down Books from the shelves.

35. The Library Assistants shall not be allowed to receive any gratuities.

#### V. *As to Admission of Persons who are not Members of the University, for the purpose of study and research.*

36. Persons desiring tickets of admission to the Library shall be required to present to the Syndicate letters from two Members of the Senate certifying that the applicant is known to them to be a student in some specified subject, and is a fit and proper person to be admitted to the Library.

37. The names of the persons to whom tickets of admission are granted, together with the names of the Members of the Senate by whom they have been recommended, shall be placed in a List at the entrance of the Library.

38. Such persons shall be permitted to use the Library between the hours of 9 and 1 on Saturdays and 10 and 2 on other days; except on the days when the Library is re-opened or is closed for any Quarter.

39. This permission shall not entitle the holder to have access to the locked cases.

40. This permission shall expire on the 20th of October of each year.

## THE UNIVERSITY PRESS.

THE management of the University Press is committed to a Syndicate consisting of the Vice-Chancellor, and fifteen other members of the Senate elected by Grace, three of whom retire by rotation every year.

The business of the Press is conducted under the direction of Mr C. J. Clay, M.A., Mr J. Clay, M.A., and Mr C. F. Clay, M.A., the University Printers, as Managing Partners. Mr C. J. Clay is also Secretary to the Syndicate.

On the death of the Right Honourable WILLIAM PITT, many distinguished personal friends of that statesman and admirers of his public conduct entered into a subscription for the purpose of erecting some memorial worthy of his name.

By means of the funds thus raised a marble statue of Mr Pitt, executed by Westmacott, was erected in Westminster Abbey; and a bronze statue of him, executed after a model by Chantry, was placed in Hanover Square, London. A large sum still remained unexpended; and the Committee at whose disposal the Funds were placed, desiring to employ the surplus in some mode that might contribute to the honour and usefulness of the University in which Mr Pitt had received his education, offered to erect a building which should form the front of the University Printing Offices, and be designated by the name of the PITT PRESS.

This offer was accepted: and a large sum of money was expended by the University in purchasing the necessary site. The first stone of the New Building was laid in 1831 by the Marquis Camden, the chairman of the before-mentioned Committee, attended by the Earl of Clarendon, the Earl of Harrowby, Lord Farnborough, and Henry Baukes, Esq. M.P., also Members of that Committee.

The edifice was completed in 1833.

## THE FITZWILLIAM MUSEUM.

RICHARD, Viscount FITZWILLIAM, formerly of Trinity Hall, (M.A. 1764,) who died 5th February, 1816, bequeathed to the University his splendid collection of books, paintings, illuminated MSS., engravings, &c., together with the dividends or annual proceeds of £100,000 South Sea Annuities, for the erection of a Museum for their reception.

The dividends on the above-mentioned Stock having accumulated to a sum exceeding £40,000, the existing building was commenced on the 2nd of November, 1837, from the designs of George Basevi, Esq., and carried on under his superintendence until his death in 1845, when C. R. Cockerell, Esq., R.A., the architect of the University Library, was appointed to succeed him. In the course of the year 1847 it became evident that the available funds would not suffice for the entire finishing of the Hall: the further works were therefore suspended for a period of years sufficient to allow of the accumulation of the requisite sum, and the Pictures, Books, and other articles which comprise the Fitzwilliam Collection, together with the Mesman Collection described below, and other donations, were removed into the new building, where they are now open for inspection. The entrance hall has since been completed and decorated at a cost of more than £20,000 from the designs of Mr E. M. Barry, R.A. The total cost of the building has been about £116,000. Among the most valuable pictures in the collection are three of the Venetian School, all formerly in the Orleans Gallery, viz. *Venus and Cupid* by Palma Vecchio, *Mercury and the Daughters of Cecrops*, by Paul Veronese; and a *Gentleman and his Mistress* by Titian; and one by Rembrandt, engraved as the *Portrait of an Officer*. The collection of ancient prints is one of the richest in Europe. The bulk of this collection is contained in a large number of bound albums in the library of the Museum. The works of the early engravers of Germany and the Low Countries, and those of Rembrandt, have been re-arranged on separate mounts and placed in solander cases. A selection of the engravings so mounted is exhibited under glass in the principal picture gallery.

Daniel Mesman, Esq., bequeathed a collection of Pictures to the University. His brother the Rev. Charles Mesman, to whom they were bequeathed for his life, having given up his life-interest in the bequest, the collection came in 1834 into the immediate possession of the University. These pictures were for many years deposited in one of the apartments of the Pitt Press, but are now removed into the Fitzwilliam Museum. The collection amounts in number to 248 Paintings and 33 Drawings and Prints. The majority of the Pictures are small examples of the Flemish and Dutch schools.

On the 16th of April, 1850, John Disney, Esq., F.R.S., F.S.A., of the Hyde, near Ingatestone, Essex, presented a Collection of

Ancient Marbles, eighty-three in number. On the 29th of July, John Kirkpatrick, Esq., M.A. of Trinity College, of Monk's Horton Park, Hythe, Kent, presented a Collection of thirty-four casts of antique statuary. The collection of ancient marbles formed by Dr Clarke have also been transferred from the University Library to the Sculpture Gallery of this Museum.

In 1861 John Ruskin, Esq. presented to the Museum twenty-five water-colour drawings of great interest and beauty by the late J. M. W. Turner, R.A.; and in 1862 Mrs Elizabeth Ellison, of Sudbrooke Holme, Lincolnshire, presented thirty pictures by modern English Masters. Seven pictures, by Adrian Vandervelde, Ruysdael, Paul Potter, Old Francks, Patel and Nikkelen, were presented in 1864 by A. A. VanSittart, Esq., late Fellow of Trinity College. In 1872, by an arrangement with the executors of the Rev. R. E. Kerrieh, the Museum acquired a portion of certain collections bequeathed to it by that gentleman; viz. seven paintings, two hundred volumes of books, and many valuable portfolios of ancient prints. A small collection of oil-paintings, including three important works by Hogarth, was bequeathed by the Rev. J. W. Arnold, D.D., in 1859, and placed in the Museum in 1873. In 1876, a further gift of seventeen pictures was made by A. A. VanSittart, Esq., including fine examples of Hobbema, Ruysdael, and Wynants, and works by Guercino, Bellotti, and Marieschi. In 1878 the Museum acquired, by the bequest of the Rev. C. Leasingham Smith, eleven pictures of various schools, including works of Salvator Rosa, Peter Molyn, Marieschi, Wilson, and a miniature portrait by Cooper.

The University purchased (Grace, Feb. 25, 1864) a Collection of coins from the Executors of the late Colonel Leake. This has been placed in the Library of the Museum. In 1876 (Grace 4, Nov. 23) a considerable purchase of rare prints, towards the completion of the collection of German and Flemish masters, was made at the Liphart sale; also a collection of ancient Phœnician, Greek, and Roman glass from tombs in the island of Cyprus was purchased (Grace 5, Nov. 23) from General L. P. di Cesnola, and has been arranged in two cases in the sculpture-room. In the same year (Grace, Nov. 30) nineteen albums of ancient engravings, four of them containing exclusively the etchings of Rembrandt and his scholars, were transferred to the Fitzwilliam Museum from the University Library; and the most important portions of their contents have been incorporated with the collections of Lord Fitzwilliam and Mr Kerrieh. In 1886, the Committee of the Antiquarian Society recommended that the Director of the Fitzwilliam Museum should receive under his charge the Collection of Coins belonging to the Society and consisting of, 1st, an old Collection of English, Roman and foreign Coins; 2nd, Dr Bacon's Collection, mostly English and foreign; 3rd, 17th century tokens. This offer was accepted by Grace of the Senate, March 25, 1886.

The three galleries in the basement have been re-arranged, so that the South Gallery contains the collection of Greek vases and glass; the East Gallery Greek and Roman Marbles, Bronzes and Inscriptions, together with Egyptian Antiquities.

The care and arrangement of the Collections in the Museum is entrusted to a Director and an Assistant Director, and its general management to a Syndicate composed of the Vice-Chancellor, and eight other members of the Senate elected by Grace, two of whom in rotation retire every year, their places being supplied by two other members elected by the Senate. They meet in the Museum at least twice in every Term, four members (the Vice-Chancellor or his deputy being one) being requisite to constitute a quorum; but in cases of emergency arising at times when the members of the University are for the most part absent from Cambridge, a smaller number are authorized to act, provided they are unanimous.

### THE MUSEUM OF ARCHAEOLOGY.

THIS building, which was formally opened by the Vice-Chancellor, May 6, 1884, consists of two parts, a Museum of Classical Archaeology and the Cambridge Antiquarian Museum. The Fitzwilliam Museum Syndicate and the Director are responsible to the University for the care of the entire building, but for administrative and financial purposes the two new museums are separate.

### MUSEUM OF CLASSICAL ARCHAEOLOGY.

THIS Museum, which is looked upon in every respect as a portion of the Fitzwilliam Museum, consists of four Galleries of Casts (A, B, C, D), a Library with a room for the Director, and a Lecture-Room, together with large accommodation in the basement. A house adjoining has been secured as a residence for the Assistant (H. A. Chapman).

The four GALLERIES of CASTS are arranged in a chronological series, each Gallery representing, as far as practicable, a marked period in the history of Art, as follows:

- A. The Archaic period (down to the early part of the 5th century B.C.).
- B. The age of Pericles (Paionios, Alkamenes, Pheidias, Polykleitos, 5th century B.C.).
- C. The age of Philip and Alexander (Skopas, Praxiteles, Lysippos, 4th century B.C.).
- D. The Hellenistic schools of Pergamon and Rhodes, and the Graeco-Roman period, together with portrait-statues and busts.

Of these casts a certain number were already in the Fitzwilliam Museum, and have been transferred to this building; but the great mass of them have been purchased out of the Fitzwilliam income.

The LIBRARY consists, in the first place, of the chief part of Colonel Leake's books, which have been transferred from the Fitzwilliam Museum, forming a good working basis for further additions. A subscription raised by Professor Colvin for this particular object was laid out by him in the purchase of upwards of 550 volumes, and a large number of works on Archaeology have been added since: and are still being added every year.

The LECTURE-ROOM is not only used for University Lectures, but is available generally for other archaeological lectures. It is also used for the meetings of the Cambridge Antiquarian Society.

The Syndicate have issued the following provisional Regulations for the use of this Museum:

### REGULATIONS FOR THE FITZWILLIAM MUSEUM OF CLASSICAL ARCHAEOLOGY.

#### I. AS TO THE SCULPTURE GALLERIES:

The Rules for admission to the Galleries of the Fitzwilliam Museum of Classical Archaeology are the same as those for admission to the Picture Galleries of the Fitzwilliam Museum.

#### II. AS TO THE LIBRARY:

1. The Library is open to Graduate members of the University on the same days and hours as the Sculpture Galleries.

2. The Director is authorized to grant permission to use the Library for purposes of Archaeological study to Undergraduates on the recommendation of their College Tutor, and to other persons at his discretion.

3. No books shall be taken out of the building without a written order from the Director. The Director may at his discretion allow books to be taken out

(1) For a period not exceeding twenty-four hours when they are required in Cambridge for the illustration of lectures or for comparison with objects which cannot be conveniently brought to the Museum.

(2) From not earlier than half an hour before the Library is closed on any day to not later than half an hour after the Library is opened on the next occasion.

4. The titles of all books removed from the building, and the names of the persons borrowing them shall be entered in a book kept for the purpose.

*Assistant Director.*

### CAMBRIDGE ANTIQUARIAN MUSEUM.

THIS Museum, which occupies the Eastern and Southern portions of the building, consists of four Galleries (E, F, G, H), and a room for the Curator, together with a portion of the basement.

The nucleus of this Museum is the 'Cambridge Antiquarian Museum and Library,' which consists of the collections formed by the Cambridge Antiquarian Society since its foundation in 1840.

During this period a large number of specimens of local antiquities were brought together, including more than one collection of intrinsic value and importance relating to the district of which Cambridge may be looked upon as the centre. The Society never possessed any local habitation of its own, and its collections were long housed in one or other of the University buildings; but when the proposal for a University Museum of Archaeology took definite form, the Society offered to present the whole of its collections and library to the University, if only they could be adequately housed and cared for. This arrangement was carried into effect when the present building was completed; and the collections of the Society now occupy the Eastern Gallery next to the entrance. Two important ethnological collections formed in Fiji, the one by the Hon. Sir Arthur H. Gordon, G.C.M.G., M.A. of Trinity College, the other by A. P. Maudslay, Esq., M.A. of Trinity Hall, were presented by them to the University in 1884, and the entire series of South Sea Island native manufactures collected by Baron A. von Hügel was then placed on deposit in the Museum. Among the numerous additions since made to these collections is a set of casts of some very remarkable sculptures from Central America, the result of the Maudslay explorations in that country, which were aided by a grant from the University. During the current year a valuable collection of pottery and shell and stone implements from the West Indies has been presented by Col. H. W. Feilden, and Lady Seratchley has placed on deposit in the Museum the Ethnological Collection formed by her husband, the late Sir Peter Seratchley, K.C.B., when Commissioner for New Guinea.

The management of this Museum is entrusted by Grace to the Antiquarian Committee. This body consists of the Director of the Fitzwilliam Museum, two members of the Fitzwilliam Museum Syndicate appointed by the Syndicate, the President of the Cambridge Antiquarian Society, and two members of the Council of the Cambridge Antiquarian Society appointed by the Council of that body, every member of the Committee keeping his place on the Committee so long only as he holds the qualification in virtue of which he has been appointed. They are bound to meet at least once a term and to present an annual Report to the Senate. A maintenance fund of £60 a year was assigned in 1888 for the support of this Museum; it has since been increased to £100.

The Curator, to whom the care of the Museum is entrusted, is appointed by the Antiquarian Committee, with the consent of the Vice-Chancellor, and acts as Secretary to the Committee.

The Museum is open daily, from 10 to 6 in summer, and from 10 to 4 in winter.

*Curator.*

Baron Anatole von Hügel, M.A., Trinity.

## THE CAMBRIDGE OBSERVATORY

WAS erected in 1822-4, after the designs of Mr J. C. Mead, of London, at an expense of upwards of £18,000. About £6000 of this sum was contributed by subscriptions, and the remainder was granted from the public chest of the University.

There is a very fine Transit Circle by Simms. The object glass of the telescope is an excellent one, by Cooke, of 8 inches aperture. There are two divided circles of 3 feet in diameter, each of them being read off by means of four micrometer microscopes.

This instrument was procured by means of a grant from the Special Sheepshanks Fund mentioned below.

The other principal Instruments in the Observatory are a Mural Circle of 8 feet diameter by Troughton and Simms, which was graduated on its pier; and an Equatoreal of 5 feet focal length with Declination Circle of 3 feet diameter, and Hour Circle of 2 feet Diameter, by Jones. The Transit Clock is by Hardy. There are also two other clocks, one by Molyneux and Cope, and one by Graham, with several smaller instruments, of which some have been purchased by the Plumian Professors according to the regulations of their foundation, and others have been bought by the University, or have been presented to the Observatory by individuals.

In 1835, a magnificent telescope, of nearly twelve inches aperture and twenty feet focal length, made by M. Cauchoix of Paris, was presented to the Observatory by his Grace the Duke of Northumberland, Chancellor of the University, who at the same time intimated his wish to be allowed to present it in a complete working state. A building was accordingly erected near the Observatory, with a revolving dome, twenty-seven feet in diameter, and the equatoreal mounting of the telescope was completed under the superintendence of G. B. Airy, Esq., then Plumian Professor.

In December 1858, the Representatives of the late Rev. Richard Sheepshanks, M.A. fellow of Trinity College, gave £10,000 stock, 3 per cent. Consols, for the promotion of the science of Astronomy in the University.

The annual proceeds of one-sixth part of this stock are to be applied every year to the maintenance of "The Sheepshanks Astronomical Exhibition," and the annual proceeds of the remaining five-sixths are to be applied to the following purposes, viz.:

To the causing to be made the best possible observations and calculations for advancing the science of Astronomy (whether Physical or Gravitational or Mensurative), or the sciences of Terrestrial Magnetism and Meteorology, or other sciences usually pursued continuously in an Observatory; or to the erection of Buildings or procuring of Instruments proper for, and appropriated to, those Observations; or to the payment of actual observers and actual computers personally employed on the Observations and Calculations.

The entire endowment is invested in the names of Trustees, who are the Master, Fellows and Scholars of Trinity College; but the immediate expenditure of the sums annually available for the purposes above mentioned is intrusted to the Observatory Syndicate.

In March, 1863, a further sum of £2000 was transferred to the University by Miss Sheepshanks to be employed for the benefit of the Observatory, with special preference for its employment in the purchase of one or more large instruments or classes of instruments, if such should be required.

In 1889 Mr R. S. Newall, F.R.S., offered to the University his refracting telescope with a view of its being used for the development of stellar physics. This instrument was the first of the large refractors of modern days; it has an aperture of 25 inches, and a focal length of  $29\frac{1}{2}$  feet. The discs for the object-glass were cast by Messrs Chance of Birmingham, in 1862, and they were worked by Messrs T. Cooke and Sons of York. The mounting, which is remarkably solid and steady, was made by the last-named firm, and was completed about the year 1871. The building is of iron, and has a hemispherical dome, with an internal diameter of 40 feet; the site is to the S.W. of the Northumberland Dome, in a field recently purchased as an addition to the Observatory grounds.

The expense of removal of the Telescope and iron building

from Gateshead-on-Tyne and the re-erection at Cambridge has been met by a contribution from the Trustees of the Sheepshanks Fund, gifts from Prof. Adams (with the special view of purchasing additional land to improve the site), and from H. F. Newall, M.A., Trinity College, a son of the donor of the Telescope, who has also offered his services in working the Telescope for five years.

By Grace of Nov. 27, 1862, it was ordered:—

That the Observatory Syndicate consist of the Vice-Chancellor, the Lucasian, the Plumian and the Lowndean Professors, and six other Members of the Senate to be elected by Grace.

That of these six Members two retire by rotation on the 12th<sup>1</sup> Nov. in every year, and that their places be supplied by two other persons elected at the next ensuing Congregation.

That the Syndicate be empowered to order new Instruments for the Observatory, to direct the requisite repairs of the buildings, and audit the accounts.

That the Syndicate meet at the Observatory once at least in every Term, and annually, in the month of May, inspect all the Instruments, &c. belonging to the Observatory, and afterwards make a Report to the Senate as well of the state of the Observatory as of the proceedings of the previous year.

By Grace of the Senate, May 2, 1861, the present Lowndean Professor (Prof. Adams, under whose superintendence the Observatory is placed) is authorised to appoint, with the consent of the Vice-Chancellor, one or two Assistant Observers, as he may see necessary: they or either of them to be removable from the office by the authority of the Professor with the consent of the Vice-Chancellor: and their annual salaries are to be determined by Graces of the Senate, and to be paid out of the common chest.

The volumes of Observations made in the years 1828—1869 have been published (the expense of which was defrayed by the Press Syndicate), and copies have been distributed to the principal Observatories and Academies in Europe, as well as to several private Observers.

The Observatory is open to members of the University and their friends every day (except Sunday), between half-past Twelve and half-past One. No stranger is admitted except in company with a Member of the University.

*First Assistant*—A. Graham, M.A.

*Second Assistant*—H. Todd.

### THE GEOLOGICAL MUSEUM.

THE original collection in the Geological Museum consisted exclusively of those specimens, English and Foreign, which are described in Dr Woodward's Catalogues, printed in 1728-9. The English Fossils were bequeathed by him to the University; and by a Grace of the Senate, dated Feb. 26, 1729, the Vice-Chancellor was empowered to purchase of his heirs, for a sum not exceeding £1000, the Foreign Fossils described in the above-mentioned catalogues.

<sup>1</sup> By Grace of May 24, 1888, the day was changed to Dec. 31.

This collection possesses a great historical value, as representing the condition of a progressive science during the latter half of the 17th century. Out of respect to the Founder it has not been incorporated among the more recent additions to the Museum. It contains the fossils collected by Agostino Scilla a distinguished Sicilian painter who published in 1670 a work entitled "*La Vana speculazione disingannata del senso*" in which he shows by comparison with recent forms that Fossils are really the remains of Organisms. Pencil drawings made by Scilla to illustrate that work are also preserved in the Woodwardian Museum.

Professor Green added a few valuable organic remains to the Woodwardian cabinets: and Professor Hailstone formed a distinct collection of simple minerals, and other specimens illustrative of the physical structure of the British Isles and of some portions of the Continent.

During fifty-two years continual additions were made to the collection; largely by the personal labours and munificence of Professor Sedgwick; partly by contributions from Cambridge Graduates and Undergraduates; partly by the purchase of specimens from time to time out of the old Woodwardian surplus fund; and, since the promulgation of the new Statutes, by special grants from the Senate. By such means a collection has been formed illustrating the natural history of the British rocks, from the newest to the lowest fossiliferous strata, and containing also many thousand rock-specimens collected by Professor Sedgwick from the various formations of the British Isles. Among the foreign collections may be specified, (1) A miscellaneous series of many thousand fossils, purchased (in 1840) of Count Münster; (2) A good series of organic remains from the Muschelkalk; (3) Specimens, illustrating the tertiary geology of France, partly collected, and partly purchased, by Professor Sedgwick.

All the palæontological collections added to the Museum during forty-four years previous to 1855 were arranged and classified by Professor McCoy, and his catalogue of the Palæozoic fossils was published, with an introductory Essay by Professor Sedgwick.

A Catalogue of the Fossils of the older Palæozoic strata was prepared by the late J. W. Salter, with a Preface by the late Professor Sedgwick, the last work which proceeded from his pen.

Many later additions have been made which have been recorded in the annual reports.

## THE MUSEUMS AND LECTURE-ROOMS.

THESE buildings were commenced in 1863, from the designs of Anthony Salvin, architect. Under his direction accommodation was provided for all the Professors of the Natural Sciences, except

Anatomy, Chemistry, and Geology. The style and plan selected were fortunately such as readily to admit of extension and addition. The range of building in three floors, extending from the Lecture-Room of Comparative Anatomy to Corn Exchange Street was erected in 1877, from the design of W. M. Fawcett, M.A., architect. It provided private rooms and work rooms for Comparative Anatomy, and Physiology. In 1880 two large rooms called "Museums of Philosophical Apparatus" were thrown into one, so as to provide suitable space for the Library of the Philosophical Society. In 1882 a Laboratory for Morphology was constructed above the upper floor on the south side of Mr Salvin's quadrangle; and in 1884 a second Laboratory for the same science on the west side. In 1890 a range of buildings was erected, from the design of W. M. Fawcett, M.A., architect, on the ground next Corn Exchange Street, to provide additional Class-Rooms for Physiology, a new building for Human Anatomy, and a large Lecture Room common to the two departments.

*Resident Porter*—Mr H. Lunn.

#### I. THE MUSEUM OF ZOOLOGY AND COMPARATIVE ANATOMY.

THE Collections belonging to this department are placed in the building which forms the east side of the court, as arranged by Mr Salvin. Fish, Reptiles, and Mammals are arranged on the ground floor, Birds in the large room above the Lecture-Room, now termed "The Bird Room," Invertebrates in the south gallery, and preparations of organs in the north and east galleries.

The skeletons of Fish are exhibited in the wall-case and table-case on the right of the entrance, with specimens in spirit on shelves adjoining: the Reptiles are in the next compartment; and the Mammals fill the rest of the Museum. The large skeletons are arranged on each side of the room, while the smaller specimens are in the wall-cases and the detached cases at the north and south ends of the building. The collection was commenced by Sir Busick Harwood, Professor of Anatomy from 1785 to 1814; and some specimens were added by purchase from the Museums of Mr Brookes and Dr Macartney of Dublin. But it owes its present development mainly to the exertions of Professor Clark, who held the office from 1817 to 1866. This portion of the collection has since been gradually increased by donation and purchase, and is now one of the most complete, for educational purposes, in this country.

The Ornithological Collections contain the collection of British Birds presented by the Cambridge Philosophical Society to the University in 1865: the Swainson collection of birds purchased by subscription in 1840; the collection presented by F. B. Goodacre, M.D. St John's, in 1863: the Strickland collection presented by the widow of the late H. E. Strickland, Esq., M.A., F.R.S., in 1867; the Selby collection deposited in 1869 by the trustees of the late

P. J. Selby, Esq.; and the Hepburn collection, presented in 1870 by the devisees of the late James Hepburn, Esq., of San Francisco.

On the 26th February, 1874, the Senate accepted the offer of Miss Frances Strickland, of Apperley Court, to found a Curatorship endowed with a permanent stipend of £150 per annum. The chief duties of the 'STRICKLAND CURATOR' are the proper custody and accurate cataloguing of the Strickland and other Ornithological collections belonging to the University.

1883 Hans Gadow, M.A., King's.

The collection of organs, preserved in spirit, originated in a small number of choice preparations which were presented to the University by Mr Lawrence. Subsequently, the Museum of Sir Busick Harwood, Professor of Anatomy from 1785 to 1814, was purchased after his death for £367. 10s. in 1815; a considerable number of specimens were acquired at the sale of Mr Brookes' Museum; and in the year 1836, the valuable collection of Dr Macartney, Professor of Anatomy in Trinity College, Dublin, was purchased by the University. It has since been thoroughly re-arranged according to the system of Hunter, as developed in the Museum of the College of Surgeons of London, and increased by the collection of Professor Schröder van der Kolk of Utrecht, presented by Professor Humphry. The series is under constant revision, and additions are made to it every year as opportunities occur.

A collection of Invertebrata has been gradually formed. It consisted, in the first instance, of a series, partly in spirit, partly dry, hastily put together for the instruction of students. The cabinet of shells formed by the late S. P. Woodward, author of the *Manual of the Mollusca*, was added in 1867. Since then the collection has been largely increased, mainly by the purchase in 1883 of the splendid series of Invertebrata sent by Dr Dohrn of the Zoological Station, Naples, to the Fisheries Exhibition. Dissections of the most important forms have been inserted where necessary. A catalogue of the exhibited portion has been commenced. The extensive collection of Shells, with a valuable Conchological library, bequeathed to the University, in 1873, by the late Robert MacAndrew, Esq., F.R.S., is at present placed in the West Gallery of the Museum of Comparative Anatomy. The whole had been carefully arranged and catalogued by Mr MacAndrew himself; and his nomenclature has been carefully revised and corrected by Mr A. H. Cooke, of King's College.

*Honorary Curator of the MacAndrew Collection*—A. H. Cooke, M.A. King's.

The collection of British Insects is extremely good. It has been formed by the union of the old collections belonging to the Philosophical Society, the Selby collection, the Brown collection—(made by Messrs J. and T. Brown of King's Parade)—and the collec-

tion of Coleoptera and Diptera made by the late G. R. Crotch, M.A. of St John's College. The whole has recently been arranged and determined. The Museum also possesses Mr Crotch's collections of Coccinellidæ and Erotilidæ. This portion of the Museum is under the charge of the Curator in Zoology.

A descriptive Catalogue of the entire Museum has been prepared: of which the Osteological portion was printed in the course of the summer of 1862. That of the other portions remain for the present in manuscript.

This Museum, in common with the other Museums of Natural Science, is under the control of the 'Museums and Lecture-Rooms' Syndicate, and managed by a Superintendent. The appointment was originally for five years, but by Grace 14 June, 1883, the appointment was continued to the present holder of the office without a fresh election.

John Willis Clark, M.A. Trinity.

A Demonstrator of Comparative Anatomy was appointed in 1873, by whom instruction is given to students. The appointment is made by the Professor of Zoology and Comparative Anatomy, with the consent of the Vice-Chancellor.

A Curator in Zoology was appointed in 1877. His duties are assigned to him by the Superintendent. The appointment is made in the same way as that of the Demonstrator.

*Curator in Zoology.* 1890. D. Sharp, M.D. (Edin.), F.R.S.

The fish in spirit, among which are the very interesting collections formed by Charles Darwin, Esq., M.A., F.R.S., of Christ's College, during the voyage round the world of H.M.S. 'Beagle,' and by the Rev. R. T. Lowe, M.A. of Christ's College, in Madeira, have been placed for the present in presses in the Gallery constructed in 1877 round the room in which the Ornithological collections are placed for the present.

The use of the Library of the Cambridge Philosophical Society was offered to the University in 1881; and the conditions suggested by the Society having been accepted by the Senate (2 June, 1881), the books were transferred to the large room on the ground floor of the central building, with the view of commencing a general Scientific Library. The number of books has already been largely increased by donations; and the Library thus formed is found to be of great service to the Professors and others who work in the New Museums. It is open daily from nine to one, and from two to six.

*Library Clerk*—Horace White.

## II. THE BOTANICAL MUSEUM AND HERBARIUM.

The Herbarium was commenced by Professor John Martyn more than a hundred and fifty years since; but when Professor Henslow was appointed to the chair of Botany in 1825, he found nearly the

whole of Martyn's collection gone hopelessly to decay. Professor J. Martyn also made a valuable donation of books to this Museum. These and many other books which have been recently acquired are carefully preserved and made available for use.

The Herbarium is exceedingly valuable and extensive. Very large additions are constantly being made to it. It includes selected sets of the plants gathered by nearly all of the recent botanical travellers; the whole herbarium of the late C. M. Lemann, M.D.; and nearly the whole of the valuable herbarium of the late Dr Lindley. The fine collection of Algæ formed by the late Dr and Mrs J. E. Gray (of the British Museum) has been given to the Herbarium by them. The Herbarium of the late celebrated Rubologist, Mons. Gaston Genevier of Nantes, has been recently obtained. Professor Babington's extensive Herbarium is in this Museum. The Herbarium of the late Rev. Dr Churchill Babington has been recently presented. The whole, as far as their state of arrangement will allow, are open to the use of botanists under the inspection of the Professor or his Assistant.

In 1887, Lady Bunbury presented the whole of the Herbarium and Botanical Collections of the late Sir Charles James Fox Bunbury to the Botanical Museum. They consist of Lichens, Fruits and Seeds, a general Herbarium British and Foreign, and a collection of Fossil Plants to be sent at a future time.

There is also a collection of cones, specimens of woods, and preparations illustrative of subjects treated of in lectures. These are arranged in two rooms adjoining the Herbarium, which also contain a beautiful series of plants in spirit.

Class-Rooms for the teaching of Botany are provided in a long building on the east side of the Herbarium, and in rooms at the south end of the range, adjoining the Lecture-Room. The house lately occupied by the head-master of the Perse School is now (1891) being adapted to provide further room for teaching and research in connection with this department.

*Assistant Curator of Herbarium*—I. H. Burkill, Caius.

### III. THE MINERALOGICAL MUSEUM.

The formation of the Collection commenced with the minerals collected by the late Dr Edward Daniel Clarke during his travels, which were purchased by the University after his death for the sum of £1500. A very extensive and complete collection of minerals well suited for the purposes of instruction was afterwards presented by Dr Whewell. Many rare and fine minerals have at different times been given by the late Marquis of Northampton, the Rev. C. Francis, G. W. Hallam, Esq., J. Hibbert, Esq., Mrs Calverley, Mrs Peacock, Miss Whitehurst, W. Hopkins, Esq., J. W. Clark, Esq. and others. In 1858, H. W. Elphinstone, Esq., M.A. of Trinity College, presented the collection of the late Henry

Warburton, Esq., M.A., F.R.S., which includes the minerals formerly in the possession of Dr W. H. Wollaston. In 1860, the collection of the late Dr James Forbes Young was presented by his brothers, Sir Charles George Young and H. Young, Esq. In 1866 a collection containing many choice minerals was presented by Lord Lilford. A valuable series of specimens of gold, collected by the late J. Hepburn, Esq., was placed in the Museum in 1870.

In 1841, Viscount Alford gave the University the rich collection of minerals, including a valuable collection of diamonds, formed by the late Sir Abraham Hume, Bart.

In 1857, Charles Brooke, Esq. M.A., F.R.S., of St John's College, presented the collection of minerals, in many respects unrivalled, made by his late father Henry James Brooke, Esq. F.R.S., on condition that it be maintained entire as the Brooke collection.

The greater part of the mineralogical collection is contained in two rooms on the first floor of the west wing of the building. The entrance is at the south-west corner of the Court. The simple minerals are arranged in table cases covered with glass, similar to the cases in use in the École des Mines of Paris and the Polytechnic School of Turin, the reception of duplicates and of minerals required for the illustration of lectures being provided for in two tiers of drawers placed underneath. The collection was arranged by the late Prof. Miller according to the classification proposed by Gustav Rose in his *Krystallochemische Mineral system*, which has the merit of bringing into juxtaposition those mineral species which most nearly resemble one another.

The lecture-room and laboratory which contain students' cabinets, are at the north end of the wing and are entered by the staircase opening on the passage used for thoroughfare. These open on the west into the Professor's private rooms, where original researches can be carried on. The west windows of these rooms and some of those in the Gallery are provided with platforms for supporting the Heliostat used in the determination of the geometrical and optical characters of minerals. The other private rooms are used, the one for general purposes, and the other as a chemical laboratory.

The Museum is open daily between the hours of 10 A.M. and 4 P.M.

*Assistant Curator*—R. H. Solly, M.A., Downing.

#### IV. THE MUSEUM OF MECHANISM AND WORKSHOPS OF THE PROFESSOR.

The Professor of Mechanism and Applied Mechanics is provided with a temporary Museum and lecture-room, in the western wing of the Museums. Adjoining it are two rooms where the

models of machinery that he uses in his lectures are deposited. There is also a series of workshops in close proximity consisting of fitting and turning, instrument making, pattern making, carpenter's shops, and a smithy and foundry. These are fitted with numerous lathes and vices, machines for shaping, planing, slotting, and drilling, and all the appliances necessary for teaching pupils and for making instruments and machinery. There is also a drawing office furnished with the necessary appliances for Mechanical drawing and designing.

This department is now (1891) being increased by the adaptation of a portion of the buildings lately occupied by the Perse School.

#### V. THE OPTICAL AND ASTRONOMICAL LECTURE-ROOM.

This is placed at the south-west corner of the upper floor of the Museums. It has a western and a southern outward wall, in each of which is a window especially formed for the reception and management of a Helio-stat. The one in the west wall corresponds to an opening through the tiers of seats, by which a solar ray may be directed upon a screen facing the audience.

The lecture-room of the Lucasian Professor is also assigned to the Plumian and Lowndean Professors of Astronomy.

There is also a flat area on the top of the lecture-room tower, on which Astronomical instruments deposited in an adjoining room can be temporarily mounted for the practice of students in observation.

#### VI. THE CHEMICAL LABORATORY.

The new Chemical Laboratory is a large building in Pembroke Street, facing part of Pembroke College, erected in 1887 from the design of Mr J. J. Stevenson upon a plan proposed by Professor Liveing. The principal entrance is from Pembroke Street, but the students' laboratories are also accessible at the back from the court of the Museums. The ground floor contains the laboratories for elementary work, namely, a large room for qualitative analysis fitted for 84 students, a laboratory for elementary quantitative work fitted for 38 students, with a room between them for large operations, a balance room directly accessible from the quantitative room, and in the S.W. corner an octagonal projection with windows on all sides where operations with chlorine or bromine can be conducted in a thorough draft. There are draft chambers in all the windows, and a separate small well-ventilated room for work with sulphuretted hydrogen. On the same floor are three lecture rooms. The large one, seating 240, is reached by separate entrances from the street and from the rear; the smaller, each seating 60, are accessible from the principal staircase. Between the lecture rooms are the preparation room and the specimen room, and, on the mezzanine, the private laboratory of the pro-

fessor. On the mezzanine on the principal staircase are the private room of the Professor of Chemistry and a room for organic analysis. On the first floor are the advanced students laboratories, and the laboratory for organic chemistry, balance room, lecture room and private room for the Jacksonian Professor. Higher up are the library, and one or two rooms for special researches. In the attic are rooms for the housekeeper and assistants, and for a spectroscope with a concave grating. Over the large laboratory is a flat roof, where work can be carried on out of doors. In the basement, under the large laboratory, is a classroom for demonstrations, and two rooms entirely fitted with unflammable materials where operations with easily inflammable substances can be safely conducted. Under the quantitative laboratory is the machinery room containing two small steam engines, dynamo-electric machine, large air pumps, and other machinery, also the storage battery. Under the lecture rooms are unpacking and store rooms, a room for gas analysis and a metallurgical laboratory with furnace room adjoining. The whole building is warmed by steam, and steam is laid on to all the rooms for use in chemical operations. Tubes from the air pumps are led into the different rooms, some giving low exhaustion for filtering are distributed to the working benches, while those giving the highest exhaustion are carried to the balance rooms, lecture rooms, and a few other points. The large lecture room, and the low rooms on the mezzanine floors are lighted by electricity, and there are leads from the dynamo and storage battery to all the lecture rooms for experimental purposes. A separate small storage battery can be placed in connection with any of the laboratories where an electric current is needed. The whole of the working rooms are ventilated by a shaft 100 feet high heated by the boiler furnaces. The Laboratories are open for the use of members of the University who comply with the rules, daily during term time, and during July and August from 10 a.m. till 6 p.m. The fee for the use of the laboratory is £3. 3s. a term; large apparatus and such as can be used in common is supplied, but such small apparatus as each student requires for his own use he is expected to provide for himself, and all chemicals used and all damage done to the apparatus of the laboratory must be paid for. No one is admitted to work in the advanced students laboratories until he has proved his competence to the satisfaction of the Professor of Chemistry or the Jacksonian Professor; nor are any experiments or researches allowed which are not approved by one or the other of those Professors.

*Assistant to the Professor of Chemistry—H. Robinson, M.A., Downing.*

*Assistant to the Jacksonian Professor—*

## VII. THE OLD ANATOMICAL SCHOOL.

This is now assigned to the departments of Medicine, Surgery, Midwifery, and Medical Jurisprudence.

The Muscum contains the specimens required for the teaching of Surgery, and a large and increasing Pathological collection.

The adjoining building, formerly used as a Chemical Laboratory, has now been fitted up as a School of Pathology.

## VIII. THE CAVENDISH LABORATORY.

This Laboratory, in which every facility is furnished for the prosecution of physical research, is the munificent gift of WILLIAM CAVENDISH, Duke of DEVONSHIRE, K.G. Chancellor of the University.

The building was erected from the designs of W. M. Fawcett, M.A., of Jesus College, at an expense of about £10,000.

The ground floor contains a set of rooms for operations requiring great steadiness, such as exact measurements. A store-room, a workshop, and a battery-room are also provided on the ground-floor.

The first floor contains a spacious lecture-room with a preparation-room, a large apparatus-room, a private room for the professor, and a large working laboratory, fitted with tables standing on beams of their own, so as to be independent of the vibrations of the floor. All the tables in the building are supported in the same way, and there are in every floor small trap-doors by means of which bodies may be suspended over the tables in the room beneath and through which electric and other communications may be made.

The Laboratory is open daily from 10 A.M. till 6 P.M., under the superintendence of the Professor of Experimental Physics, for the use of any members of the University who may desire to acquire a knowledge of experimental methods, and to take part in physical researches.

Experimental lectures upon Mechanics, Heat, Sound, Electricity and Magnetism, are given daily during Term, under the direction of the Professor of Experimental Physics, and are open to all members of the University.

*Assistant Director*—R. T. Glazebrook, M.A., Trin.

*Resident Attendant*—A. T. Bartlett.

## THE SELWYN DIVINITY SCHOOL.

The original Divinity School, probably the oldest University building, was on the north side of the 'Schools Quadrangle,' under the present Catalogue-Room of the University Library. This School was incorporated in the Library in accordance with a report of the Library Syndicate in the year 1856. In the same year William Selwyn, D.D., of St John's College, Lady Margaret's Professor of Divinity, set apart £700 a year from the income of his chair as an augmentation of the stipend of the Norrisian Professor, proposing at the same time, if the Norrisian Professorship should meanwhile become vacant, to continue the same contribution during his tenure of his office for the furtherance of theological studies in such way as might seem best.

In accordance with this provision a Trust was formed in the year 1864 to receive and administer the sums so set apart with a view to building a Divinity School; and shortly before Prof. Selwyn's death, on April 24, 1875, when the accumulated Fund amounted to nearly £10,000, a Syndicate was appointed (Dec. 3, 1874) to consider the best site for such a building. In accordance with their report, a site opposite St John's College was purchased by the University for £3750 (Grace of May 27, 1875). On Nov. 2, 1876, designs prepared by Mr Basil Champneys, M.A. of Trinity College, for the Divinity School and Literary Lecture Rooms adjoining it, in "English Gothic of the early part of the sixteenth century," were approved by the Senate, and the Divinity School was occupied on Oct. 24, 1879. The entire cost of the Divinity School, including fittings and furniture, amounted to a little more than £11,000, of which about £10,700 was provided by Dr Selwyn's gift.

The Divinity School contains a large Lecture Room, capable of holding about 300 students, a small Lecture Room, a Library, and four rooms for the Professors.

## ST PETER'S COLLEGE.

(FOUNDED A.D. 1257.<sup>1</sup>)

*Copies of the Statutes in the British Museum; Old Statutes* MSS. HARLEY, No. 7032, p. 187. *New*,—No. 7046, p. 132 (Printed in "Documents relating to the University and Colleges of Cambridge," Vol. II. pp. 6—116). *The Statutes as approved by the Queen in Council 29th June, 1882, are printed in the London Gazette.*

THIS most ancient College or House was founded by HUGH DE BALSHAM, Bishop of Ely, for a Master and fourteen Fellows.

According to the Statutes of 1882, the foundation consists of a Master, eleven Fellows at the least, and twenty-three Scholars at the least.

The Master, who is elected by the Fellows, must be a Master of Arts, or of some equal or superior degree, in the University of Cambridge or Oxford.

The Fellows are required to be Graduates of the College, or, if the Society think fit, they may be elected from among the other Graduates of Cambridge or Oxford. One of the Fellowships is entitled a Professorial Fellowship, and can be held only by a Professor of the University. Fellowships are tenable for six years, unless in the following cases: any Fellow who becomes either the Head or a Fellow of another College immediately vacates his Fellowship in this College; any Fellow who has been presented by the College to any Benefice of the clear annual value of £400 or upwards shall vacate his Fellowship one year after presentation; any Fellow who serves the College in one of the privileged offices of Tutor, Assistant Tutor, Senior Bursar or Dean, and has been a privileged Officer for at least two years retains his Fellowship for six years, independently of the time he has been a privileged officer, and if he holds such an office for twenty years, he retains the Fellowship for life: any Fellow who holds a Professorship in the University or who holds

<sup>1</sup> The date of the Charter is A.D. 1284.

the office of Public Orator, or Registry, or University Librarian retains his Fellowship notwithstanding the expiration of six years, while he holds such University office. A Fellow may, with consent of the College, resign the pecuniary emoluments of his Fellowship, and, retaining all its other privileges, become a Supernumerary Fellow: in this case the College proceeds to the election of a new Fellow. The College has also power to elect as Fellows men eminent for Science or Learning, whether Graduates of Cambridge or Oxford, or not. They may also elect any member of the College, whom they think it desirable so to distinguish, to be an Honorary Fellow.

The following scheme for the foundation of open Scholarships is embodied in the Statutes of 1882. It is directed that the Scholarships and Bye-fellowships of the College shall be consolidated and form a common fund to be called the Open Scholarship Fund, out of which there shall be founded:—

	£		
Twelve open Scholarships of 60	per annum each, at least.		
Six ditto .....	40	ditto	ditto

Scholars are elected from among Residents and non-Residents. Foundation Scholarships are adjudged to Residents (irrespective of age) according to the results of the various Annual College and University Examinations, for proficiency in Mathematics, Classics, Natural Science, Moral Science, Theology, Law, History &c. These are tenable until the holder is of standing to take the degree of B.A. Entrance Scholarships are adjudged after competition amongst candidates who have not commenced residence in the University, and who must not be more than 19 years of age at the time of the Examination, which takes place after due notice having been given.

In case of special merit the Master and Fellows have power to prolong the tenure of such scholarships; also to promote from one to another, or to confer upon a Scholar a second scholarship in consideration of distinguished merit.

The Master and Fellows have also power to apply a certain part of the Open Scholarship Fund in donations to deserving Students, whether Scholars or not.

There is an Exhibition from the Company of Clothworkers, and one from the Company of Ironmongers. To the Miller Exhibition the Master and Fellows elect some person educated at Huntingdon Free Grammar School, if any such duly qualified person present himself: if not, any otherwise duly qualified person may be elected.

Prizes are awarded to those who are most successful in the various subjects of the Annual Examinations. A Prize, open to Undergraduates, is given annually for an Examination in Butler's Analogy, Part I.

## CLARE COLLEGE.

(FOUNDED 1326.)

THIS very ancient College, founded by Lady ELIZABETH, sister and co-heir of GILBERT, Earl of CLARE, at present consists of a Master, eight Senior, and seven Junior Fellows, besides Scholars, and Students. The Fellowships are perfectly open to Bachelors of Arts, or persons of a higher degree, without restriction as to marriage. A Fellowship becomes vacant in five years and eleven months from the time of election, unless the Fellow hold the office of Professor, Public Orator, Registry, or Librarian in the University, or the office of Tutor, Dean, Bursar, or Lecturer in the College. One of the Fellowships must be a Professorial Fellowship: and one may be held by a person not a member of the University of Cambridge or the University of Oxford at the time of his election. For the remaining Fellowships, none but Graduates of the University of Cambridge or the University of Oxford are eligible. The electors to the vacant Fellowships are the Master, Senior and Junior Fellows: and in case there be an equal division, the Master has the casting vote. The Master is elected by the above mentioned Fellows within thirty days after a vacancy is declared. If the vacancy occur out of Term time, the thirty days are reckoned from the first day of the Term next ensuing.

The Junior Fellowships were originally nine in number founded by different benefactors (*viz.* three by Lord Exeter in 1612, two by John Freeman, Esq. in 1622, and four from the estates bequeathed to the college by Joseph Diggons, Esq. in 1658). The Junior Fellows now enjoy an equal share of the general revenues of the College with the Seniors, and have in general the same privileges. A Fellowship was founded in pursuance of the will of the Rev. Thomas Henry Coles, D.D., of Honington, near Grantham, in 1870; and a second Fellowship on the same foundation was added in 1882.

## PEMBROKE COLLEGE.

(FOUNDED 1347.)

THIS College was founded under the name of VALENCE-MARY, by Mary de St Paul, the widow of Aymer de Valence, Earl of Pembroke; and King Henry VI. was so liberal a benefactor to it, as to obtain the name of a second Founder.

There are *thirteen* Foundation Fellowships open to persons of every *nation*, and unrestricted as to counties.

Although there may be no Fellowship vacant, yet a candidate is never considered as superannuated.

There are at present *twenty-nine* Foundation Scholarships.

*Three*, of £80 a year, named after Mr Beatson.

*Six*, of £60 a year, on the original Foundation.

*Two*, of £60 a year, founded by Dr Watts.

*One*, of £60 a year, and *two*, of £40 a year, founded by Archbishop Grindal.

*Three*, of £40 a year, founded by Sergeant Moses.

*Three*, of £40 a year, founded by Mr Parkin.

*Six*, of £20 a year, founded respectively by Mr Smart, Mr Scrivener, Mr James, Bishop Lany, Dr Mapletoft, and Dr Stuart.

*Three* of £20 a year, founded out of accumulations of the Scholarship Fund.

Exhibitions for one year are also provided out of the Scholarship Fund.

Besides the Foundation Scholarships, which are perfectly open, there is also *one*, founded by Mr Parkin, of the yearly value of £60, for a Scholar coming to the College from the Free School of Bowes in Yorkshire, and having previously been two years at least at that School. When there is no properly qualified Candidate from the School, this Scholarship is at the free disposal of the Master of the College.

There is also *one* Exhibition, of the yearly value of £70, founded by Mr John Holmes, for a Scholar educated at Blackrode School in Lancashire. This Exhibition is given by the Governors of the School, and the Scholar who holds it also receives from the College an additional Exhibition, the gift of Mr Warren, formerly a Blackrode Scholar, of the yearly value of £5.

There is an annual Examination after the division of the Easter Term in Mathematics, Classics, Theology, and the subjects of the other Tripos Examinations, when prizes in books are awarded in each year for proficiency in the various subjects. The Foundation Scholarships and Exhibitions are in general adjudged on the results of this Examination.

Prizes of books are also given annually to the authors of the best Composition in Latin Verse and of the best English Essay.

A prize is also given to the best reader in Chapel, whose general good conduct has gained the approbation of the College.

The sum of £30 is also given annually in one or more gratuities for proficiency in the Hebrew and Greek Scriptures. Undergraduates or Bachelors of not more than three years' standing may compete for these gratuities at the annual College Examination.

## GONVILLE AND CAIUS COLLEGE.

(FOUNDED 1348.)

THIS College, originally styled Gonville Hall, was founded in 1348, by EDMUND GONVILLE, rector of Terrington, in Norfolk, son of Sir Nicholas Gonville, and endowed for a Master and three Fellows. The original site was between Free-School Lane and the churchyard of St Botolph's.

The name of the College and its situation were both changed by WILLIAM BATEMAN, Bishop of Norwich, whom Gonville had appointed to be his executor. In 1353, Bateman established the College where the Gonville Court at present stands; and previously to this removal he had changed Gonville's statutes for statutes of his own, and altered the name to the "Hall of the Annunciation of Blessed Mary the Virgin." Thus, and by certain endowments, he made himself a SECOND FOUNDER.

The revenues were afterwards increased by various Benefactors.

In 1558, JOHN CAIUS, M.D., the THIRD FOUNDER, obtained the Royal Charter by which the former Foundations were all confirmed, and his own foundation was established. By this charter the College was thenceforward to be called GONVILLE and CAIUS College.

By the revised Statutes made under the provisions of the Oxford and Cambridge Universities Act, 1877, and amended in 1885 and 1890, the College is to consist of a Master, twenty-two Fellows, and such number of Scholars as the Governing Body may from time to time determine.

By the will of the late WILLIAM HENRY DROSIER, M.D., Senior Fellow of the College, who died on May 13, 1889, the endowments of the College will be increased by six or seven new Fellowships, called the Drosier Fellowships.

### FELLOWSHIPS.

The government of the College is in the hands of the Master and twelve Fellows.

The Fellows of the College are to be chosen from Graduates of the College, or, if the Governing Body shall at any time think fit, of the Universities of Cambridge or Oxford, who have distinguished themselves in the Studies of the University, or in some department of science, learning, or art.

The Fellowships are not vacated by marriage, but terminate in general at the end of six years from the time of election. They may however be retained if the Fellow at the end of that time be holding certain University or College Offices: or shall have held some one or more of such Offices during the space

of fifteen years; or shall have been permitted by a special vote of the Governing Body to retain his Fellowship on account of his literary or scientific reputation or labours.

#### SCHOLARSHIPS AND EXHIBITIONS.

The Scholarships are of two kinds. (1) *Entrance Scholarships* (of values varying from £40 to £80). These are competed for before admission to the College, and are open only to persons under 19 years of age. The subjects of examination are generally Mathematics, Classics, Natural Science, Medieval and Modern Languages, Oriental Languages and History. (2) *Foundation Scholarships*. These are awarded, on the result of the Annual College examinations, to persons already in residence and without restriction of age. They are given for proficiency in any branch of study recognised in the Tripos Examinations of the University. The annual value ranges from £40 to £100.

The Scholarships are as a rule tenable until the Scholars are of standing to take the degree of B.A., but in cases of special merit the tenure is prolonged for a year or more.

Exhibitions are given under the same conditions as Scholarships, but for a somewhat lower standard of merit. Donations of smaller sums may be made to students who have acquitted themselves creditably in the examinations.

In addition to the foregoing, two Scholarships of the value of about £60 each, and tenable for three years, were founded by the late Dr Shuttleworth, of Berne. These Scholarships are awarded for proficiency in Botany and Comparative Anatomy (including "Zootomy and Comparative Physiology"), and are open to all registered Medical Students of the University who are of not less than eight terms standing, and have passed the Additional Subjects of the Previous Examination required from Candidates for Honours. The successful Candidates for these Scholarships must remove to this College, if they are not already members of it.

A Studentship in Botany worth £90 a year, tenable for two or three years (the "Frank Smart Studentship") was in 1887 founded by Francis Gray Smart, M.A., M.B. The Studentship is open to all members of the University of a certain standing, but the person elected, if not already a member of the College, must forthwith become a member.

A Chapel-clerkship of about £72 (or two of about £36) tenable for one year is given to a student (or students) at the end of the second year of residence. Candidates in sending in their application must show that they have need of such help and must be recommended by the Tutors to the Governing Body.

An Organist Scholarship of £90 was founded in 1885. A vacancy should occur every three or four years. The Scholar acts as Organist in the College Chapel and is expected to read for the B.A. and Mus. Bac. Degrees.

Two Choral Exhibitions of £40 each (expected to be vacant about every three years) have been established in the present year. The duties of the Exhibitioners are to assist in the daily

choral services of the College Chapel, and they are required to read for a degree.

#### TANCRED STUDENTSHIPS.

There are also connected with the College :

FOUR (or more if the funds of the Trust permit) STUDENTSHIPS in Physic, founded by Christopher Tancred, Esq. each of the annual value of about £70.

The Candidate who is elected to one of these Studentships is obliged to enter at this College within a month from the time of election; or to remove hither, if he be a member of any other College.

These Students are required to take the degree of Bachelor of Medicine as soon as they are of sufficient standing for the same; and they may hold the Studentship for three years after their degree. Students therefore who are elected previous to admission at any College, can hold them eight years. The electors to these Studentships are the Master of Gonville and Caius College, the Master of Christ's College, the President of the College of Physicians, the Treasurer of Lincoln's Inn, the Master of the Charterhouse, and the Governors of Greenwich and Chelsea Hospitals. The Trustees hold their meetings at Lincoln's Inn, on Wednesday in Whitsun-week, and on the Wednesday after St Martin's day<sup>1</sup>.

#### HARROW SCHOLARSHIPS.

TWO SCHOLARSHIPS, founded at Harrow School, A.D. 1830, by John Sayer, M.A., Barrister-at-Law, and formerly a Senior Fellow of the College, of the annual stipend of £52. 10s. The Scholars are elected by the Governors of the School and proceed to this College.

#### LECTURES.

Besides the regular lectures, instruction is given by the lecturers to small classes and to individuals. The Educational Council further provides additional temporary instruction and personal supervision in all branches of study recognised by the University; the object being, so far as possible, to do away with the necessity of private tuition in preparation for the various Triposes.

#### EXAMINATIONS, ANNUAL PRIZES, &c.

Candidates for Honours are examined annually in the subjects of the several Triposes. Scholarships are awarded, in case of sufficient merit, in connexion with each of these subjects; and prizes of £3 (or in special cases of £5) in books are given to every Student who is placed in the First Class.

A prize of £3 is given annually to that Undergraduate or Bachelor of Arts who exhibits the greatest proficiency in Hebrew. The Examination takes place in the Easter Term. The same Student cannot be prizeman twice.

Prizes of the value of £3 each are given annually for the best

<sup>1</sup> Forms of petition and all information respecting the Tancred Studentships may be obtained from B. J. L. Frere, Esq., 28, Lincoln's Inn Fields, London.

discussions of two questions, one of Pure, the other of Mixed Mathematics; the competitors to be members of the College of not more than twelve terms standing.

Three Composition Prizes of £3 each are annually offered, one for Latin Prose Composition, one for Latin Verse Composition, and one for Greek Verse Composition; the candidates to be of not more than eight complete terms standing.

A prize of £5 is given annually for an Essay on some subject connected with English History or English Literature.

A prize of £6 in books (the "Frank Smart Prize") is awarded annually to the undergraduate who is most distinguished in the subject of Botany at the annual College Examination.

In place of the regulations which formerly provided for the delivery annually of a "Thruston Speech" (on the progress of Medicine from the time of Dr Caius), the following order is now in force:—"The money, about £54 (as money, or in any other form that may be thought best), shall be given triennially to that member of the College who has published in the course of the preceding three years the best original investigation in Physiology (including Physiological Chemistry), Pathology, or Practical Medicine; the person to whom the Prize is awarded being required to give an account of the investigation in the form of a lecture (or otherwise as the Governing Body may think best) in the College."

PLATE to the value of £10, the gift in 1774 of Dr Schuldham, is awarded each year to one judged worthy amongst the commencing Bachelors of Arts.

### ADMISSION.

All Candidates for admission are required to pass an entrance examination in Classics and Mathematics. There are three ordinary times of Examination, viz. in March, June, and September. Candidates must satisfy the Tutors that they can profit by the College Lectures, and also that they have a reasonable chance of passing the several University Examinations in due course. Scholars elected prior to entrance, and candidates who have acquitted themselves with merit in the Entrance Scholarship Examination, as well as Holders of Certificates from the Oxford and Cambridge Schools Examination Board or the Syndicate for the Local Examinations excusing from the Previous Examination, are exempt.

All Medical Students at this College are required, as a condition of admission, to be candidates for a Tripos. They must satisfy the Tutors at the Entrance Examination that they can pass the University Previous Examination with the Additional Subject at the beginning of their first term. They are strongly advised to take the papers which are set in Elementary Chemistry and Elementary Physics. By a good knowledge of German a candidate may be allowed to compensate for deficiency in one of these subjects. If in any year the number of applications for admission of Medical Students bears more than a certain proportion to the applications for the admission of other classes of students, the examination in the case of the former becomes competitive.

## TRINITY HALL.

(FOUNDED 1350.)

*The College Statutes are published among the Parliamentary Papers of 1881.*

THIS College was founded by WILLIAM BATEMAN, Bishop of Norwich, in the year 1350. The Founder's words are :

“ Volumus quod Collegium Scholarium supradictum vocetur Collegium Scholarium Sanctæ Trinitatis de Norvico, et quod Domus quam inhabitabit dictum Collegium nominetur Aula Sanctæ Trinitatis de Norvico.

The College was further incorporated by an Act of Parliament of the reign of Elizabeth under the name of “The College or Hall of the Holy Trinity in the University of Cambridge.”

The foundation was subsequently augmented by Simon Dalling, Bishop Nykke, Robert Goodknappe, Dr Hewke, Dr Hervey, Dr Mowse, Horatio Goodbehere, and other benefactors.

The College continued to be governed by the Statutes of the Founder until the year 1860, when new Statutes were enacted.

These Statutes were repealed in 1882, and the College is now governed by Statutes framed under the authority of the Universities of Oxford and Cambridge Act, 1877.

### FELLOWSHIPS.

There are thirteen Foundation Fellowships. All the Fellows have the same stipends and privileges, and they and the Master constitute the Governing Body of the College. Fellowships are tenable for six years from the date of election. The holding of certain College offices or Professorship in the University prolongs the tenure of the Fellowships.

There is one Professorial Fellowship at this College.

A Fellow who has held the office of Tutor or Assistant Tutor for twenty years, or who has held the office of Professor in the University for fifteen years, may be retained in his Fellowship for life by a vote of the majority of the Governing Body.

### LAW STUDENTSHIPS.

The study of the Law, for which this College was especially designed by the founder, has been provided for under the Statutes by the establishment of a Law Lectureship and at least three Law Studentships; the latter are tenable for three years, and are of the annual value of £50. They are to be given to graduates of the College in Arts or Law, who intend to prepare themselves for

practice in some branch of the Legal profession. The holders of these Studentships are not required to reside in the University.

### SCHOLARSHIPS AND EXHIBITIONS.

A fixed proportion of the divisible revenues of the College is annually to be paid over to the Scholarship Fund. The governing body is empowered to distribute this among the Scholars and Exhibitioners in the way it may think best, but any residue which remains at the end of one year must be applied subsequently to the purposes of the fund, or in rewards and assistance to meritorious students.

The College Scholarships are tenable up to the time of taking the B.A. or LL.B. Degree; they are at present sixteen in number. Two of the Scholarships vacant in 1890 will be of the value of £80 a year, and the rest will vary between £80 and £21 a year. The Scholarships are awarded according to the results of the various College Examinations in Classics, Mathematics, Law, and History. The Scholarships of the largest amount are usually given to Students who have just concluded their first year. Scholarships obtained at one Examination may be augmented on a subsequent occasion.

Two Exhibitions of the value of £80 and others of smaller value have usually been awarded; they are tenable during the first year of residence. An Examination for these Exhibitions is usually held in December; it is open to all persons under 19 years of age, who have not commenced residence in the University. One of them is reserved for those who intend to read for Honours in the Law or the History Tripos<sup>1</sup>.

### ANNUAL PRIZES.

A prize of £15 was left in 1874 by Mr Jonas Cressingham, who was long a Member of the College, to be offered annually for an English Essay. All Undergraduates of the College may compete. The subject is given out in the Lent Term.

A Prize of about £15 has recently been founded by the present and former pupils of the Rev. H. Latham, for many years a tutor and now Master of the College. The prize will be offered annually for proficiency in English Language and Literature.

Prizes are given for the best Exercises in English and Latin Composition to students both of the first and of the second year.

Prizes of £5. 5s. and £3. 3s. are given in Books to those who stand in the first and second places respectively in the College Examination at the end of the first year.

A Prize of £3. 3s. is usually awarded to the most distinguished of the Candidates for Mathematical and Classical Honours both in the second and third years.

An Examination in the subjects of the Law Tripos takes place in the Easter Term, according to the result of which a Prize of £3. 3s. in Books is awarded.

<sup>1</sup> Full particulars may be obtained by application to the Tutors.

## CORPUS CHRISTI COLLEGE.

(FOUNDED 1352.)

THIS College owes its foundation to two Societies which existed in Cambridge in the early part of the fourteenth century, called the Guilds of Corpus Christi and of the Blessed Virgin Mary. These Guilds having, about the year 1350, been united into one under the name of "*Gilda preciosi Corporis Jesu Christi et gloriosæ Virginis Mariæ Matris suæ*," obtained, through the intercession of Henry, Duke of Lancaster, the Alderman of the consolidated Guild, a license from King Edward III, dated Nov. 7, 1352, for founding a College to be called "*Domus Scholarium Corporis Christi et Beatæ Mariæ Virginis*."

The College, at the present time, consists of a Master and twelve Fellows, besides Scholars and other Students.

The Fellowships are open to all the Queen's subjects wherever born.

### SCHOLARSHIPS.

The Foundation Scholarships at this College are :

- a. Of the Old Foundation.
- b. Of the Foundation (1770) of Dr Matthias Mawson, Bishop of Ely, and formerly Master of the College.
- c. Of the Foundation (1594) of Roger Manners, third son of Thomas, first Earl of Rutland, and Esquire of the body to Queen Elizabeth.
- d. Of the Foundation (1693) of Dr John Spencer, Master of the College, and Dean of Ely.
- e. Of the Foundation (1577) of Sir Nicholas Bacon, Lord Keeper of the Great Seal.

The present scheme for the award of these Scholarships is as follows :

- a. Three Scholarships of the Old Foundation, of £30 a year each, are awarded in June of each year, to Students then completing their third Term of residence, if the Candidates are deemed of sufficient merit. They are tenable for two years from election.
- b. Of Bp. Mawson's Foundation, two of £60 and one of £40 a year (or their equivalents in total amount) are awarded in June to Students of the same standing as above, and under the same conditions.

Also, two Entrance Scholarships of £60 and one of £40 (or their equivalents), tenable for one or two years, are offered annually for competition for Students who have not commenced residence.

- c. Of the Manners Scholarships, *one* is awarded in June, under the same conditions in all respects as the Old Foundation

Scholarships; and *two*, tenable for one year, to Students then completing their sixth Term of residence. The annual value of each of the three is £25.

*d.* The two Spencer Scholarships are bestowed on deserving Students needing assistance, in their second or third year of residence. These Scholarships are in the gift of the Master. Their value is £20 a year, with rooms.

*e.* The Bacon Scholarship (£20 a year with rooms) is generally awarded every third year, by examination, to a Student in his sixth Term, if any is deemed of sufficient merit.

## KING'S COLLEGE.

(FOUNDED, 1441.)

THIS College was founded and munificently endowed by KING HENRY VI. for a Provost and seventy Scholars. Every vacancy had to be at once filled up by the admission of a Scholar from the sister foundation of King Henry VI. at Eton.

Under the present Statutes (confirmed 1882), the foundation consists of a Provost, forty-six Fellows (exclusive of Honorary, Additional, and Supernumerary Fellows), and forty-eight Scholars. Four of the Fellowships are appropriated to Professors in the University; the remainder are open to all Graduate members of the College whose standing does not exceed six years from the twenty-fifth day of March in the academical year in which they commenced residence in the University.

Twenty-four of the Scholarships are appropriated to Eton College, and twenty-four are open. Of the former, at least four are offered every year for competition as Entrance Scholarships, tenable for four years, and two as Undergraduate Scholarships\*. At least six Open Scholarships are offered every year, but the number to be offered as Entrance and Undergraduate Scholarships respectively may vary from time to time\*. Open Entrance Scholarships are tenable for two years, and may be prolonged for a further period of two years. The holders of Entrance Scholarships as well as other members of the College are eligible to Undergraduate Scholarships. An Undergraduate Scholarship is tenable till the holder is of four years' standing from March 25 in his first academical year of residence, and may be prolonged for a further period of two years. The emoluments of a Scholarship are £80 a year, subject to a possible reduction in the case of a prolonged Undergraduate Scholarship. Holders of Undergraduate Scholarships have in addition tuition free, and all Eton Scholars have tuition free, commons during residence and rooms rent free until their first degree.

The proceeds of vacant Scholarships are appropriated to the Exhibition Fund, out of which Exhibitions are awarded upon the results of the Entrance† and Annual College Examinations; some of these Exhibitions are reserved for candidates who stand in need of pecuniary assistance to enable them to obtain a University education.

---

\* In the Academical year 1891-92 nine Eton Scholarships (six Entrance) and six Open Scholarships (two Entrance) will be offered.

† At the Entrance Examination in December, 1891, besides Scholarships, there will be offered for competition the Laurence Saunders Scholarship,

at least three open Exhibitions value from 50*l.* to 70*l.* for two years, and at least three Exhibitions value from 40*l.* to 50*l.* for two years for candidates standing in need of pecuniary assistance, also an Exhibition of 50*l.* for two years for proficiency in Modern Languages.

An Entrance Scholarship of the value of at least £70 a year has recently been founded in memory of Laurence Saunders, M.A., formerly Scholar, who suffered in the Marian persecution.

From the legacy of Dr Vintner, formerly Fellow, an Exhibition of £70 a year to be awarded for proficiency in Natural Science has been founded. Two Exhibitions, each of the annual value of £50, have been established from the benefactions of Dr Price, and other former members of the College. These Exhibitions are open to all Undergraduates of the College in their first or second year of residence.

Some peculiar privileges appertain to this College. The Provost has absolute authority within the precincts, and, by special composition between this Society and the University, its Undergraduates are exempt from the power of the Proctors and other University Officers within the limits of the College.

#### ANNUAL PRIZES.

Dr COOKE (formerly Provost) left £200 stock, the annual income of which is given to an Undergraduate in his first year who has deserved well by application to his studies and general orderly behaviour. This year awarded to Hawkins.

Dr GLYNN, in the year 1800, bequeathed £20 a year to be equally divided, towards the end of Easter Term, between such two Scholars of the College as have in the course of the year been most distinguished for learning and regularity of conduct: now confined to Undergraduates in their second year. This year awarded to Churchill and Gordon.

There are two £5 prizes for Declamations, founded in 1786, by T. James, D.D., formerly Fellow. This year awarded to von Glehn and Mahaffy.

Books to the value of £15 are given annually by the College for the best exercises in Greek and Latin Verse Composition. This year prizes for Greek Iambics were awarded to Ghose and Kittermaster, and a prize for a Latin Ode to Kittermaster.

Two prizes of about £5 each are given annually to the best readers of the Lessons in Chapel. This year awarded to Furness and R. J. G. Mayor.

A prize, value £5, called the Pawley Divinity prize, is given for proficiency in the annual Divinity Examination. This year awarded to King.

GEORGE RICHARDS, M.A. (formerly Fellow), bequeathed to the College in the year 1848 the annual sum of £50, "of which sum thirty pounds shall be given annually in his third year to such Scholar who shall have most distinguished himself in his own College and University in Divinity and Classics, and twenty pounds also annually in his third year to such Scholar who shall have excelled and passed the best examination in Mathematics, particular respect being had in both cases to moral and religious conduct." This year the prize for Divinity and Classics was awarded to R. J. G. Mayor.

MARTIN THACKERAY, M.A., formerly Fellow and Vice-Provost, bequeathed to the College, in 1862, the sum of £1000 in trust to pay the yearly interest thereof and of the accumulations to the Scholar of the College educated on the foundation of Eton College who shall in the Examination of the year for the Degree of B.A. have taken the highest degree amongst the Wranglers in the Mathematical Tripos. This year not awarded.

SIR G. W. G. CRAUFURD, M.A., formerly Fellow, gave £500, from the interest of which prizes are awarded to the three Students who are placed highest in the first class in the annual examination in Divinity, and who have deserved well in other respects. This year prizes were awarded to Jordan and Thackeray.

Books bearing the College arms, to the value of Forty pounds, are given annually to such Undergraduates as have most distinguished themselves in the College Examinations.

## QUEENS' COLLEGE.

(FOUNDED 1448—RE-FOUNDED 1465.)

THIS College was founded in 1448 by QUEEN MARGARET of Anjou, consort of Henry VI., and refounded in 1465 by ELIZABETH WIDVILLE, consort of Edward IV.

The Society consists of a President and twelve Foundation Fellows.

The Fellowships are tenable for six years from the day of election; but no Fellow can retain his Fellowship for more than one year after his institution to a College living, the net annual value of which exceeds £400.

A Fellow who holds a Professorship or the office of Public Orator in the University may hold his Fellowship so long as he continues to be Professor or Public Orator.

A Fellow who holds the office of Senior or second Tutor, Senior Mathematical Lecturer, Senior Classical Lecturer, or Additional Lecturer (if any such be appointed), holds his Fellowship so long as he holds such office.

A Fellow who holds the office of Senior or second Tutor, Senior Mathematical Lecturer, or Senior Classical Lecturer, for more than twenty-five years, continues to hold his Fellowship for life, or if he hold one such office for more than seven but less than twenty-five years, he holds his Fellowship, after vacating office, for a period of time equal to that by which his tenure of office exceeded seven years.

### SCHOLARSHIPS, EXHIBITIONS, &c.

A fixed proportion of the revenues of the College is paid over to the Scholarship fund. The governing body distributes this among the Scholars.

One-third of the Scholarship-stipend is paid at the end of each term of residence, up to and inclusive of the ninth term of residence.

An Examination will be held on Thursday the 7th and Friday the 8th of January, 1892, for six Scholarships, open to all persons, under 19 years of age, who shall not have commenced residence in the University. They will be awarded for proficiency in Classics or Mathematics. The Classical part of the Examination will comprise the translation of passages from the best Greek and Latin authors and composition in those languages. The Mathematical part will be limited to papers in Euclid, Arithmetic, Algebra, Trigonometry, and Conic Sections, treated both analytically and geometrically, with problems arising out of those subjects.

The value of the Scholarships will depend upon the report of the Examiners. No Scholarship will be of less value than £30, nor usually of more than £60. And no Scholarship will be given unless the Examiners report that a Candidate merits such a distinction.

Each Candidate must forward to the Tutor of the College, at least six days before the commencement of the examination, a certificate of baptism or birth, and a certificate of good conduct from a Graduate of Cambridge, Oxford, or Dublin.

The successful Candidates are required to enter their names on the Boards of the College and to commence residence in the following October.

The Foundation Scholarships are awarded by the results of the various College Examinations held in the Easter Term.

In addition to the foregoing there are the following Exhibitions.

<sup>1</sup> Two *Sedgwick's Exhibitions*, value about £20 per annum (sons of poor Clergymen to be preferred).

<sup>1</sup> One *Clark's Scholarship*, £10 per annum.

<sup>2</sup> One *Sandys' Exhibition*, £12 per annum.

The President has at his disposal funds to the amount of £130 per annum with which he assists deserving Students of limited means.

### EXAMINATIONS AND ANNUAL PRIZES, &c.

At the close of the Easter Term there is an Examination of the Junior Sophs and Freshmen, in Mathematics, Classics, and Theology. Prizes varying in value from three to five guineas are given to those students of the different years who pass the best examination in Mathematics and Classics, provided they are thought deserving of such distinction.

The Rev. Thomas Penny White, M.A. late Fellow of this College, founded in 1842 a prize of the value of £30 to be given to the commencing Bachelor who takes the highest degree, provided that he be classed among the first four Wranglers or in the first division of the first class of the Classical Tripos, Part I. Accumulations, amounting on the next occasion to £300, are given to a senior Wrangler, who obtains also a place in the first division of the Mathematical Tripos, Part II., or to a senior Chancellor's Classical Medallist, who obtains also a place in the first division of the first class of the Classical Tripos, Part I., and in the first class of the Classical Tripos, Part II. The prizes in this paragraph are confined to Students who have kept at least seven terms at the College.

The Rev. D. Hughes, D.D. formerly Fellow and Vice-President of the College, founded an annual prize of ten guineas for the best composition in divinity by a Bachelor of Arts.

<sup>1</sup> The Exhibitions and Scholarships thus marked are in the sole appointment of the Master, the rest are in the appointment of the

Master and Fellows present.

<sup>2</sup> This Exhibition was founded in 1840, by the Rev. J. Sandys, late Fellow of Queens' College.

He also founded two prizes of five guineas each, one for the best Latin, and the other for the best English Dissertation, by an Undergraduate who is not a Questionist.

In 1830 Mrs Mary King, widow of the late Joshua King, LL.D., President of this College, gave to the College £1000 Great Eastern Railway Debenture Stock bearing Interest at £4 per cent. per annum, in order that prizes, to be called the Joshua King Prizes, should be given annually for the encouragement of the study of Classics and Mathematics.

In 1887, the Rev. George Phillips, D.D., President of this College, gave to the College £1000 Great Eastern Railway Debenture Stock bearing Interest at 4 per cent. per annum, to found a Scholarship of £40 a year to be called the Phillips' Scholarship.

Prize-books also to the amount of £10. 10s. are offered in four Prizes for proficiency in the Greek Testament.

## ST CATHARINE'S COLLEGE.

(FOUNDED 1473.)

THIS College or Hall was founded by ROBERT WODELARKE, D.D. Chancellor of the University, and Provost of King's College, for a Master and three or more Fellows. The foundation was afterwards enlarged by the benefactions of Mr William Basset, Mr Richard Nelson, Mr Robert Sympson, Mr John Chester and others, but principally by the endowments of Mrs Mary Ramsden of Norton and Fockerby in the county of York. The late Rev. C.W. Burrell, M.A., also left a considerable sum for the enlargement of the ecclesiastical patronage of the College. In 1874, Mr Yorke, formerly Skerne Fellow, bequeathed a sum of money to the College.

The Statutes, confirmed by order of the Queen in Council May 3, 1882, provide that there should be a Master and six Fellows.

The proceeds of Mr Frankland's foundation are now added to the general Scholarship fund.

The College at present consists of a Master, six Fellows, and twenty-six Scholars.

There is also a fund of about £3000 in Consols for the support of Students of the College. From these funds Scholarships varying in value from £50 per annum to £20 are annually given after open Competition or at the College Examination in June.

The Rev. T. Jarrett, D.D., Regius Professor of Hebrew, left by will the sum of £1000 to found a scholarship to be called by his name.

Besides these Scholarships if there be a surplus grants are made to deserving Students of the College.

All the Scholarships are perfectly open to candidates from any school or place of birth.

Bishop Sherlock founded the Librarianship, worth £20 per annum, with an allowance for rooms. He also considerably augmented the salary of the Master's Sizar, the present value of which is £30 per annum, with Chambers rent free. The Bible Clerk receives his Commons, with Chambers rent free.

### ANNUAL PRIZES.

A prize, called the Corrie Prize, for the encouragement of the study of Theology, being the interest accruing from a sum of money subscribed by certain Graduates of the College formerly pupils of the Rev. Professor Corrie, late President and Tutor.

There is annually a Classical and Mathematical examination of the Junior Sophs and Freshmen at the division of the Easter Term, when prizes in books are usually adjudged to the best proficient in each year.

## JESUS COLLEGE.

(FOUNDED 1496.)

THIS College was founded in 1496 by JOHN ALCOCK, Bishop of Ely. The Society consists of a Master and sixteen Fellows at the least. The Master is elected by the Fellows; the Fellows are elected by the Master and Fellows. Fellowships are tenable for six years from admission without restriction. The time spent by a Fellow in discharging the duties of Bursar, Dean, Tutor, Assistant Tutor or Lecturer, provided he shall have served for five years, is not to be counted in the above-mentioned term.

### FOUNDATION AND OTHER SCHOLARSHIPS.

A fixed proportion of the revenues of the College is paid over to the Scholarship Fund. The Governing Body distributes this among the Scholars. Last year the number of Scholars was 25, and their stipends varied from £70 to £10. The amount so distributed amounted to £1000.

There are also the following Scholarships :

Seventeen, varying from £40 to £50, according to merit, founded by Tobias Rustat, Esq. and appropriated to the sons of deceased clergymen, or, in default of such Candidates, to the sons of living clergymen (*a*).

One, £40 per annum, or thereabouts, to the son of a living clergyman (*b*).

One, £15 per annum, or thereabouts, to the son of a clergyman, with preference to an orphan, equally open to all counties (*c*).

Two, £16 per annum each, left by Dr Gatford, open to all clergymen's orphans, and tenable from the degree of B.A. to that of M.A. (*d*).

One of £72, or two of £36 per annum, or thereabouts, to students educated at Loughborough School (*e*).

Two or more, founded in memory of Lady Kay, for Students in Theology, varying from £40 to £60, according to merit, open to any member of the University of not more than three years standing who has obtained at least a second class in any Tripos (*f*).

The foundation Scholarships may be held with any other.

### ENTRANCE SCHOLARSHIPS AND EXHIBITIONS.

Scholarships and Exhibitions for proficiency in Classics, Mathematics, and Natural Science and History are given away by examination in December to Candidates who intend commencing

residence in October. These may not exceed £80 in value, and Candidates must be under nineteen years of age at the time of examination. Rustat Scholarships are also given by examination at the same time.

### ANNUAL PRIZES, EXHIBITIONS AND REWARDS.

Prizes of books, each of the value of £3 3s., for the best Latin and English Declamations, and also for proficiency in some selected portion of Theology. Also a prize of £3 3s. for the study of Theology, founded in 1887 by friends of the late Dr Corrie, formerly Master of the College.

Rev. Frederick Keller, formerly Fellow, left £20 per annum to one or more deserving Bachelors.

Rev. Edward Otter, formerly Fellow, gave the dividend of one year's Fellowship, which, increased by the College, forms a Divinity and Hebrew prize of £20 open every two years to Bachelors.

There is an annual examination of the Senior Sophs, Junior Sophs, and Freshmen, in the Easter Term, when prizes of books are given to the best proficient in Classics, Mathematics, Theology, History, and Natural Science.

The Master and Fellows grant to deserving students of the College Exhibitions and additional Rewards in the form of money payments, after the above examination.

## CHRIST'S COLLEGE.

(FOUNDED 1505.)

THIS College (into which was merged an earlier College founded by King Henry VI., under the name of God's House, for a Master and three Fellows) was founded A.D. 1505, by THE LADY MARGARET, COUNTESS OF RICHMOND AND DERBY, MOTHER OF KING HENRY VII., for a Master, twelve Fellows, and forty-seven Scholars.

The Foundress thus dedicated her Foundation :

'Ad Honorem Christi Jesu, et Fidei ejus incrementum.'

King Edward VI. added one Fellowship and three Scholarships; and Sir John Finch and Sir Thomas Baines two Fellowships and two Scholarships. Various other Benefactors also added Scholarships.

The College now consists of a Master, fifteen Fellows, and thirty or more Scholars.

The *Fellowships* and *Scholarships* are open to all the Queen's subjects without restriction.

---

The *Fellowships* under the new Statutes are divided into Senior and Junior Fellowships. The number of Senior Fellows must not exceed two-thirds nor be less than one-third of the whole number.

All Fellows must be Graduate members of the College or of the University of Cambridge or of Oxford.

A Junior Fellow may be of any standing at the time of election. He can hold his Fellowship for six years from election, or until he has been elected to a Senior Fellowship.

In order to be elected to a Senior Fellowship it is necessary either (*a*) to hold one of certain specified offices in the College or University; or (*b*) to be engaged in other specified work under University sanction either at Cambridge or elsewhere; or (*c*) to be a person of known ability and learning engaged in research in any art or science.

A Senior Fellow who for twenty years has held one or other of the qualifying offices or employments may retain his Fellowship for life without further obligation to service.

The *Scholarships* are maintained either from the Scholars Fund or from the separate Trust Funds.

I. *The Scholars Fund* receives annually one-fifth of the divisible income of the College.

Out of it are supported :

(1) a varying number of Scholars (generally not less than twelve) named after the Foundress the Lady Margaret's Scholars; whose stipends may vary (generally between £30 and £100 a-year) at the discretion of the Master and Fellows :

(2) three Scholars named after King Edward VI., receiving £50 a year each :

(3) two Scholars named after Sir John Finch and Sir Thomas Baines, receiving £30 a-year each.

Out of this Fund the Master and Fellows may establish Exhibitions for poor Students, and grant gratuities to deserving Scholars and Exhibitioners. They may also establish Bachelor Scholarships free from the ordinary conditions of residence.

II. *The Trust Funds* provide generally :

- |     |                                      |                    |
|-----|--------------------------------------|--------------------|
| (1) | one Scholarship of £50, called after | Mr Bunting.        |
| (2) | ... ..                               | Dr Widdrington.    |
| (3) | ... ..                               | Bp. Seth Ward.     |
| (4) | two Scholarships of £30,             | Lady Drury.        |
| (5) | one Scholarship                      | Mr Broadbanke.     |
| (6) | four Scholarships                    | Mr Tancred.        |
| (7) | one Scholarship                      | Archdeacon Clarke. |
| (8) | ... ..                               | Mr Rysley.         |

There may however be more or fewer Scholarships on any of the above foundations, according to the available funds.

Besides these Scholarships, there are the following *Exhibitions*.

- |   |                                |
|---|--------------------------------|
| Two, named after Mr Carr, <i>with preference to Giggleswick School,</i>                                   | } in value<br>£50 a year each. |
| Two, named after Mr Wilson, <i>with preference to Kirkby Lonsdale School,</i>                             |                                |
| One, named after Mr W. Petyt, and Mr Sylvester Petyt, <i>with preference to Skipton School,</i>           | } in value<br>£30 a year.      |
| One, named after Bp. Otway, <i>with preference (1) to Kirkby Lonsdale School, (2) to Sedbergh School,</i> |                                |

in value at present  
£30 a year.

For each of these Exhibitions, a Candidate from a preferred School must have been educated there for two years at the least in the two years and a half immediately preceding the election.

Also, at any Examination, in the event of there being no properly qualified Candidate from a preferred School for an Exhibition, it will for that turn be considered open; and a Student gaining by open competition any of the foregoing Exhibitions except the last will be regarded as a Scholar of the College.

---

Students are elected to the *Scholarships* and *Exhibitions* after the annual College Examinations held partly in the Lent, partly in the Easter Term, at which Scholarships are adjudged for proficiency in Mathematics, Classics, Natural Science, Moral Science, Law, History, Divinity, Oriental Languages, Modern and Mediaeval Languages.

A Student may be a Candidate in each year of his undergraduate residence. He may also (if the holder of a Scholarship or Entrance-Scholarship) be promoted to another of larger value, or in case of special merit may receive two Scholarships.

There is also in each year an election to Entrance Scholarships from Students who intend to commence residence in the following October: when Scholars are elected for proficiency in Classics, Mathematics, or Natural Science, or any two of these branches of study. These Scholarships are tenable for two years, unless in the meantime the holder has been elected to a Foundation Scholarship.

A Student may hold a Scholarship or Exhibition until he is of standing to take the Degree of Bachelor of Arts: and, in case of special merit, the Master and Fellows may allow him, provided he continue to reside, to retain the same until he is of standing to take the Degree of Master of Arts, but no longer.

Besides the above, there are other Exhibitions founded by Mr Jenens, Dr Hawford formerly Master of the College, Sir Walter Mildmay, Mr Rawlins, Mr Harvey, Mr Laughton, formerly Fellow, Dr Plume, and Mrs Beridge, respectively. These, amounting in the aggregate to between £50 and £70 a year, are perfectly open, and are annually distributed amongst the most deserving Students of the College.

---

Christopher Tancred, of Whixley Hall in the County of York, Esq., founded *four (increased to five or more when the annual income will permit) Divinity Studentships*, for Students to be educated at this College, to which the Governors and Trustees of his Charities, viz.

The Master of Christ's College,  
 The Master of Gonville and Caius College,  
 The President of the Royal College of Physicians, London,  
 The Treasurer of Lincoln's Inn, London,  
 The Master of the Charter-House, London,  
 The Governor of the Royal Hospital of Chelsea,  
 The Governor of the Royal Hospital of Greenwich,

are the Electors.

A Student, when elected to the Charity, must have attained the age of 16 years, and be under that of 22 years.

He is required to be admitted of this College within one month after his election; to reside three-fourths of each Academical Term, so long as he holds his Studentship; to pass the University Previous Examination at the proper time; and to proceed to the Degree of Bachelor of Arts, so soon as he is of proper standing.

He may hold his Studentship for three years after the Degree of Bachelor of Arts, but no longer \*.

The annual income of each Student is not less than £50 and not more than £100. The present Students are Ds E. Dowe, R. Holmes, P. M. Stewart and F. W. Holmes.

## THE COLLEGE OF ST JOHN THE EVANGELIST.

(FOUNDED 1511.)

THIS College was founded by Lady MARGARET, Countess of Richmond and Derby, mother of King Henry VII. and Foundress of Christ's College. It succeeded the hospital of St John, founded about 1210, from which Hugh Balsbam, Bishop of Ely, removed his scholars to Peterhouse in 1284. In consequence of the death of the Foundress before the completion of her designs, much difficulty was experienced in establishing the College on as large a scale as was originally intended. It was mainly owing to the exertions and beneficence of John Fisher, Bishop of Rochester, executor of the Foundress, and Chancellor of the University, that sufficient funds were obtained to endow thirty-two Fellowships, of which he founded four, and twenty-four Scholarships, of which he founded two. There were numerous subsequent endowments for Scholarships. Nineteen additional Fellowships were founded in the reign of Henry VIII. Of these two were founded by Rev. James Beresford, one by Sir Marmaduke Constable, one by Mr Halitreholme, one by Lady Jane Rokeby, one by Mr John Bayley, two by Rev. Edward Gregson, one by Rev. Robert Symson, two by Rev. Dr John Keyton, one by Rev. Dr William Fell, one by Dr Thomas Thimbleby, two by Rev. Dr Roger Lupton, four by Archdeacon Hugh Ashton. In 1589 one was founded by a bequest from Mr Henry Hebblethwaite: in 1673 one by a bequest from Dr Francis Dee, Bishop of Peterborough. Endowments to found Fellowships were bequeathed in 1632 by Mr William Platt, and an endowment for one Fellowship in 1833 by Rev. James Webster.

Dr Thomas Linacre founded in 1526 a Lectureship in Physic.

New Statutes were approved by the Queen in Council, May 3, 1882.

The Foundation of the College consists of a Master and at least fifty-six Fellows, sixty Scholars, and nine Sizars called Proper Sizars.

The Governing body is a Council consisting of the Master, and twelve Fellows, of at least three years' standing from their first degree, elected by the Master and Fellows.

The MASTER must be a Master of Arts or of some equal or superior degree of Cambridge or of Oxford, and not less than thirty years of age. He is elected by the Fellows who are of at least three years' standing from their first degree.

The FELLOWS are elected from graduates of the College or graduates of Cambridge or of Oxford. The annual election takes place on the Monday after All Saints' Day, and all vacancies must be filled up not later than the second annual election after they occur. Fellows must proceed to the degree of Master of Arts, Master of Law, Master of Surgery, or Doctor of Medicine, as soon as they are of sufficient standing. Fellowships are tenable until ten days before the expiration of six years from election, provided that no Fellow may be of more than ten years standing from his first degree, but a Fellow, so long as he holds one or another of certain offices in the University or in the College, does not vacate by lapse of time; and a Fellow, who has served for twenty years in one or another of certain offices in the College, may under provisions specified hold his Fellowship for life. The Council may extend the tenure of a Fellow for periods of five years. They may also elect persons eminent for science or learning, such Fellows not to vacate by lapse of time; and may elect Professors or Readers of the University, their tenure to terminate with that of their office of Professor or Reader. Five Fellowships are Professorial Fellowships, to be held by Professors of the University under the conditions prescribed by the Statutes of the University. Any Fellow not a Professorial Fellow may with the consent of the Council become a Supernumerary Fellow. The Council may also elect Honorary Fellows.

The FOUNDATION SCHOLARS are elected from students of the College, or from such other persons and of such standing as the Council may think fit. The annual election takes place in June, and all vacancies must be filled up not later than the second annual election after they occur. Scholars, if not graduates, must proceed to some degree at the regular time. The Scholarships are of the annual value of not less than £40, and not more than £100 each. Their tenure is contingent upon residence, good conduct, and application to study. It may be prolonged by the Council, if they think fit, until the Scholar is of standing to Incept in Arts, or for any shorter period.

The nine Sizars, called PROPER SIZARS, on Dr Dowman's Foundation 1525, have their Commons free, and usually hold Exhibitions. They are chosen from the other Sizars after a residence of, at least, three terms, preference being usually given to those who have distinguished themselves in the examinations, and by their conduct have obtained the approbation of the College.

By gift from Dr James Wood, Master of the College 1815—1839, the sum of £360 is assigned annually in Exhibitions to the most deserving Students, to be called Wood's Exhibitioners, account being taken of their pecuniary circumstances as well as of their moral and intellectual qualifications.

Under the like conditions the yearly produce of the Rectory of Cherry Marham in the county of Norfolk (about £520), the gift in

1623 of Sir Ralph Hare, is assigned to the most deserving Students, to be called Hare's Exhibitioners.

A Hughes Exhibition of the value of £35 (founded 1886) is awarded annually for proficiency in Biblical and Ecclesiastical History. Any undergraduate member of the College who has not already held the Exhibition may be a candidate. The Examination takes place at the time of the Annual College Examination in Theology.

The Rev. Thomas Naden, by will of 1712, left a foundation for two Divinity Studentships. By the Statutes of 1882 the number is now three. These are of the annual value of about £80 each, are open to B.A.s not of standing for the degree of M.A., and are tenable for three years from election, but not with a Fellowship. The Students are required to reside.

Mrs Ann Fry's Hebrew Scholarship, founded in 1860, of the annual value of about £32, tenable for three years from election, is open to B.A.s not Inceptors in Arts, nor of standing for the degree of M.A. In default of qualified B.A.s of the College, it is open to other B.A.s of the University. It is not held with a Fellowship.

Four Law Studentships, founded by James M'Mahon, Esq., and dating from an Indenture of 1864, each of the annual value of £150, and tenable for four years from election, but not with a Scholarship or with a Fellowship, are open to B.A.s or LL.B.s of the College not of standing for the degree of M.A. or LL.M., who shall *bonâ fide* intend to prepare themselves for practice in the profession of the Law.

The Rev. John Robinson Hutchinson, by will of 1873, left £4000, to be applied in the encouragement of Physical or Natural Science, or in promoting the study of the Semitic or Indian languages. Two Studentships, of the annual value of not more than £60 each, were accordingly founded in 1884. They are tenable with Scholarships and are open to students of the College, engaged in any of the above studies, who are of not less than nine and not more than eighteen terms standing.

## ENTRANCE SCHOLARSHIPS, EXHIBITIONS, &c.

SIX FOUNDATION SCHOLARSHIPS and four MINOR SCHOLARSHIPS are annually awarded in December by competition among persons who have not commenced residence. They range in value from £80 to £50 per annum and are tenable for two years at least. Certain Exhibitions of varying values are competed for at the same Examination. Candidates for the Scholarships must be under 19 years of age; in the case of the Exhibitions there is no limit of age. Candidates may offer themselves for examination in any of the following subjects: Classics, Mathematics, Natural Science, Hebrew or Sanskrit.

Sizars are chosen by an Examination early in Michaelmas Term in each year. Candidates are examined in Algebra, Geometry, and Trigonometry, Greek and Latin translation, and Latin Prose composition. Sizars may also be elected in accordance with the results of the Examination for Entrance Scholarships in December.

Four Choral Studentships each of the value of £40 were founded in 1888. The Students take part in the Musical Services in the Chapel. Vacancies are filled up annually in June.

Exhibitions attached by preference to certain Schools are :

Four, £40 per annum each, tenable for three years, on Dr Dowman's Foundation 1525, for scholars from Pocklington School.

Six, £33. 6s. 8d. per annum each, tenable for three years, on Dr Lupton's Foundation 1528 and 1536, and Mr Hebblethwaite's 1589, for scholars from Sedbergh School.

One, £17. 10s. per annum, tenable for four years, on Mr Aston's Foundation 1577, for a scholar from Shrewsbury School elected at Shrewsbury.

One, £20 per annum, tenable till B.A. standing, by gift 1581 from Lord Burghley, for a scholar from Stamford School nominated by the Marquess of Exeter<sup>1</sup>.

One, £10 per annum, tenable till B.A. standing, by gift 1581 from Lord Burghley, for a scholar from Westminster School, or from Hoddesden School, nominated by the Marquess of Salisbury<sup>1</sup>.

One, £18 per annum, tenable for three years, on the Spalding and Symonds Foundations, for a scholar from Bury St Edmund's School.

Four, about £32 per annum each, tenable for four years, founded 1625 by Archdeacon Johnson, for scholars from Oakham School, or from Uppingham School.

Two, £30 per annum each, tenable for four years, on Mr Munsteven's Foundation 1640, for scholars from Peterborough School, or, in default of suitable candidates from Peterborough, from Oundle School.

Three, £40 per annum each, tenable for four years, on the Duchess of Somerset's Foundation 1682, for scholars from Hereford School.

Two, £50 per annum each, tenable for three years, on the Duchess of Somerset's Foundation 1697, for scholars from Hereford School.

Two £50 per annum each, tenable for three years, on the same Foundation, for scholars from Manchester School.

---

<sup>1</sup> A Sermon, in which the gift of Lord Burghley is to be declared, is preached annually by a member of the College at Hatfield on the second Sunday after Michaelmas Day, and at St Martin's, Stamford, on the Sunday after St Luke's Day. The Preacher presents copies of Latin or Greek Verses written by Scholars.

Two, £50 per annum each, tenable for three years, on the same Foundation, for scholars from Marlborough School.

Three, £30 per annum each, tenable for four years, on Mr Baker's Foundation 1710, for scholars from Durham School.

One, £20 per annum, tenable for four years, on Mr Robins' Foundation 1721, for a scholar from Sutton Valence School.

One, £40 per annum, tenable for three years, on Dr Newcome's Foundation 1765, for a scholar from Grantham School.

Two, about £25 per annum each, tenable for four years, founded 1841 by Mr Vidal, for scholars from Exeter School elected by *ex officio* Electors.

By Stat. 32, in the case of a vacancy of an Exhibition, which is limited by way of preference to Candidates from any School, and to which the College elects, it is competent for the Council, if no Candidate of sufficient merit from such School shall offer himself, to throw the same open to competition as they may think advisable.

### ANNUAL PRIZES.

A Prize of books to the value of seven pounds, founded by bequest of Dr John Newcome, Master of the College 1735—1765, is awarded in the Michaelmas Term on the recommendation of the College Lecturer in Moral Sciences, to the member of the College who has most distinguished himself in the immediately preceding Moral Sciences Tripos.

A Prize of books to the value of about five pounds was founded in 1883 by the representatives of Charles Hockin, M.A., formerly Fellow, to be called the Hockin Prize, and to be awarded annually or periodically for some branch of Physics, with preference to Electricity. This is awarded in the Easter Term on the recommendation of the College Lecturer in Physics, to the member of the College who has most distinguished himself in the above subject in the immediately preceding Natural Sciences Tripos.

A Prize of books in each of the three years is awarded to the writer of the best English Essay on a prescribed subject.

Examinations of students of each year are held in Mathematics, in Classics, in the Moral Sciences, in the Natural Sciences, in Theology, in Law, in History, and in Modern and Semitic Languages; and prizes of books are awarded to those who distinguish themselves in these Examinations.

Prizes of books are also given to students who pass the best examination in the Greek Testament; and to students who in the judgment of the Hebrew Lecturer shew proficiency in the Hebrew language.

From a bequest by Mr William Wright in 1815, a Prize of books is awarded in each of the three years to the student who is first in the first class in any branch of study recognised in the annual College Examinations, provided he is recommended for such Prize by the Examiners.

Prizes of books were founded in 1876 by the Rev. Henry Hunter Hughes, B.D., formerly Fellow and Tutor, to be awarded one to each of the two students of the third year who have acquitted themselves best in the Examinations, all branches of study being taken into account.

The Rev. William Wilson, B.D., formerly Fellow, founded in 1817 prizes of books for the best readers of the Lessons in Chapel, whose general good conduct entitles them to the approbation of the College.

The value of Scholarships, Exhibitions, and other emoluments, tenable by persons *in statu pupillari*, is about £6700 per annum.

The annual commemoration of Benefactors is held on the sixth day of May.

## MAGDALENE COLLEGE.

(FOUNDED 1519.)

*A Copy of the Statutes in the British Museum.*

MSS. SLOANE, No. 3644—10.

THE Mastership of this College is in the gift of the possessor of the estate at Audley End.

In this College, founded by THOMAS, Baron AUDLEY of Walden, it is declared by the new Statutes, that after the expiration of interests regulated by the previously existing Statutes, there shall be seven Fellowships on the Foundation of the College, the conditions of tenure being specified in the new Statutes.

It is also declared by the new Statutes that (excepting those Scholarships and Exhibitions, the right of preference to which is preserved by Act 19 & 20 Vict. c. 88, to particular Schools) all restrictions shall be entirely removed, and the total amount of such Scholarships and Exhibitions shall form a General Fund for open Scholarships. This Fund is augmented from the revenue accruing to the College by the abolition of certain Bye Fellowships. The General Fund for open Scholarships provides for twelve open Scholarships, of values varying from £20 to at least £60 per annum.

Where the right of preference to a Scholarship or Exhibition is preserved to a particular School or to particular Schools by Act 19 & 20 Vict., such right of preference shall be limited to persons who have been educated at least two years at such School or Schools; and in case of a vacancy in such Scholarship or Exhibition, for which no candidate of sufficient merit coming from such School or Schools shall offer himself, it shall be competent for the Master and Fellows to throw the same open to general or extended competition as they think advisable.

There are four Milner Scholarships of £60 a year each, with a preference to Scholars from Leeds, Halifax, and Heversham Schools.

There are four Holmes Exhibitions of £70 a year each, for Scholars from Wisbech School.

There is a College Exhibition of about £36 a year open to Candidates who have not commenced residence. Application for this Exhibition must be made to the Tutor.

The annual Pepysian Benefaction, value £50, is in the Master's gift, and is usually bestowed by him upon poor and deserving students.

The Mynors Bright Benefaction, value £15, is given annually by the Governing Body to some deserving student or students.

The foundation estate of Lord Audley consists of the impropriate parsonage of St Catherine Cree Church, in London: and also a considerable part of the city, anciently called Covent Garden, Christ Church.

### ANNUAL PRIZES.

Books to the amount of £2. 12s. 6d. are given to the best proficient in each of the three years, at the annual examination in Classics and Mathematics at the end of the Easter Term.

Prizes of £5. 5s. and £3. 3s. are given in Books by the Master to the Students who are the highest in the first class of the Theological Tripos and the first class of the Special Theological Examination in June, and whose general conduct has been satisfactory.

KING'S HALL.

MICHAEL-HOUSE.

## TRINITY COLLEGE.

(FOUNDED 1546.)

THIS noble and magnificent College, the Mastership of which is in the appointment of the Crown, was formed by the consolidation and extension of several earlier foundations. (1) That of Michael-house, founded in 1324 by Hervey of Stanton, Chancellor of the Exchequer in the reign of EDWARD II. (2) King's Hall, founded in 1337 by EDWARD III., in pursuance of an uncompleted plan of his father. (3) Phiswick's Hostel and Oving's Inn.

HENRY VIII. took these into his own hands, and from the revenues of the above Societies, very largely increased by himself, he founded in 1546 one spacious College, for the maintenance of a Master and sixty Fellows and Scholars, dedicating it to the Holy and Undivided Trinity. Queen MARY afterwards added twenty Scholarships, and through subsequent benefactions the foundation now consists of a Master, sixty Fellows (at the least), seventy-four Major Scholars (at the least), the Minor Scholars, sixteen Sizars (at the least), the Chaplains, the Librarian, and the three Regius Professors of Divinity, Hebrew, and Greek respectively.

The GOVERNMENT of the College is vested in a Council, consisting ordinarily of the Master, four other *ex-officio* Members, and eight elective Members in virtue of the Statutes made in accordance with the provisions of the "Universities of Oxford and Cambridge Act, 1877," and approved by Her Majesty in Council, May 3, 1882.

The FELLOWS of this Society are elected from all members of the College or other Members of the University if the electors think fit, who have attained the degree of Bachelor of Arts, or some equal Degree, and whose standing after such degree does not exceed three years; there is no appropriation whatsoever. Fellows so elected vacate their Fellowships after six years from election except in the case of those who hold the more important University or College offices, or have held any such office for at least

fifteen years. The College has also the power of electing to a Fellowship any Professor or Reader of the University or a College Lecturer or any person eminent for science or learning, and can elect to an Honorary Fellowship any person distinguished by literary or scientific merits.

The SCHOLARSHIPS\* are open to all Undergraduates of the College and to persons who are not yet resident members of the University, provided that these last are under nineteen years of age. Ordinary Major Scholarships are generally tenable until the expiration of five years and six months after commencing residence. Their annual value is for a resident Undergraduate £100, and for a resident B.A. £80. Major Scholarships awarded before commencing residence are of the value of £80 a-year during residence, and are tenable for two years only, unless the tenure be prolonged by the Council, or the Scholar be elected to an ordinary Major Scholarship after commencing residence. The Examination for Scholarships is held shortly before Christmas in each year.

MINOR SCHOLARSHIPS AND EXHIBITIONS†. Besides the Major Scholars not less than six MINOR SCHOLARS AND EXHIBITIONERS are chosen every year, at the same Examination. It has been usual to award three Minor Scholarships of the value of £75 per annum, and three of £50, besides Exhibitions of £40. These are open to all persons under nineteen years of age, who have not commenced residence in the University. They are tenable for two years from the day of election, or until the Scholar be elected to one of the Major Scholarships. No Scholar is entitled to any emoluments from his Scholarship until he has commenced residence in the University.

Of the value and number of the appropriated Exhibitions, the following is a statement:

Two or three annually from Westminster School, £40 per annum each.

Two, founded by Mr Perry, £40 per annum each, to Scholars from St Paul's School, London.

One, by Mr Hopes, £3. 8s. 8d. for Scholars from Lynn School.

One, by Rev. R. B. Podmore, value about £40, for the name and kindred of the founder. In default of such to a native of the county of Salop, educated for four years at least at the Grammar School of Shrewsbury.

In the year 1858 the representatives of the Rev. Richard Sheepshanks, late Fellow of the College, established an ASTRONOMICAL EXHIBITION in the College, of the value of fifty pounds per annum,

\* Foundation Scholarships are generally obtainable by proficiency in Classics, Mathematics, Natural Sciences, Moral Sciences or other subjects of which notice is given from time to time. In Moral Sciences the Examination is open to all Undergraduates of the University of Cambridge who have passed the Previous Examination, including that in the Additional Subjects.

† The Minor Scholarships and Open Exhibitions are at present obtainable by proficiency in Classics, Mathematics, or Natural Sciences. Exhibitions are obtainable by Undergraduates of the College for Theology, Law, History or Semitic Languages.

tenable for three years (under conditions of residence which may be dispensed with by express permission of the Council), and open to the public competition of all Undergraduates of the University; but the person elected, if not a student of Trinity College, shall thereupon become a student of that College.

In the year 1871 the sum of £600 was given by Alfred John Vidil, Esq. to found a Prize for proficiency in the French language and literature, to be called the VIDIL PRIZE. Also in 1877 the sum of £500 to found a second Prize was given by a French gentleman of high rank, who desires that his name may not be made known. The Prizes are adjudged triennially after an Examination held in the Lent Term, which is open to Undergraduates of the College in their first, second, or third year of residence.

Under the Will of Mrs. A. M. Mednyanszky, wife of Col. A. Mednyanszky, a sum of £1000 was invested in the year 1877 for the purpose of founding a Lectureship in Ecclesiastical History, to be called the BIRKBECK LECTURESHIP, in memory of T. B. Birkbeck and F. G. Birkbeck, the brother and sister of the donor. The Lectureship is tenable for two years, and is in the gift of the Council, whose choice is restricted to Graduates of Oxford or Cambridge.—Present Lecturer, James Bass Mullinger, M.A., St John's College.

The late Mr W. G. Clark, Senior Fellow and Vice-Master of the College, having left his estates at Dows Gill and Bowes, in the county of York, to the Master, Fellows, and Scholars absolutely, the Council have established a Lectureship in the Literature of England from Chaucer to the present time, to be called the CLARK LECTURESHIP; the Lecturer to be appointed for three years with a stipend of £200 a-year, and to be eligible for re-election. He is required to deliver a course of not less than twelve lectures in full term, according to a scheme to be appointed by the Council. Present Lecturer, John Wesley Hales, M.A.

The late Rev. Coutts Trotter, Vice-Master of the College, founded by bequest a Studentship (called the COUTTS TROTTER STUDENTSHIP) for the promotion of original research in Natural Science, more especially Physiology and Experimental Physics. The studentship, which is awarded at intervals of not more than two years, is open to graduates of the college, not being Fellows, who are of not more than seven years standing from the time of commencing residence. The studentship is not awarded by Examination, and in the election regard is had more to the promise of power to carry on original work than to the amount of work already done. The student during his tenure of the studentship is to devote his time to the promotion of research and is not systematically to engage in any Educational or other work which in the opinion of the Council would hinder such research. The student receives (if the income of the endowment

suffices) £250 a year, or, if a scholar, such sum as together with his scholarship amounts to £250. Provision is also made for a Reserve Fund, from which grants may be made for special purposes.

There are sixteen SIZARS upon the foundation. The value of a Sizarship including all allowances is about £100 a year, and of a Sub-Sizarship about £40.

Candidates for Sizarships may be either Sub-Sizars of the College, or persons under 19 years of age not yet members of the University. The Examination is the same as that for the Scholarships.

Sub-Sizars, who distinguish themselves in the College Examination in June, are eligible to Sizarships as vacancies occur.

### ANNUAL PRIZES.

Dr Paris left a prize of £4 for the best *Latin Declamation*. The College sometimes adds a second prize if the Examiners so advise.

Dr Hooper left three silver goblets as prizes, one of £20, the other two of £10 value each, for the three best *English Declamations*.

A prize of £10 left by Mr Greaves of Fulbourn is awarded for an Essay on some subject connected with the History of the British Empire.

Three Prizes are given by the College, for the best compositions in *Latin Verse*, in *Lyrical*, *Heroic*, and *Elegiac metres*: a subject is proposed at the beginning of each term, and a prize is awarded to the author of the best Exercise in each subject. An additional prize is awarded if there be a second Exercise of especial merit on any of the subjects. The Prize in two of the three terms may be offered, at the discretion of the Head Examiner, for the best Translation of a passage from English into Greek or Latin Prose or Verse.

Dr Walker left a rent-charge of £10 for one or more poor Scholars, who shall appear to the Master, Vice-Master, and Senior Dean, most deserving at the time of taking the Bachelor's degree.

One or more similar Prizes, of £10 each, are given annually from a Fund contributed by the Rev. W. C. Mathison, late Vice-Master of the College.

The best Reader in Chapel receives a prize of £4, the second a prize of £2, at the discretion of the Senior Dean.

A prize has been instituted by the College for the best *English Essay* on some Literary, Moral, or Antiquarian subject.

A Prize founded by Archdeacon Wrangham in the year 1842 is given annually to a Commencing Bachelor of Arts who shall have been placed in the First Class in the College Examination held at the end of his first year, and who shall have subsequently

obtained a First Class in Part I. of the Classical Tripos, and shall have finally obtained a place either in the First Division of Part II. of the Mathematical Tripos, or in the First Class of Part II. of the Classical Tripos.

The Rev. Peter Leigh, in the year 1849, gave £515, 3 per cent. Consols, as an augmentation of the Wrangham prize, the Interest of which is payable to the best commencing B.A. qualified as above.

The Rev. E. Yeats founded two Prizes of ten pounds each, to be given in Books; one to the Scholar on the Foundation who shall stand highest in the Mathematical Tripos: the other to the Scholar who in the opinion of the Master, Vice-Master, Deans, and Head Examiner, shall have most distinguished himself for general regularity of conduct.

The friends of the late Archdeacon Dealtry in the year 1850 founded two prizes of about fifteen guineas each, to be called the Dealtry Prizes. These are given to the Freshman and Junior Soph who pass the best examination in the Greek Testament, and are also awarded prizes in the College Examination, or in the case of a Junior Soph placed in the First Class in one of the Tripos Examinations.

The sum of £225 Cape of Good Hope 4 per cent. Inscribed Stock has been given to the College by Mr E. E. Bowen, a former Fellow, for the foundation of a prize for the encouragement of the study of Modern History; the examination for such prize to be in the subject of Modern History generally, no special period, books, or subjects being set or recommended beforehand. The College awards an Exhibition of £50 to the Junior Soph who stands first in the Annual College Examination in History. This Exhibition is tenable for one year, but may be held a second year if the Exhibitioner obtain a First Class in the Historical Tripos.

The Examinations in Mathematics, Classics, Theology, Law and History, for those in their first or second year, take place soon after the division of the Easter Term; those in Moral Science and Natural Science at the end of the Michaelmas Term. Prizes of books are awarded to those who distinguish themselves in the Examinations; viz. to (1) those placed in the First Class in the various Examinations, and (2) those who, failing to obtain a First Class in either Mathematics or Classics, are considered by the Examiners worthy of a prize on account of their position in the two lists. Twenty-five pounds are given annually in Greek Testament Prizes to not fewer than five Freshmen or Junior Sophs not being Dealtry Prizemen. Thirty-five pounds are given as an Exhibition to the Junior Soph who passes the best Examination in Theology. The examiners are the Head Examiner and certain of the Fellows and Lecturers appointed annually.

## EMMANUEL COLLEGE.

(FOUNDED 1584.)

*Copies of the original Statutes in the British Museum*

MSs. SLOANE, No. 1739.

THIS College was founded by Sir WALTER MILD MAY, Chancellor of the Exchequer and Privy Councillor in the reign of Queen Elizabeth, and is now governed by Statutes confirmed by Order of the Queen in Council, 3 May, 1882. The Foundation consists at present of the Master, thirteen Fellows (who shall be either Senior or Junior Fellows), and twenty-four Scholars. The Junior Fellowships are tenable for six years from the date of election, and are open to all Graduates of the University of Cambridge or of Oxford. The Senior Fellowships are tenable generally so long as the persons elected hold any one of the following qualifying offices of the University, viz.: Professor, Reader, Orator, Librarian, Registrary, or any one of the following qualifying offices of the College, viz.: Dean, Tutor, Bursar, Assistant-Tutor, Lecturer. Besides persons holding any one of these offices any person eminent in Theology, Literature, or Science is eligible to a Senior Fellowship. One of the Senior Fellowships is appropriated by Statute to the Dixie Professor of Ecclesiastical History. After a certain length of tenure, depending in each instance on the qualifying office, a Senior Fellow becomes entitled to hold his fellowship for life.

The Scholarships paid out of the general revenues of the College are as follows, viz.:

Two Scholarships of £80 per annum.	
Two .....	£70 .....
Eight .....	£60 .....
Six .....	£50 .....

In cases of special merit the values of any of these Scholarships may be increased by grants from the Exhibition Fund.

There are also [five] Scholarships on the foundation of Dr Thorpe. These Scholarships are awarded to students of not less

than three terms standing, [two] of them at least being awarded for proficiency in Theology. They are tenable with any one of the above-named Scholarships on the College Foundation.

In addition there are the following Scholarships and Exhibitions with preference in favour of Candidates from certain Schools, viz.:

3.	Sir Wolstan Dixie	£30 .....	{ Market Bosworth School.

Besides these there are other Exhibitions arising from accumulations from vacancies which are applied to the encouragement and assistance of deserving students.

Scholarships are usually awarded to resident members of the College after the College Examinations in the Lent and Easter Terms, and are tenable till B.A. or with special permission of the Governing Body until M.A.

Scholarships (tenable in the first instance for not more than two years) are also offered for competition to Candidates who have not commenced residence at an Examination which is held in March and December in alternate years. One Scholarship of £80, two of £60, and two of £50 will be offered for competition in the month of March, 1892.

In the disposition of the Fellowships, Scholarships, &c. of the College, distinction in any branch of study encouraged by the University will be fully recognized.

There are two Subsizarships of the value of about £30 open to Candidates who have not commenced residence and tenable for one year, and four Sizarships of about £45 tenable for two years. Application for a Subsizarship must be made to the Tutor.

The present Society consists of the Master, ten Fellows, and twenty-four Scholars.

There are Lectureships in Mathematics and Natural Sciences on the foundation of Mr Taylor.

## DOWNING COLLEGE.

(FOUNDED SEPT. 22, 1800.)

*The Charter and Statutes are printed.*

THE sole founder of this College was Sir GEORGE DOWNING, Bart.,<sup>1</sup> of Gamlingay Park, in this county; who, by a Will, dated 20th December, 1717, devised his estates in the counties of Cambridge, Bedford, and Suffolk, first to Sir Jacob Garrard Downing, and afterwards to other relations in succession, and in failure thereof, to build and found a College in this University, upon a plan to be approved by the two Archbishops and the Masters of St John's and Clare College. This direction was the reason for giving them the power which they possessed in elections and other matters, by the original Charter and Statutes.

Sir George died in 1749, and Sir Jacob in 1764, and (the other devisees having previously died without issue) upon this event the foundation ought immediately to have been carried into execution. But the estates were in the possession of Lady Downing, and afterwards of her devisees, without any real title: and when the University sued in Chancery for the establishment of the College, the party in possession resisted the suit in that court. In 1769, a decree was obtained in favour of the foundation.

The persons named as trustees in the Founder's Will having died in his lifetime, the execution of the trusts devolved upon the heirs at law; who after combating a long series of opposition and litigation, and overcoming obstacles of various descriptions, preferred a petition to the Crown for a Charter; and at length, in 1800, the Privy Council decided to recommend the foundation to his Majesty.

On the 22nd of September, 1800, the Great Seal was affixed to the Charter by Lord Loughborough. By this Charter the College was incorporated with the University; was endowed with all the privileges of the same, and with all the estates devised by its Founder; and also with the power of holding landed property in addition to the value of £1500 per annum.

The members appointed in the Charter, for the purpose of taking possession of the estates, administering the revenues, superintend-

ing the building of the College, and for the other necessary purposes were

Francis Annesley, LL.D. <i>Master</i> ,	
Edward Christian, M.A. and Barrister, <i>Law Professor</i> ,	
Busick Harwood, M.D. <i>Professor of Medicine</i> ,	
John Lens, Sergeant at Law, and M.A.,	} <i>Fellows.</i>
William Meeke, Barrister, and M.A.,	
William Frere, B.A.,	

The first Statutes were framed in 1805. In 1860 new Statutes were given by the University Commissioners under the provisions of 19 and 20 Victoria c. 88, and in 1882, revised Statutes under the provisions of the Oxford and Cambridge Universities Act, 1877. According to these Statutes the College shall consist of a Master, two Professors (one of the Laws of England, and one of Medicine), of at least six Fellows, and of at least six Scholars.

The Master, who is elected by the Professors and Fellows, must be a Master of Arts, Master of Laws, Doctor of Medicine, or of some superior degree in the University, and of not less than thirty years of age.

The Professors are elected in accordance with the provisions of the Statutes of the University for Elections to certain Professorships, the Electors being the Board of Electors defined by that Statute, together with the Master if he be not a Candidate. The Law Professor must be, at the time of his election, a Graduate in Law or Arts of one of the English Universities of ten years' standing from his matriculation, and also a Barrister-at-Law. The Medical Professor must be, at the time of his election, a Graduate in Medicine of one of the Universities of the United Kingdom, and of not less than twenty-five years of age. The Professors have by the Charter the same privileges, franchises, and liberties as any Professor in the University, and are bound to read a course of lectures in their respective faculties, on the usual terms upon which public lectures are given. They are capable of holding any of the lay offices in the College.

Candidates for Fellowships must have taken a degree in Arts, Law, or Physic in one of the Universities of Cambridge or Oxford, and must not be above thirty years of age. The electors are the Members of the Governing Body. The Fellowships are tenable for seven years from election, provided that no year in which a Fellow shall have been engaged during two terms in College work shall be reckoned in his term of seven years, and provided also that any Fellow who has held the office of Tutor during twenty-five years shall be entitled to retain his Fellowship for the rest of his life.

A Fellow vacates his Fellowship by election to a Professorship of the College, by becoming a Foundation Member of any other College in any University in the United Kingdom, or by institution to an Ecclesiastical benefice in the gift of the College, the net annual value of which is not less than four hundred pounds.

Provision is made for one or two Chaplains according to the circumstances of the College, the right of appointment being vested in the Governing Body.

### SCHOLARSHIPS.

The foundation Scholarships are worth not less than £50 per annum, with the addition, in some cases, of rooms rent free and an allowance for commons. Foundation Scholarships are tenable *at least* until the holder be of standing to take the degree of Bachelor of Arts.

In case of sufficient distinction, the period of tenure is extended to the time when the holder of a Scholarship is of standing to take the degree of Master of Arts.

Scholarships are awarded to students of the College at the annual Examination after the division of the Easter Term.

The Scholarships are awarded for distinction in Natural Science, Moral Philosophy, History, or Law.

Scholars elected in July, 1891: Rowland, Wheatercroft, Wedd.

### MINOR SCHOLARSHIPS.

Two Minor Scholarships are offered annually for competition, among persons who are not members of the University, or Undergraduates who have not resided one whole term in the University.

The Examination takes place in the Easter Term.

The Minor Scholarships are worth from £40 to £70 per annum, and tenable until their holders are of standing to compete for a Foundation Scholarship.

The Examination is in Law and Natural Science, but Candidates in Law and Natural Science are expected to shew such a knowledge of Classics and Mathematics as will enable them to pass the Previous Examination. The Examination in Law includes Jurisprudence, Elementary Roman Law, International Law and English Law. The Examination in Natural Science includes Chemistry, theoretical and practical, Physics, Comparative Anatomy, Physiology, Botany and Human Anatomy.

Candidates in Natural Science must be under the age of 19 years. There is no such limitation in the case of candidates in Law.

Minor Scholars elected in July, 1891: Binning, Heard.

Prizes of books, value £3. 3s. or £2. 2s., are given to those Students who most distinguish themselves at the annual Examination in the Easter Term.

The late Mr John Bowtell, of Cambridge, who gave by his Will a considerable property to charitable uses, bequeathed to Downing College a collection of books, manuscripts, fossils and antiquities, with a request that the book-cases containing them might be

placed in the college library. Among the manuscripts is a History of the Topography and Antiquities of this town, prepared for publication by Mr Bowtell.

# PUBLIC HOSTELS.

## CAVENDISH COLLEGE.

THIS College is a Public Hostel in the University (Grace of the Senate, Nov. 9, 1882). It was opened in 1876 by the County College Association, but passed from the hands of that Association and was reconstituted in 1888. The government of the College is now vested in the Council, which consists of the President and Vice-Presidents, who are elected for life by the Council; of twelve Ordinary Members, serving for three years, elected by the Association of Cavendish College; of three Members appointed by the Council of the Senate; and one or more appointed by those Members of the Senate whose names are on the College Boards.

The object of the College is to enable students somewhat under the usual age of undergraduates to obtain a University education under proper supervision, and at a moderate cost.

The foundation stone of the present buildings was laid on October 26, 1876, by his Grace the Duke of Devonshire, Chancellor of the University, and first President of the College.

Open Scholarships of the value of £50 and £30 per annum are offered in Classics, Mathematics, Natural Science and Modern Languages, and Scholarships of the value of £30 are awarded to undergraduates of the College in the various subjects studied in the University. A Scholarship is also given by the results of the Senior Local Examination, and there is an Organist Scholarship.

A prize for knowledge of the Greek Testament of the value of £5 a year, open to undergraduates of the second year, has been founded by Mrs J. Y. Gibson.

Prizes of books are also given to those who distinguish themselves in the College Examinations.

## SELWYN COLLEGE.

(FOUNDED 1882.)

THIS College has been built by public subscription in memory of GEORGE AUGUSTUS SELWYN, late Bishop of Lichfield, and formerly Bishop of New Zealand. By the terms of its charter it is founded 'with the especial object and intent of providing persons desirous of academical education, and willing to live economically, with a College wherein sober living and high culture of the mind may be combined with Christian training, based upon the principles of the Church of England.' It is governed by a Master and Council consisting of not more than sixteen members, of whom five are *ex officio*. It was incorporated by Royal Charter on September 13, 1882, and recognised as a Public Hostel of the University by Grace of the Senate, Feb. 8, 1883.

Entrance Scholarships are given annually in Classics, Mathematics, and Theology, and an Organ Scholarship of £30 is awarded from time to time. An annual Prize of £3 is given for proficiency in Greek Testament. 1891, Not awarded.

Prizes of Books are also given to those who distinguish themselves in the University or College Examinations.

## AYERST HALL.

(OPENED 1884.)

THIS Hall was opened by the Vice-Chancellor, April 21, 1884, under the Statutes for the Establishment and Regulation of Hostels, confirmed by the Queen in Council, July 31, 1858.

The primary object is to enable Theological and other Students to keep their Terms at Cambridge at the same cost as at the younger Universities and at Theological Colleges, thereby bringing the expense of education at this University within the limits of moderate Professional incomes. The Students have all the privileges and status of Collegiate Undergraduates.

There are four Scholarships of £20 a year each, tenable for two years during residence. Two are offered for competition at the end of the Easter Term in each year, to be awarded only to Candidates who are considered likely to take a Degree in Honours, and who have already kept at least three terms at the Hall.

Candidates for these Scholarships may offer for examination the subjects of any Tripos. There are also Exhibitions of £20 a year for converts from the Mission field.

A Prize of books to the value of two guineas is given to the best proficient in each year, and an Annual Prize of the same value for the best English essay on a sacred subject.

## NON-COLLEGIATE STUDENTS OF THE UNIVERSITY.

In the year 1869 a Statute was confirmed in accordance with which Students may be admitted Members of the University without being Members of any College or Hostel. Such Students keep Terms by residing in Cambridge with their parents, in lodgings duly licensed, or, in special circumstances, under the care of Masters of Arts or other persons who receive them into their houses with the consent of the University authorities. All Non-Collegiate Students are entitled to be matriculated, examined, and admitted to Degrees in the same manner and with the same status and privileges as Students who are Members of Colleges. MEMBERS OF THE SENATE NOT ON THE  
BOARDS OF ANY COLLEGE OR HOSTEL.

THE privilege of being a member of the Senate without being on the boards of any College was formerly granted only to residents in Cambridge, *Commorantes in villa*; but it has been extended by the new University Statutes to all persons qualified to be Members of the Senate, that is, to all Masters of Arts and Law, and Doctors in Divinity, Law, and Medicine, who have had their names consecutively on the boards of their College, or who have paid up all the back fees, which have been unpaid while their names were not on the boards.

Every such person has a vote in the Senate and the use of the University Libraries, Museums, &c. The University dues are four shillings and threepence a quarter, which sum is paid by all members of the University from the date of admission.

These payments are made through the College, as long as a person's name is retained on his College boards; but those persons who form the present list pay direct to the Registrary, usually in one annual sum of seventeen shillings every Michaelmas.

In case any person wishes to have his name placed on the University Register, whose name has for any period since his first degree been removed from the boards of his College, he must furnish to the Registrary a certificate, signed by the Master of his College, that his name has been removed from the boards, with the date of the removal, and that up to the time of such removal all the University dues have been paid. As soon as he has paid all arrears (but not until then), his name can be placed on the Register: and as soon as this is done after the completion of his Master's degree, he acquires the right of voting; if he restores his name after having removed it, 180 days must elapse after his admission to the Register before he acquires the right of voting.

In the following list, the names are arranged according to seniority, under the highest qualifying degree. Where any person has graduated in more than one faculty, it is so stated; and the name of the College is added to which every one formerly belonged.

# LAWS AND BYE LAWS

OF THE

## CAMBRIDGE PHILOSOPHICAL SOCIETY.

THE CAMBRIDGE PHILOSOPHICAL SOCIETY was established November the 15th, 1819, for the purpose of promoting scientific inquiry, and of facilitating the communication of facts connected with the advancement of Philosophy and Natural History; and became a Body Corporate by virtue of a CHARTER granted by His late Majesty King WILLIAM the Fourth. This Charter, bearing date the 3d day of August, 1832, was formally accepted by the Society at a general Meeting held after due notice for that express purpose, Nov. 6th, 1832.

The meetings of the Society are held in one of the new Lecture Rooms, and its Library kept in a room in the Museums building.

### ABSTRACT OF THE LAWS PRESCRIBED BY THE CHARTER.

IT is expressly provided by the Charter—

1. THAT the Society shall consist of such Graduates of the University as were then Fellows thereof, or shall at any time become Fellows thereof, agreeably to the Bye Laws of the Society.

2. That there shall always be a Council to manage the concerns of the Body Corporate, and that the said Council consist of a President, three Vice-Presidents, one Treasurer, not more than three Secretaries, and not more than twelve nor less than seven other Fellows, to be elected out of the Fellows of the said Body Corporate.

3. That General Meetings of the Body Corporate shall be held once in the year, or oftener; for the purpose of electing the Officers and Council of the Society, and determining the period of their continuance in office; and also of enacting such Bye Laws as may seem useful and necessary for the regulation of the said Body Corporate—for fixing the days on which the ordinary Meetings of the Society shall be held—for determining the mode in which Fellows and Honorary Members shall be elected, admitted, or expelled—and for managing the affairs of the said Body Corporate.

4. That the Fellow who has filled the office of President for two successive years shall not be again eligible to the same situation until the expiration of one year from the termination of his office.

5. That it shall be lawful at the General Meetings of the Body Corporate to alter or revoke former Bye Laws, and to make such new Bye Laws as they shall think good and expedient.

6. That no such General Meeting shall (without the consent of the Council) have the power of altering or repealing any Bye Law or making any new one, unless the Fellow or Fellows of the Society desirous of altering or repealing any Bye Law or of making any new one shall have given to the Council one month's previous notice of such his or their intention.

7. That no Bye Law shall on any pretence whatsoever be made in opposition to the true intent of the Charter, the Laws of the Realm, or the Statutes of the University of Cambridge.

8. That the Council shall (in conformity with the Charter and Bye Laws of the Society) have the sole management of the Funds and affairs of the Society, and do all such acts as shall appear to them necessary to carry into effect the objects and views of the Body Corporate.

9. That the whole property of the Body Corporate shall be vested in the Fellows thereof: but that no disposition of any lands, tenements, or hereditaments belonging to the said Body Corporate shall be made except with the approbation and concurrence of a General Meeting.

## LAWS.

1.—THE design of the Society is to promote and to publish critical researches into the languages and literatures of the Indo-European group of nations, and to promote philological studies in general.

2.—Any Student of Philology is eligible as a member of the Society.

3.—The annual subscription of each Member of the Society is one guinea, due on the first of January in each year. A member elected in the Michaelmas Term shall, however, on signifying his wish to the Treasurer, be permitted to pay no subscription for the current year, but in that case he shall not be entitled to receive any of the Society's publications for that year.

4.—Any Member may compound for all future subscriptions by one payment of ten guineas; or, after fifteen years' subscriptions have been paid, by one payment of five guineas (the right to compound for all future payments for five guineas after ten years' subscriptions have been paid being reserved in the case of members who have joined the Society before Feb. 12, 1891).

5.—Every Member whose subscription for any year is paid is entitled to a copy of all the publications of the Society for that year.

6.—Any person who is desirous of becoming a Member of the Society may be proposed by two Members of the Society, at any of its ordinary meetings, and, if approved by the Council, may be elected by ballot at the next meeting.

7.—No candidate shall be declared elected, unless he have in his favour at least two-thirds of the Members voting.

8.—Distinguished Philological Scholars who are resident abroad may be elected Honorary or Corresponding Members in the same way as ordinary Members. They shall pay no subscription, but shall be entitled to receive the Transactions and other documents published or printed by the Society, and to be present at and to communicate papers to the meetings.

9.—The general direction of the Society shall be committed to a Council, consisting of a President, three Vice-Presidents, a Treasurer, two Secretaries, and not more than twelve nor less than seven other Members. Each Member of the Council shall have notice of the meetings of that body, at which not less than five shall constitute a quorum.

10.—All questions involving extraordinary expenditure shall be submitted to the Society at one of its general meetings.

11.—The President, Treasurer, and Secretaries, and at least three ordinary Members of the Council, shall be elected annually by ballot, at a general meeting to be held in the Lent Term, the three senior Members of the Council retiring annually, and the President being capable of being elected two years in succession and no more.

12.—Of the three Vice-Presidents, one shall retire annually by rotation, and be incapable of re-election for the two years next following.

13.—No Member whose subscription is more than one year in arrear shall be entitled to vote or read papers at any meeting.

14.—The names of any Members whose subscription is more than two years in arrear, may, after due notice, be removed from the list of the Society, and such removal may be announced at the next general meeting and published in the proceedings of the Society at the discretion of the Council.

15.—The President, or in his absence, the Chairman *pro tem.*, shall have, in addition to his own vote, a casting vote in case of equality of numbers in any division.

16.—The accounts of the Society shall be audited annually by two auditors, to be elected at a general meeting in the Lent Term.

17.—The meetings of the Society shall take place at least once in each term, the time and place of meeting being determined by the Council from time to time.

18.—Members may introduce to the meetings of the Society strangers, not being resident members of the University, who may, with the sanction of the Council, read communications to the Society.

19.—No communication shall be read to or published by the Society without the approval of the Council and the author's name.

20.—Any proposed change in these laws shall first be submitted to the Council, and, if approved of by them, to the Society at one of its general meetings.

21. No law shall be altered or repealed, and no fresh law enacted, without the concurrence of at least two-thirds of the members voting.

All members of the Society, whose subscriptions are not in arrear, are entitled to receive a copy of all the publications of the Society and of each issue of the *Journal of Philology*.

"We heartily recommend the book to the attention of all those interested in the presentation of the 'Elements' to beginners, whether they are authors, teachers, or examiners. Authors may find suggestions for many a note on fundamental difficulties; teachers may pick up a frequent hint for class work with their more intelligent pupils; and examiners might do worse than set an occasional critical question on some of the assumptions which the author reminds us it is usual to make tacitly."—*Nature*.
